In Portland great interest attaches In Portland great interest attaches to the annual conference, for there is a very large membership in the Metho-dist Episcopal church here, with 18 active preachers in the work? So far as can be learned at this time, there will be little, if any, change in the local field, although it is known that Rey. 8. H. Dewart will not again serve at St. John, which is regarded as virtually a part of Portland, so far as the church is concerned.

This has been a year of unparalleled activity and success throughout the conference, and especially in the Portconference, and especially in the Port-land district, many new houses of wor-ship having been dedicated since the last session of the annual conference.

Two ways for foreclosing on the lien were provided by the last Legislature, one, the usual method of bringing suit in court, and the other consisting of delivery of a cer-tified copy of the lien to the Sheriff, when he aftaches the property and sells it in the same way as upon an execution. It appears from the complaint that Person, who is a blacksmith, repaired tools be-longing to Hann, who is a contractor, grading on the Southern Pacific exten-sion at Bonifa, between Hillsboro and Oswego. When the time for settlement came, Hann considered Person's charge of about \$500 too high. Hann thought the price should be about \$200, and expected Person to proceed with a suit. He was too sick to work. His skin was yellow, and I hardly think there was an organ in his body that was not affected.

"It was a struggle, because of the powerful habit. One day we heard about Postum and concluded to try it and then it was easy to leave off coffee.

"His fearful headaches grew less frequent, his complexion began to clear, kidneys grew better until at last he was a new man altogether, as a result of leaving off coffee and taking up Postum. Then I began to drink it too.
