Export Wheat Market Is on the Decline-Crop Conditions Abroad.

Weekly Grain Statistics. Hops Are Stronger.

The movement of the wheat to tide-water s increasing very slowly and the shipments to date have been much below last year's Yesterday 60 curs were received at Portland. on the corresponding day a year ago.

Enough wheat has come in, however, to enable the floor mills to begin operations. Yesterday morning the big Albins mill of the Portland Flooring Mills Company started up, as did the company's plant at Everett. Its Tacoma chill will begin grinding flour today. Prices of new-crop patent four will be assessed here in a few days. The opening price of export four was set some

day, with prices again lower all around-Ethestem quotations are down one cent, at 04 cents and all other grades are off at 05 cents. The new question on slub. Turked red and ofe is 85 cents. Selling is an a larger scale. The expert market is in a bad way. The London cable of the Merchanty Exchange reported cargoes very duff, with buyers abouting to disposition to Walla Walla for shipment was quoted nominal at 37s to 37s 8d. Options at Liverpool closed at a sharp decline of 1%d and Chicago was also lower. Crop conditions abroad are reported by the latest Liverpool Corn Trade Nava as fol-

outs 605,000,000 busies.
Russis—In the southwest threshing returns are disampointing, but harvesting indications are generally maintained for a good crop. Arrivals of hew wheat at the ports continue liberal. It is reported that the Government is taking steps to check the big movement, as the demand is urgent and present prices very attractive. In the east and northern districts rains are hinder-

ing harvesting to some extent.

Roumania—Harvesting returns are disappointing for wheat. Corn has been greatly damaged as a result of continued drouth.

There is a liberal movement of wheat from the injerior to the ports and this has checked the purchase of foreign wheat. Bulgaria—Harvesting results show some disappointment in the yield. Italy—An official report states that the indicated yield is for a larger crop. Unsufficial reports indicate a moderate yield. Spain and North Africa—Latest advices received confirm good harvests. SOMETHING GOING TO HAPPEN IN HOPS Market Evidently on the Eve of Another

in the hop market in the next few days, or present indications are deceptive. The unstrong, and it would accusion no surprise if quotations on the new crop were lifted several cents in the near future. There were orders yesterday at 21 cents in this state, in Washington and in California. There is ise good reason to believe that some of these orders are for export account; In fact, the sale of a contract reported in these columns Sunday is understood to have been for account of a Glasgow dealer.

Climatic conditions yesterday were perfect for the grawing crop. A large number of yards begun picking in various parts of the

The rains of hat ween have brightened up the hop yards in this vicinity considerably and they certainly look good at the present time. Owing to a not ever vicorous foliage the hope stand out clearly and look clean and bright, and thus far are entirely free from lice or hight. If nothing occurs to change the condition of these force will be an extra fine auxiliary of nothing decors to change the constitution of things there will be an extra fine quality of New York State hops picked this Fall-Groeece should however, realise that green picked hope do not make first quality. Much judgment should be axercised in both sime and minner of picking—waiting until they are ripe and then picking them clean. The best judges say that at the present vale the yards are maturing they should not be picked for two weeks. Hops are therefore, greener than usual

HEAVY TRADING IN PEACHES.

But Movement Would Be Larger if Prices

Were Lower.

The trads in penches was heavy yester-day, but receipts were large and not all the slock was disposed of. Fluvers complain of the high prices current. The best southern Oregon Crawfords were quoted at \$1 per box, and the price ran from that figure down to 40 cents for small unwrapped girded in the day's receipts.

weak at \$1.25\$1.75 per crate. Among the cantaloupes received was a cur of nutmers from San Francisco. Plums were plentiful and sold at prices all the way from 25 to 75 cents a box. Pears and apples were also in good supply.

Butter Moves at New Price. Nearly all the city creameries quoted but-ter at the new price of 34 cents yesterday and some outside brands were held at the same price. The quotation will probably be general today.

Ergs were very firm, with sales of fresh ranch stock at 30 and 31 cents.

There was a small supply of poultry on hand and a good demand for it at Satur-

Receipts of Eastern Washington Cantaloapes Fall Off.

SEATTLE, Wash. Aug. 80.—(Special.)—
The feature of the local market teday was
the lemon scarcity. There are absolutely
no farry lemons to be had here and local
wholesalers say none will be offered until
the middle of the week.

The cantaloupe market is becoming exhausted and Eastern Washington receipts
have been lighter thus far this season than
had been counted on.

The grain market is easy.
There is no change in the poultry or dairy
produce market. Washington creamery
butter is selling well at 35 cents, while
there is a good demand for local ranch
eggs at 35 cents.
Livestock and dressed meats are unchanged.

Alarm for Harriman Ceases and Stocks Rise.

ALL PARTS OF LIST GAIN

Union Pacific Is the Leader in the Movement-Optimistic Traffic Predictions by Eastern

Railroad Officials.

NEW YORK, Aug. 20.—The clearing up of the atmosphere of gloomy apprehensions re garding the condition of R. H. Harriman was manifest in financial circles well in advance of the opening of the stock market today. The fright which selesd the stock market community Friday night would have been dissipated before the market closed Saturday, had the session extended to the afternoon hear usual on week days. As it was, the afternoon period on Saturday and the Sunday interval saw a stocky growth of confidence that the danger of Mr. Harriman's condition had been exaggerated. The frankness of friends and members of the family of the financier, in contrast with the mystery which had been wrapped about the subject since his return from Europe and disappearance from public view, take the ground from under the feet of alarmists and rumer mongons.

The over-extended abort interest was rather serious, as the first prices quested at the Stock Exchange this morning showed an inetantance. garding the condition of M. H. Harriman was

serious as the first prices quoted at the Stock Exchange this morning showed an instantane-ous cancellation of a great part of the heavy losses suffered in the sharp decline of Sat-turday. The shorts themselves contributed to this showing by their scramble to obtain stocks, warned by the tenor of the news from Arden, and the preliminary advances estab-lished in the London market before trading had been resumed in New York. The Hart-man stocks were naturally most affected, but the meavant tone was common to the whole list. Opening gains of 1 to more than 3 points over the closing price of Saturday were general throughout.

were general throughout.

Union Pacific was a dominant influence in the market throughout the day. He occasional reactions on profit-taking brought a pause in the general movement and when its advance was renewed aggressively, the whole list responded, although in lesser degree. Union Pacific touched 2025; and closed only 12 below that

There were no new features in the news to explain the recovery in prices, aside from the changed view of E. H. Harriman's physical condition. Some of the Eastern rali-road officials advanced the suggestion that two more weaks of the rate of expansion of the freight movement in the last fortnight will see a shortage of cars on their

seasonable tightening of the money market, which continues, and the unstable level to which prices had advanced, are given their due influence in the reaction. With the their one innuence in the reaction. With the covering of a large line of shorts, the keenness of the late demand abated considerably, and the appearance of Mr. Harriman's distance etalement was coincident with a final

rally to a strong uprising.
Convertible and speculative bonds were steady. Total sales 3,250,000. United States bonds were unchanged on call CLOSING STOCK QUOTATIONS.

NEW YORK, Aug. So .- Closing quota-PORTLAND LIVESTOCK MARKET.

Prices Quoted Locally on Cattle, Sheep and

Hogs.

The hog market showed a much weaker tone yesterday and dealers quoted \$8.50 as the top price on the best hogs offered. While cartle were unchanged, the feeling was easier and unless receipts fall off a drop in prices is likely. Packers are not inclined to pay current prices. Sheep held steady, but there was a decline of a quarter on lambs, with which the trade is well supplied. Receipts over Sunday were \$85 cattle, \$85 sheep and \$113 hogs.

Late sales at the pards included: 27 light steers, average weight, \$160 pounds, \$3.75; \$6 sheep, average weight, \$150 pounds, \$1.250; \$2 sheep, average weight, \$150 pounds, \$1.50; \$2 sheep, average weight, \$150 pounds, \$1.50; \$2 sheep, average weight, \$150 pounds, \$15.50; \$2 sheep, \$2 Local prices quarte years to follows:

Heavy Movement of Wheat at Eastern Points.

CAUSES BREAK IN PRICES

Declines at All the Leading Grain Centers of Europe Also Add to the Weakness at Chicago. No Export Trade.

CHICAGO, Aug. 30 .- Wheat was weak all day, owing to general selling, based on bearish reports of various descriptions, chief among which were declines at all leading European markets, including Liverpool, where prices were off 14d to 15d. The surprisingly small decrease in the visible supply of wheat in the United States helped to steady the mar-

ket in the final hour. The liberal movement of wheat in this country was again an important factor in the stituation. The primary receipts were considerably in excess of the arrivals for the corresponding day a year ago, a large part of the grain being reported at Minneapolis Large quantities of wheat were reported en route quantities of wheat were repetitive to the latter point and arrivals there tomorrow, it was estimated, would be much more liberal. As a result of these predictions, cash wheat at all Northwestern centers was extremely heavy. Continued reluctance of foreigness to purchase American wheat also had

eigness to purchase American wheat and has a depressing effect. Great selling pressure was on the September delivery and that option manifested the greatest weakness.

Corn was weak. Declines of te to 114c in the price of the cash grain helped to weaken the options. The May delivery displayed relative strength and closed at a gain of 187 kg. but other options were unchanged to ice lower.

Trade in onte was quiet. The market closed with prices unchanged to ice higher.

Provisions closed 5e higher to 712c lower.
