Eastern Orders for Oregon Hops at 22 1-2 Cents.

GROWERS WANT A QUARTER

Sharp Advance in Prices of Germans-Shipments From Oregon in the Past Year-Grain Trade Is Slow.

The Hastern hop trade has at last come to a realization of the fact that there will not be enough hope this year to go around. Dealers in the East are now sending in new Oregon hope but these orders cannot be executed. Limits of 22 and 22% cents are specified. Almost every grower in the state who has any hope to sell this year is holding them now for 25 cents or better. Bids of 22 cents were made in Callices from that section were that the market has a distinctly upward tendency.

The serious condition of the hop crop of Germany has caused a rapid advance in prices there. Importers are now quoting German hops to American brewers at 75 cents a pound delivered. This is the same price that prevailed during the height of the 1904 season, when the Oregon hop market went to 32 cents.

The London office of Klaber, Wolf & Netter cabled:

"Market firm at unchanged prices "Hold-A cable was received by Klaber, Wolf &

Netter from a London firm as follows: Estimate English crop at 260,000 cwt Crop promises many hops of fine quality. Market firm at 115@118s but quiet."

from Oregon for the year ending August \$1, 1909, show a total of 95,094 bales, or 42,341 bales less than were shipped in the preceding crop year. The shipments, in bales, for the past two years compare as

Speculative Excitement in Wall Street Subsides.

PRICE CHANGES NARROW

Union Pacific Is Still the Center of Interest-London Takes an Unfavorable View of Our Monetary Outlook.

NEW YORK, Sept. 13.-The dull trading and the narrowing price fluctuations in today's stock market marked the normal subsidence of the violent contortions caused by Mr. Harriman's death. No one supposed that the death of a capitalist of Mr. Harriman's power and grasp contained any positive force for the betterment of values. Therefore, the early termination of the boadlong advance of Friday termination of the headlong advance of Friday was expected. The reactionary tendency which developed on Saturday was pushed by various professional devices today in the effort to widen the swing of the price movement, on which professional trading profits depend. The growing exhaustion of last week's powerful motive forces was manifest in the reaction of the reaction and later fluitering vibrations of prices.

of prices.

The remaining traces of feverishness in the movement of Union Pacific were accounted for by the steps taken toward securing the continuity of the administration and the rumors bearing on the future policy of the vast intercent involved. The prompt election of new members of the board of directors and of the executive committee was regarded as intended to step some of the rumors of contemplated changes. The expectation that a member of J. P. Morgan & Co. was to be admitted to the

board was thus dissipated.

London took an unfavorable view of our monetary outlook and was disquieted as well by the American Copper statistics, showing

The unsettlement in the market was aggravated by rumors that brokerage houses were embarrassed by recent violent fluctuations. The derial of these rumors gave the market its first show of strength during the midday session, but was discounted by a fresh reac-

ion in Union Pacific. The weekly bank statement, published after The weeks closed on Saturday, caused much discussion and prepared sentiment for a fure hardening in money rates. Bankors do not anticipate tight money markets this Fall, in spite of the narrow reserves of the banks at present which is party due to the transfer in spite of the harrow results of the transfer to far present, which is partly due to the transfer to far francisco of another \$1,500,000 gold for shipment to Japan. There is an increasing supply of commercial paper and prime grades for the regular maturities were marked up to

45.65 per cent.

The fail in Union Pacific, allowing for the dividend off today, carried it off 7% from the high point of the rally touched on Esturday. The closing of the books today for the coming annual meeting ends any demand for rep-

resentation at that meeting.

Bonds were weak. Total sales, par value, \$3,556,000. United States bonds were unchanged on call.

Will Advance Call Loan Rate. PHILADELPHIA, Sept. IR.—Leading Philadelphia banks zent out notice today to the effect that call money rates would be advanced from 3 to 4 per cent beginning tomor-row. The explanation of this rate is that most of the institutions are loaned up.

SEATTLE STILL HAS AN OVER-SUPPLY OF PRODUCE.

Future Oats Prices Depend on the Award of the Government

Contract.

SEATTLE, Wash. Sept. 13.—(Special.)— Owing to the beavy supplies on Western ave-nue today, most of which was holdover stock from Saturday, many commodities dragged. Watermelous moved slowly, with the price not above 1 cent. Tomatoes dragged, with 50 cents the top. Cantaloupes were a drug, with huyer prices prevailing. Good pears were about the only commodity that showed strength and the price was up 25 cents, with \$1.75 the top.

for the framework of the first state of the first s

try warehouses.

In coarse cereal circles it is fait that fature prices depend largely upon the Government contract for 10,000 tons of oats, bids on which will be opened on the Coast and in the East Wednesday. If the order is placed in the Northwest, dealers look for a firm market, but if the business goes to Eastern dealers, it is felt here that the supply of cats will be is felt here that the supply of outs will be largely in excess of the demand and that prices will have to come down in order to move the enormous crop.

QUOTATIONS AT SAN FRANCISCO.

Locust Plague in Argentine Wheat Districts.

NEWS AFFECTS MARKETS

Causes Active Buying in the Chicago Plt and Prices Advance. Heavy Movement in This Country.

CHICAGO, Sept. 13 .- Attention of traders in the wheat pit was diverted temporarily from domestic conditions, which have been growing more bearish daily, to the situa-tion in Argentina, where the growing crop of wheat is now said to be threatened by iccusts. One of the leading implement con-cerns in this country was reported to have recoived a message from that country claim-ing that the crop had already suffered conaiderable injury, and this report was con-firmed partially by other dispatches from private sources. These reports inspired active buying loward midday and throughout the remainder of the day demand continued

Early in the session the market was de-pressed by the enormous receipts in the Northwest, which were the largest on record. Arrivals today at Misseapells and year. The firmness of cash wheat here and

and during the day sold between \$1.01% and \$1.02%. December ranged between 96% and 98%c. The market closed strong at almost the top, September being at \$1.03% and December at 98% \$28%c.

Considerable weakness in the corn mar-ket was evidenced, but the late strength of wheat caused a firmer feeling in the final

wheat caused a firmer feeling in the final hour. The market closed about steady with perices a shade higher to be lower, compared with Saturday.

Weakness of corn prompted moderate profit taking in oats. The market rallied a triffe late in the session. Pinal quotations showed gains of a shade to be. Provisions wore weak with the exception of September pork, which made slight gains. At the close September pork was up 12 be, while the remainder of the list was 7 be to 30 @ 32 be lower.

The leading futures ranged as follows:

GOLD FOUND NEAR ADAMS

Goldendale Prospectors Believe They Have Valuable Claims.

NORTH YAKIMA, Wash., Sept. 11 .-(Special.)—A rich gold strike has been made near Mount Adams, according to a report which reached here today. Five Goldendale men left that place a month Goldendale men left that place a month ago on a prospecting tour and have just returned. They are B. E. Wright, J. A. Winegardner, P. F. Ochs, P. J. Peterson and F. A. Schnickle.

'The new gold field which they discovered lies in the Niggerhead country, near the Cispus River. The party took some of the samples of quark to Do.

some of the samples of quartz to Port-land, where they were assayed and showed to be rich. The men at once hurried back and staked out 12 claims. They say that this field was worked by two miners between 1873 and 1894, but that no effort was made to enlarge and
