London Hop Market Jumps to 100 Shillings.

HIGHEST IN FIVE YEARS

Oregon Hops Sell for More in England Than at Home-Readjustment Is in Progress-Weather Conditions Here Are Ideal.

An advance is due in the Pacific Coast hop market. Prices have risen sharply in London, where choice Oregons of the 1905 rop were quoted yesterday at 100 shillings cwt, the highest price touched since 1904. This is equivalent to 21.42 cents per pound there, or shout 17% cents in Oregon. The coming crop, on this basis, should be orth at least 22 cents to the grower.

For a time the Coast market was above a parity with London, but this has now been reversed. There is no reason why there should not be an equality of prices, and there probably will be in a few days. Buy-ers are keeping out of Oregon, evidently waiting until the question of quality is more definitely settled, but in California the tone is distinctly firmer. Sales of Senomas were reported yesterday at 21 cents and 19 and 20 cents was offered for Russian Rivers, on ich the best bid early in the week was

Yesterday's cablegram from England reported the weather cloudy and warm and crop prospects unchanged. No word came from Germany.

The weather in this state could not have been tetter and if it continues throughout the harvesting season, everybody will be satissed. Several more yards started picking operations yesterday and by Monday morning, picking will be almost general in this

The Krebs special train of hoppickers left for Independence in the morning with seven passenger coaches well filled. Over 200-more pickers will so up this morning and additional shipments will be made Sunday

Local dealers advanced their quotation on bluestern 1 cent to 95 cents, but goted other grades unchanged. The feeling in the cats and barley mar-

BUYING IS LARGE

Sales at Some Points Exceed Best Previous Years - Favorable Reports Continue to Come From Iron and Steel Industries.

NEW YORK, Aug. 21.—R. G. Dun & Co.'s wackly review of trade tomorrow will say: Prom the principal cities come such reports as "large Fall purchases," "active demand," "sales exceeding best provious years," "large numbers of visiting buyers" and "outlook for very active Fall trade."

The improvement in the iron and sicetrade is steadily maintained. The only department of this industry having room for new huxiness is that of steel rails, but it is anticipated that next year's production will be much heavier.

The imminence of the September report on raw cotton is a faster in helding back future orders, as the price of the raw material is still above the level of manufactured merchandise, and mills hexitate to accept orders tendered at values based on cotton under 12 cents.

Improvement in the demand for hides continues and sales of both domestic and foreign hides are larger. Prices on packed hides are firmer and some sales have been made at slight advances. Wet salted River Plattes, however, are declining.

Prices on leather are easy, as a rule, but some varieties are steady. Trade is spaceholic, but an improvement is looked for helfore long.

Closing Prices Are Strong in Chicago Wheat Market.

SENTIMENT IS BULLISH

Impression Prevails That Prices Had Declined Farther Than Was Warranted by the Present Situation.

CHICAGO, Aug. 27.—Decided strength developed in the wheat market, following slight weakness at the start, due to decilines at the principal European grain centers. Coppession in the Septembers delivery and an incidental bulge of 1½ cent in the price of that option was a feature of the first hour's trading. Sentiment was undeniably buillish nearly all day and prices at the closs was almost at the top notch. A leading elevator interest was again an aggressive bidder for the September option. Crop reports from the Northwest were generally of a favorable nature, but the impression that prices had declined farther than was warranted by the present situation seemed to have gained fresh adherents than was warranted by the present situation seemed to have gained fresh adherents. Complaints of serious damage to the corn crop in Nebraska by hot winds brought out a lively demand for corn by shorts. Prices at the close were %0 by to 100 by the higher. There was considerable strength in oats all day. At the close prices were \$6 to \$6 shove yesterday's final prices.

Previsions were firm all day and prices closed at net sains of se to 124c.
