

### NO PATIENCE WITH PINCHOT-BAITERS

#### Denver Congress Refuses to Hear Patterson Finish His Tirade.

### NO ACTION ON RESOLUTION

#### Trans-Mississippians Weary of Forest Reserve Dispute—Next Session at El Paso—Rate Advances Are Opposed.

DENVER, Aug. 19.—Despite the efforts of the leaders in the Trans-Mississippi Commercial Congress to prevent the introduction of the Pinchot-baiter controversy, ex-United States Senator Thomas M. Patterson, of Colorado, prepared an attack on Gifford Pinchot this morning, which was curtailed in part by the action of the congress in declining to give additional time to Mr. Patterson, who wished to present a resolution in fuller form than allowed by the rules.

#### Throw Land Open to People.

Mr. Patterson declared that, inasmuch as Mr. Pinchot has himself concurred in a report which says that the boundaries are untrue, it will be no illegal act for the President to give back to the people the land to which they are entitled. This, he said, is the contention of the people of Colorado, who believe that they are being deprived of land to which they are entitled under the homestead act.

Mr. Patterson asked that he be given 20 minutes in which to present his resolution, but the delegates declined to take this view and his remarks were curtailed to five minutes and no action was taken. No answer was made to the argument of the ex-senator.

#### Income Tax Commended.

Resolutions were offered commending the income tax amendment, condemning the "trusts" and asking an annual appropriation for rivers and harbors. The committee on resolutions favored the admission of Arizona and New Mexico as states and the establishment of a National Department of Mines.

#### Against Higher Railroad Rates.

The Southwest came to the front with several resolutions, which were not acted upon, asking that interstate railway rates shall not be raised except by the sanction of the Interstate Commerce Commission; that the projected canal between the Mississippi and the Rio Grande Rivers be given aid; and for a 20-foot harbor for Galveston.

#### Water Commission.

Water Commission, he designated the Galveston seal, was the principal speaker of the morning. He described the harbor works and the plans for further improvement.

#### Resolutions were adopted urging the National Congress to regulate coastwise traffic.

#### Friends of best sugar secured the adoption of a resolution opposing further concessions to sugar coming from present and future possessions of the United States.

#### The Southwest came to the front with several resolutions, which were not acted upon, asking that interstate railway rates shall not be raised except by the sanction of the Interstate Commerce Commission; that the projected canal between the Mississippi and the Rio Grande Rivers be given aid; and for a 20-foot harbor for Galveston.

#### John D. Milliken, of Denver, spoke of the needs of the Northwest.

#### San Antonio, Tex., was selected for next year's place of meeting and Colonel Ike T. Fryer, of San Antonio, was chosen by the executive committee as the only candidate for president.

### TIETON LANDS NOT OPENED

#### Yakima Land Office Corrects Erroneous Report.

NORTH YAKIMA, Wash., Aug. 19.—(Special.)—The Government under the Tieton project in this valley, withdrawn from entry some four or five years ago, will not be reported to entry in the coming Fall and Winter, as has been widely reported in the Northwest.

This is the statement given out by the local land office today. The erroneous report that this land is to be restored and therefore there is no necessity for holding it from entry. These scattered tracts are, therefore, restored to entry.

The former report, which indicated that all of the Tieton government land, approximately 4000 acres, was to be restored, caused much excitement in the valley and people were preparing for a great rush.

### FREIGHT JUMPS TRACK

#### Derailed Car Blocks Traffic at Eugene Several Hours.

EUGENE, Or., Aug. 19.—(Special.)—Freight train No. 23, consisting of 23 cars in charge of Conductor Wilt and Engineer Clark, was partially wrecked near the university grounds east of Eugene, at 2:30 this afternoon.

The accident was caused by the middle arch bar breaking and throwing the car off the rails. The car continued to run on the ties for a length of 36 rails, when it left the track altogether, the car and rear trucks going to one side of the track and the front trucks to the other. No further damage was done.

ended tonight. At 6 o'clock the delegates were entertained at an informal dinner by Governor Hay, who came over from Olympia to act as host.

After the dinner the delegates met in a final session. The report of the committee on the care of released prisoners, of which Decatur M. Sawyer, of New Jersey, is chairman, was read and discussed. The report said:

"On every side we see efforts being made to keep people out of prison by modifying the laws and providing for release on parole, suspended sentences, etc. but it seems to me the weak spot today everywhere is either the utter absence of care for the discharged prisoners or the half-hearted and inadequate care which is given generally to men put out on parole. Great states spend money to put men into prison while they are within the prison walls and then let them come out with all the temptation of life around them and none but the most perfunctory care at the time when they most need encouragement, reproof, warning and support. It must be individual treatment; the paroled man must feel that he is something more than a number, and there is no wholesale way in which it can be done."

### ROBBINS BREAKS JAIL

#### MURDERER SUSPECT CAUGHT AFTER TWO HOURS.

#### Makes No Fight When Officers Stumble Upon Him in Bushes. Second Prisoner Still at Large.

THE DALLES, Or., Aug. 19.—(Special.)—George Robbins, under indictment by the Hood River County grand jury for the murder of Mrs. Emeline Chastot, his father's housekeeper, and E. Wilson, awaiting the action of the Wasco County Grand Jury on a charge of larceny from the person, escaped from the County Jail here about 7 o'clock this evening.

Robbins was captured and confined in a cell within less than two hours. At a late hour tonight Wilson was still at large.

Robbins was captured by Officers John Crate and J. W. Purooil. He was hiding in the willows by the O. R. & N. shops. The officers almost fell over him in the darkness. He surrendered without resistance and seemed to be badly frightened, remarking: "Here I am. I sprained my ankle and I'm all in."

Robbins secured a gun from the Sheriff's office. After getting out of the jail he met Ray Woolsey and told the boy if he would promise not to tell on him he would give him the gun. "Give me the gun," but did not make any promises. He notified the officers and they immediately trailed Robbins to his hiding place in the willows.

### ROAD NEARS PRAIRIE CITY

#### Grant County Town Expects to See Iron Horse January Next.

PRAIRIE CITY, Or., Aug. 19.—(Special.)—To Prairie City by January 1, 1910, is the cry of the Sumpter Valley Railroad officials, and every effort is being made to bring the railroad to this place by the first of the year. Four miles of the track have been laid within the last week.

The right of way is now cleared to a point within eight miles of Prairie City and the big cut at the top of the mountain is well under way. The company has a large force of men at work and is making rapid progress.

The people of Susanville have been assured that the Sumpter Valley Railroad will build to that place next summer. Several important transfers and business enterprises have been made upon the basis of the extension of the railroad to Susanville. The Ophir and the Dixie Meadows mines have been purchased by Eastern and Spokane capitalists with an understanding that the railroad extension will be built, and, according to rumors, large bodies of timber along the Middle Fork have recently been taken over by the railroad company as a preliminary move to the extension of the line down the Middle Fork.

### FIRE THREATENS TIMBER

#### Flames in Clark County Are Doing Much Damage.

VANCOUVER, Wash., Aug. 19.—(Special.)—A disastrous forest fire is raging in Skowasch Basin, in the region north-east of Tum Tum Mountain. Already ten square miles of timber have been burned over and the fire at last accounts was beyond control. The timber companies and others interested have a large force of men fighting the fire.

People on Chehalis Prairie fear that an east wind would carry the fire to their holdings. If a northwest wind should arise, the Weyerhaeuser interests will lose heavily in their holdings south and west of Tum Tum Mountain.

In 1904, the Skowasch Basin was burned over. There are several smaller fires north and east of the city, but these are from slashings and small fires which are under control. The sky is overcast with smoke.

### TRACT MAY GO ON MARKET

#### Eastern Oregon Land Company Plans Opening, It Is Believed.

PRAIRIE CITY, Or., Aug. 19.—(Special.)—According to rumors in Grant County, the Eastern Oregon Land Company is planning the opening for public sale and settlement of the lands in the neighborhood of Prairie City. Walter S. Martin, of San Francisco, president of the company, and T. G. Claggett, of Vale, the local agent, are riding over the country in an automobile in company with Grant Geddes, superintendent of the Sumpter Valley Railroad.

This land is in the original Dalles military road grant and extends in a belt along the northern border of the John Day Valley. The extension of the Sumpter Valley Railroad to this place will make the Eastern Oregon Company's land an attraction to settlers.

#### Taylor-Sands Company Loses.

SALEM, Or., Aug. 19.—Holding that an accretion does not attach to the lands and that said accretions remain in the title of the state and are subject to lease under the provisions of the act of the Legislature of 1907, Judge William Galloway, of the Circuit Court for Marion County, this morning sustained the demurrer of the State Land Board to the complaint of the Taylor-Sands Fishing Company, of Portland, and dissolved the temporary order of the court enjoining the board from leasing approximately 75 acres of tidelands abutting upon the holdings of the Taylor-Sands Fishing Company in the Columbia River, which are valuable fishing grounds. In appeal from this decision will probably be taken to the Supreme Court.
