Insurance Companies Paid \$200 in Advance for Examinations, Which in Many Instances Were Never Performed, Schively Admits.

OLYMPIA, Wash., Aug. 23.-(Staff Correspondence.) - Although practically unshaken in his testimony on the perjury charge against him, J. H. Sschively was forced into making damaging admissions in the impeachment trial today on the

Asserting that he was absolutely unable to give any estimate of the sums he had collected as advance examination fees on insurance companies that were never examined. Schively admitted on the stand that these sums were divided equalbetween Secretary of State Nichola and himself and that every dollar of his share had been expended.

No Record of Money Collected.

He insisted vehemently, however, that it had been his intention and is now, if permitted to do so, to make the examinations, pay his own expenses and, if loses by the work, to look to Mr. Nichols to reimburse him.

The Insurance Commissioner declared that no record had been kept of the money so collected, either officially or personal, and that it had not been placed in a trust fund to be used in making the

Schively's Share Is Thousands.

The practice of collecting examination fees in advance in this way, he said, begain in 190% Assistant Attorney-General Lee, cross examining, referred to Schively's direct testimony, showing that 182 RUNAWAYS MAY BE DEAD companies had been admitted in that period. Asked if at the rate of \$300 per company the total fees collected had not aggregated \$36,400 and his share \$18,300, Schively replied in the negative, asserting that some Eastern companies with Coast general agencies had been admitted, after a conference with the insur-000, Schively testified that he could not say whether the amount was in excess of less than that figure.

Admits He Used Money.

Referring to the articles of impeachment. Mr. Lee called attention to the fact that it was charged therein that \$2000 had been collected in fees for examinations not yet made. What did you do with your half?"

"It has largely been expended in these proceedings."

"Then, in other words, it was not expended in the interests of the insurance department, but for personal expenses?" That is so," was the reply.

"If you kept no record of fees paid in advance, how do you know what companies to examine?" asked Lee.

Ready With New Excuse.

'If I should go to examine the Boston Insurance Company, for Instance, or should send an examiner there, and a statement of expenses were submitted to the company and the Boston Insurance Company should produce vouchers showing that the fees had already been paid. it would not be asked to pay for the examination."

Schlvely's excuse for not making the examinations was that the volume of work in the office, and lack of assistance prevented him getting away. When asked how it happened that he could get away to take a position with the Pacific Livestock Insurance Company in Spokane, go to Portland and Walla Walls to act as an insurance expert on his own account, as he has testified he did, and go to the Elks' convention in Denver, Schively replied that as an employe he was under the orders of his employer, and that he had frequently told Nichols

that the examinations should be made. Got Money for No Work.

Schively was also shown from his own report that the Capital Life Insurance Company, of Denver, and the Illinois National Fire Insurance Company, Springfield, had withdrawn from this state. He admitted that \$200 each had been extracted from these companies for examinations never made, but that the an examination is not now required.

Schively testified today that the \$200 he received from the Union Guaranty Company, of Portland, was personal fees for expert services in assisting H. D. Wagnon to merge the company, then a fraternal organization, into a stock com-

Type of Humanity in New World Existed in North.

PORT TOWNSEND, Aug. 23.-News is brought by the United States revenue cutter Tahoma, which reached Puget Sound today after steaming around the world from Baltimore, that a party of ethnogolists, headed by Dr. Waldeman Yochelson, a noted Russsian explorer, and ountered at the Island of Attu, in the Aleutian archipelago, has discovered relics and skeletons that would establish the record of population of Northwestern North America during prehistoric ages. In a statement to Captain Quinan, of

the Tahoma, Dr. Yochelson said that the relies uncovered would establish completely a belief that thousands of years ago the highest type of humanity existing in the new world existed in the North. The search of the Yochelson party is directed by the Royal Russian Geo-graphical Society and will be continued several years before a formal report is

made in St. Petersubrg. A report is also brought that the Bo goslov Islands, in Bering Sea, the field of numerous changes through volcanic eruptions, is now undergoing further marked configurations.

INFANT FOUND ON PORCH

Awakened by Babe's Cries, J. H. Mc-Mann Finds Foundling at Door.

"Take good care of baby. He was born August 17."

This terse note pinned to the swaddling dothes of an infant is the only clew to the identity of a two-weeks-old baby on the veranda of the residence of J. H. McMann, at 1236 Division street, shortly after 10:30 o'clock last night. The first intimation of the babe's presence on the porch was given when the members of the family, who had retired, heard the child crying. Investigation revealed the infant wrapped in a baby quilt, directly before the front door. The babe was carried indoors and Mr. McMann notified the police. At the suggestion of the famlly the child was kept by them for the remainder of the night. Provision will

be made for its care today. The child shows every indication of health and good care, being neatly dressed and comfortably wrapped in dainty garments to protect it from the chilly atmosphere. The note pinned to the babe's clothes is written in a feminine hand.

Undertaker at Cemetery Alleges Contract for Cremation.

GOSHEN, Ind., Aug. 23.-When the funeral cortege of Charles Crary reached the cemetery today, it was met by C. B. Etiver, an undertaker, and his attorney and several policimen, who prevented the coffin being lowered into the grave, on the ground that Crary, six years ago, entered into a contract with Stiver to

have his body cremated in Chicago. The body will be held in a vault until the court decides the controversy. Crary's uncle alleges he was not mentally responsible when the contract with Stiver was made.

Government Will Probe Deeply Into Methods of Car Company in Hiring Men-Story of Attack

of Mob on Cars.

PITTSBURF, Aug. 23 .- Three columns of smoke came from the chimneys of the plant of the Pressed Steel Car Company in Schoenville tonight, the plant being in operation despite the efforts of mobs to scare off the imported workingmen. The strikers seemed to realize for the first time that the company could do

without them. More state police have been ordered here to augment the company of mounted constabulary on duty at the car plant. The strikers realize that the mounted troops are too much for them. Yet all day the troopers were subjected to abuse from windows and doors whenever they chanced to pass the home of a strike sympathizer.

Inquire Into Peonage Charge.

It was announced that the Government will heed the peonage charge against President F. N. Hoffstot and Foreman Samuel Cohen, of the Pressed Steel Car Company, to the extent of making thorough investigations of the allegations made by Albert Vamos, who swore to the charges before United States Com missioner Lindsay on Saturday.

The death list resulting from last night's rioting was swelled tonight when Mike Desoski, one of the strikers living in McKees Rocks, dled at Mercy Hospital from gunshot wounds. This brings the death list up to seven.

The dead include one Deputy Sheriff, two troopers and four strikers. The fatally wounded are three troopers, two No Trace of Boys or Launch Missing strikers, a strike sympathizer, an unknown woman and an unknown boy. Six

According to reports, Troop B, of the State Constabulary, under command of Captain Robinson, has been ordered to McKees Rocks, and, it is said, has already started for that place.

How Rioting Began.

Last night's rioting came suddenly. About 9 o'clock strikers were seen to gather at Schoenville and at O'Donovan's

& Lake Eric railroad tracks., Suddenly it was rumored a number of strikebreakers were being brought from the city into the plant. Pickets were immediately doubled. Every car that came from the city was held up. This procedure had been going on for e time when a car carrying Dep-Sheriff Harry Exler came along. was returning from Pittsburg to

Announced President Is Perfectly Willing to Discuss All Phases of Measures Openly.

BEVERLY, Mass., Aug. 23.-It was inimated at President Taft's cottage today that the Administration was prepared to defend to the last ditch its ecord on the recent tariff legislation

This was unofficially stated in connection ion with an announcement that Senstor Aldrich would be here Thursday to discuss with the President the report of the Monetary Commission and other matters. These "other matters" are supposed to include a talk on the tariff. If the Western opponents of the new tariff law expect slience from the President, or a reluctance on his part to discuss its different provisions, they will be disappointed. The Administration has burned its bridges and is ready to debate any and all schedules.

PAULHAM SETS NEW MARK

Wins in Endurance Contest, but Is Far Outspeeded by Bleriot and LeFevre in Chance Races. Wright Suit Is Censured.

RHEIMS, Aug. 23.-Glenn H. Curtisa, the American aviator, and M. Paulham, representing France, divided honors of the second day of aviation week, the former in a thrilling flight just before dusk, in which he lowered the speed record for the course, which measures 61-5 miles, to 5 minutes 352-5 seconds; the latter making two impressive highaltitude flights of 49 1/2 and 56 kilometers, respectively, in the endurance test for the prix de la Champagne.

Curtiss' performance began just as the time limit for the start of the prix de la Champagne was expiring, when the American enthusiasts had abandoned hope of seeing their representative take the field. Bleriot only a few minutes before had clipped 16 seconds off Le Fevre's

With a preliminary run along the ground of 100 yards, the machine rose lightly and shot by the tribunes at a neight of 60 feet. It was going a terrific pace, with the wing level as a plane. Curtiss made the last turn under the mistaken impression that the finish line was closer. He descended so close to earth that many thought he touched, but percelving his error, he mounted quickly, crossing the line majestically. An instant later the signal was hoisted that he had made a record.

Will Try for Bennett Cup.

Curtis said he had not pushed his mahine to its limit, adding that the most interesting incident of his flight was the view he got of his fallen rivals, strewn

around the course. The American aviator intends now to await patiently the international event for the Gordon Bennett cup, Saturday, for which he is again the favorite, after which he will try for the Prix de la Vitesse, the final of which will be con-

tested on Saturday. Paulham also made a record in the endurance test today, but Le Fevre, Sommer, Sanchis-Pesa, Bleriot, De la Grange, Lambert, Cockburn, Bunau-Varilla, Gobren, Latham, Tissandler and Farnam qualified with flights varying from 200 (Concluded on Page L)

Deputy Sheriff Beatty Captures H. E. Roberts, Who Bolted Last June-Tries to Regain Gun.

Captured last night by Deputy Sheriff Beatty, Henry E. Roberts, who escaped from the State Penitentiary at Salem last June, was found to possess a box of cayenne pepper, carried, he said, to blind bloodhounds if they were placed on his trail. He also bore a 28-caliber revolver which he, despite his manacles, attempted to seize from his captor's grasp.

The fugitive convict was recaptured by Deputy Sheriff Beatty last night at the bridge camp of the Southern Pacific Company near Oswego. Beatty trailed him Tuniatin, thence over the same road to HIGH PRAISE IS GIVEN HIM from Metzger Station to Durham and Durham and from there to Oswego, where the convict obtained employment with the railroad company.

At the County Jall Sheriff Stevens asked Roberts why he stayed in Oregon after making his escape, where he was likely to be captured. The convict replied he had a long list of people he wanted "to

Roberts is believed to have burned the barn of Oren Hathaway below Vancouver a few weeks ago. At Metzger Station he tried to induce men employed there by G. H. McElroy in clearing land to leave, telling them McElroy would not pay them. He has maintained that McElroy was one of the men who secured his conviction on a burglary charge a year ago last March. Roberts is also known as Jack Baker and was serving a threeyear sentence for burglary at the time of his escape.

PROSPERITY HURTS ARMY

Men Will Not Enlist and Standard Is Hard to Keep Up.

WASHINGTON, Aug. 23.—Returning prosperity is having its effect on recruit-ing men for the United States Army, making it more difficult to keep up the stand-ard established during the time following the panic of 1867, when splendid material was available from the ranks of the unemployed.

The authorized strength of the Army is 84,500 men, exclusive of the ship corps, which numbers 3500 men. It will not be a hard matter, therefore, to reduce the size of the standing army, in accordance with President Taft's wishes. Possibly the cause for this reduction is the difficulty of obtaining men, but the real reason is one of economy. Every man reduced means a saving of \$1000, and by July 1 next the total annual saving will amount to \$8,000,000 a year.
