THE MORNING OREGONIAN, WEDNESDAY, SEPTEMBER 15, 1909.

Coos Bay cities and those of the sur-

rounding district will soon have the

satisfaction of seeing the harbor at that

point dredged out and made accessible

to practically all deep-sea craft, for the

enterprising citizens recently decided

not to await the Government's action.

but to go shead with their own im-

provements. In order to accomplish their object the citizens have incorporated the Port of Coos Bay and have opened the sale of bonds for providing for funds to es-tablish a first-class harbor at the South-ern Oregon port. Scaled proposals for these bonds are to be received by J. C. Gray, treasurer of the Board of Com-missioners of the port, and are to be

missioners of the port, and are to be received at the First National Hank of

375 missioners of the port, and are to be received at the First National Bank of North Bend. November 9 is named as the closing date when all bids must be on hand. The bonds to be issued are of \$1000 each and are to bear interest at the rate of 5 per cent, and payable semi-annually at the United States National Bank, of Portland, or the Hanover National Bank, of New York. The first 25 bonds are to be due in 29 years, and the next and final 25 are to be rate. In issuing these bonds the citizens of Coos Bay realize that a good harbor means added opportunities in many lines, and the providing of transportation facilities by water they will enjoy increased traffic.
380 up transportation facilities by water they will enjoy increased traffic.
3910 The resources of Coos and Curry Counties are yet only partially developed, and the providing of transportation facilities by the water route means much to that section of the state. Coos Bay forms a natural harbor, but in its present state it is unable to accommondate some of the largest deep-sea craft, and this is the object of the projected work.

450 KANSAS CITY IS DELAYED

Coastwise Vessel Encounters Dense

Fogs En Route North.

Delayed several hours by dense fogs en route from San Francisco was the lot of the steamship Kansas City on her trip to Portland from the Bay City. Captain Ridston, who brought the steamer into port early yesterday morning, though several hours iste, reported that she had experienced the densest fogs seen for several months.

several months. The Kansas City brought a full list of

The Kansas City brought a full list of passengers and a large quantity of freight from the southern port, and ex-cept for the fogs, which delayed making the Columbia River several hours, the vessel enjoyed a fine passage. The Kan-ses City will sail for San Francisco Sat-urday morning.

New Drydock to Operate.

A new drydock is soon to be in operation

A new drydock is soon to be in opera-tion in Portland harbor, for the Wil-lamette Iron & Steel Works' docks will be ready to accommodate deep-ses craft. At present the water is rather low and the work of dredging the entrance to the dock has not progressed very rapidly. However, the entrance is expected to be

Did Not Appropriate Supplies of His Rival in the Far North.

NEW YORK, Sept. 14 .- Commander Robert E. Peary, according to the dis-patches from Battle Harbor, Labrador, patches from Battle Harbor, Labrador, today has assumed a less aggressive atti-tude toward his rival. Dr. Frederick A. Csok, and with Dr. Cook beyond the reach of wireless on the ocean, the flame of the North Pole controversy must be fed by aupporters of the two explorers, rather than by the principals. Dr. Cook has held his tongue all along with the assurance that he would imake

with the assurance that he would " make good" when the time came, but until today Commander Peary has flashed at good today Commander Peary has flashed at Intervals curt messages from Labrador questioning the achievement of the Brooklyn explorer. When interviewed today, however, Peary said that be de-clined to enter into further debate "until Dr. Cook has issued his full authorized statement." At the same time the com-mander accobatically restlement that he Dr. Cook has issued his full authorized statement." At the same time the com-mander emphatically reaffirmed that he was the "only white man who has ever reached the North Pole." With the aituation as it stands, the

world can but hide its time until Dr. Cook's arrival in New York, where he

The time of the Roosevelt's departure from Battle Harbor is still indefinite and the vessel will reach Sydney several days after Dr. Cook reaches New York. Little if anything of weight on silber side of the controversy was produced to-day. Herbert Bridgman, secretary of the Penry Arotic Club, who is in Sydney. declared false the story that Peary had appropriated Dr. Cook's stores in the North, saying he had merely saved them. North, saying he had merely saved them. Scientists have generally withdrawn from the debate, pending the injection of more facts and less personal feeling, while England and the continent are becoming a bit merry. The latest dispatch from Battle Harber indicates that the Bosse-velt is in good condition, nothwithstand-ing her battles with the lee in the North. Commendes Deary Intimated that the

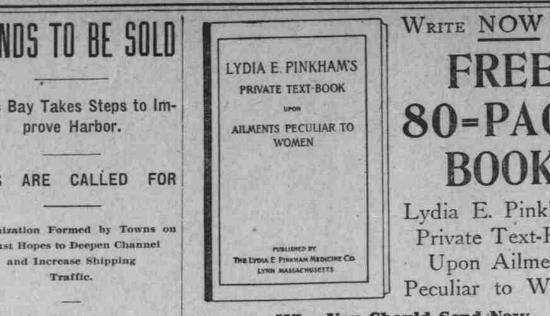

Commander Peary intimated that the Roosevelt would not be allowed to particionte in the Hudson-Fulton celebration parade if Cook's schooner, the John B. Bradley was similarly honored.

The supporters of the Brooklyn phy-mician have been quick to seize upon the intelligence that only one Eskimo stood by the naval officer's side when he raised the American fing at the extreme top of the earth.

top of the earth. The attitude of Cook's supporters here after hearing that Peary had only one Eakimo to confirm his statement re-garding the 36 hours spent at the Pole is expressed by Frederick S. Dellenbaugh, an explorer and officer of the American Geographical Society.

Mr. Dellenbaugh is quoted today as follows

'It would seem that the preponderance of Eskimo is for Dr. Cook. There evidentiy was no scientist present in either case to verify the observations. Perhaps two Eskimo are better than one. Dr. Cook says two Eskimos were with him at the pole, but I do not know that it makes any great difference."

Why You Should Send Now

This book is a treatise on all those diseases peculiar to women. They are fully explained in plain and simple language, that anyone can understand, and instructions for a complete course of home treatment.

In a word, with Lydia E. Pinkham's Private Text-Book at hand to refer to in case of need, you need have no cause for anxiety about your ailments.

The Danger of Delay

Any woman who possesses this book has at hand such information as may save her a serious illness, and if she is already ill, it will give her an intelligent understanding of her case and suggest a cure. This book is a text-book-not a mere advertising pamphlet.

Until you have read it, you cannot make sure of the exact nature of your trouble. A great many women suffer from some complaint, which may not seem very serious to them, because they do not know what it is - or to what it may lead.

Perhaps you are one of these women. Do not remain in doubt another day - send for this book and find out for yourself.

This book is written in the kindly sympathetic spirit that guided Mrs. Pinkham in all her actions towards her suffering sisterhood, and you will feel when you are reading it as though you were having a confidential chat with some motherly and trustworthy woman friend.

Remember, your letter will be treated as strictly private and confidential and the book will be posted to you in a perfectly plain envelope, without any printing on the outside.

-Fill Up This Coupon-

Cut out this Coupon at once --- while you think of it. Don't wait till by and by or you may forget it. It may be the means of saving you from years of suffering - perhaps from death itself.

Fill in your name and address and send it along to the Lydia E. Pinkham Medicine Co., Lynn, Mass. It will bring you Mrs. Pinkham's 80-PAGE PRIVATE TEXT-BOOK in a plain envelope by return of post, absolutely free.

than a little of all human ills"

Different doctors have different ideas in regard to cures. Some call a suppression of symptoms a cure. They dose for drug ef-fects and claim that nothing more can be fects and claim that nothing more can be done. But the real silment remains and will bring the real symptoms back again, per-haps the same as before, but very likely leave the patient in a much worse condi-tion. I claim that nothing less than com-plete eradication of the allment can be a real cure. I treat to remove the allment, and net markly the symptoms I search out not merely the symptoms. I search out every root and fiber of the ailment, and I cure to stay cured.

I not only cure all nervous conditions promptly, but I employ the only treatment that can possibly cure such aliment perma-mently. It is a system of local treatment entirely original with me, and it is just as substantial as it is broad.

I Cure the Cases That **Others Cannot Cure**

A bold statement, but just as true as it is bold. Not all cases that others fail to cure are curable by my methods, but fully 90 per cent of them are. The way to learn whether your case is curable is to consult me. I know exactly what can be done in every instance. I ought to know this, for I have done nothing else other than treat men's diseases for twenty-five years. If your case is curable I will treat you. If it isn't I will not. If I treat you, and if you so desire,

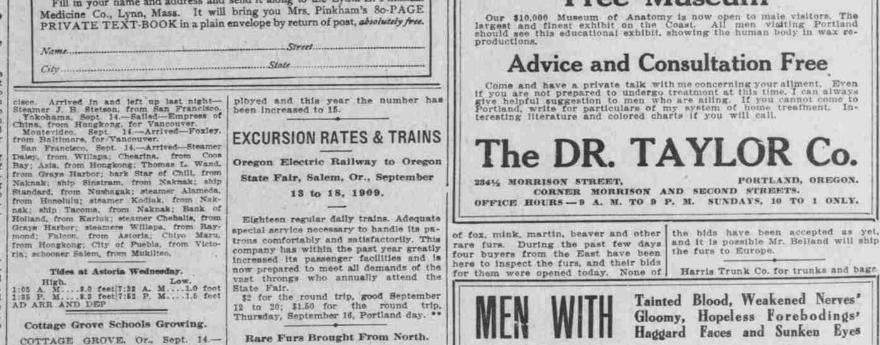

You Can Pay When Cured

SPECIFIC BLOOD POISON. SPECIFIC BLOOD POISON. Others dose the system with mineral poisons scarcely less dan-gerous than the aliment itself. The best they hope to do by this treat-ment is to keep the aliment from manifecting its presence upon the surface of the body. Under my treatment the entire system is cleanzed. The last taint vanishes to appear no more. I employ harmless blood-cleansing remedies. They are remedies heretofore un-known in the treatment of this aliment. They cure by neutraliz-ing and absolutely destroying the poison in the system. Such cures cannot be other than complete and permanent.

A thorough cure without pain or cutting. Every case of Varicose Veins I treat proves the superlortry of my mild and harmless meth-od, and the folly of resorting to surgery. In most instances it is even unnecessary to detain the pa-tient a single day from his busitient a single day from his busi-ness. The treatment I employ is distinctly my own, and can be had at my office only. Do not submit to the knifs and hospital expenses, when a complete and permanent cure can be had with-out the loss of time, and without pain or cutting.

VARICOSE VEINS.
