HARRIMAN RESTS AND STOCKS FALL

Wall Street Disappointed That No Melons Will Be Cut by Wizard.

SLUMP ALL ALONG LINE

Speculators Prefer Dividends to Improvements-Already Guess Judge Lovett Is Soon to Succeed Harriman

NEW YORK, Aug. 5.—Two thousand feet above the sea level, at his country estate near Arden, N. Y. Edward H. Harriman is resting tonight, shielded from business cares and barred from visitors. He disappeared from the public view to a manage on less dramatic than view in a manner no less dramatic than his display of grit upon his argival from

Europe yesterday.

It was announced at the Union Pacific offices that he was resting quietly, and by telephone to Arden it was learned that there was no change in his condition. Mr. Harriman has retired in the truest sense for his "after-cure," and nothing is to disturb him.

Decided Slump in Stocks.

Just as the country eagerly read the Just as the country eagerly read the cables from abroad concerning the financier's health, and bought or sold stocks accordingly, so it has gone on since the hrief glance at him yesterday. Uneasiness was strongly reflected today in the stock market. With a weak opening, Union Pacific and Southern Pacific, together with New York Central, now classed as a Harriman stock, underwent doclines at the outset under rather heavy

seiling orders. seiling orders.

Firmness followed the first losses, but it was only temporary, and was followed even by greater decline as trading continued and by noon nearly all active stocks were off from 2½ to 5 points.

Bear operators made capital of his in-

terview of Tuesday indicating that im-provements rather than dividends would be his aim. Substantial gains were re-corded as the afternoon were on, but the on Harriman issues made the close irregular. Trading was not in a remarkably large volume, but at 2 P. M. 900,000 shares had been sold.

Lovett Picked as Successor

With Mr. Harriman's permanent re tirement from the active management his railroads considered at least a poss bility, many pick Judge Robert S. Lovett, general counsel for the Harriman lines, as his successor. This is mere gossip. Judge Lovett is a native of San Jacinto, Tex., where he was born 45 years ago. After entering the railroad legal field in 1834, he became general counsel for the Southern Pacific in Texas. When Mr. Harriman fook over the road he picked Judge Lovett as a man of ability and has since advanced him rapidly.

Harriman Recuperates at Arden. 2500 Feet Above Sea.

ARDEN, N. Y., Aug. 25.—When E. H. Harriman awoke this morning he, for the first time, surveyed the matchless view of the Ramapo Valley from his magnificent new home perchad on a peak 2500 feet above sea level. It was dusk when he arrived last night, electric lights were burning and he could get no view of the

The convalencence of the distinguished invalid is a matter of conjecture. He has decided definitely to remain at his estate here until he has fully recovered his normal strength, which he admits is

After leaving the rall road station here, it is necessary to drive quite a distance before coming to the outer line of the Harriman estate. Then it is necessary to traverse fully five miles of a private road belonging to Mr. Harriof a private road belonging to Mr. Harri-man, and access to which is given only to those who are invited. BERLIN, Aug. 25.—Die Vorwarets, the leading Socialist organ, prints an article by the Russian Socialist. Burtzeff, who unmasked the Russian spy. Azef, which is designed to correct an impression prevailing outside of Russia that the Russian Emperor is not acquainted with the objectionable methods and acts of the Russian secret police.

Burtzeff gives a facsimile page of the so-called "Journal of the Cxar," consisting of brief summaries of information prepared by the police department solely for the monarch's eye.

Burtzeff declares that through a secret channel he was enabled to examine three volumes of the Journal, which show, he says, that Emperor Nicholas is fully informed of everything going on in the police administration.
