

BALLINGER WINS; GLAVIS' HEAD OFF

Taft Says Secretary Is Without Stain.

CHARGES REST ON SUSPICION

Special Agent Removed for Attacking Superior.

BALLINGER KEPT HANDS OFF

Because He Acted as Counsel for Cunningham, He Let Glavis Hunt Up Evidence, Though Knowing Aimed at Himself.

ALBANY, N. Y., Sept. 15.—President Taft has exonerated Secretary of the Interior Ballinger in the matter of the charges filed by L. R. Glavis, chief of the field division of the General Land Office, in connection with the Cunningham coal land claims in Alaska.

Mr. Taft also grants Mr. Ballinger's request for authority to dismiss Mr. Glavis from the service of the Government, "for unjustly impeaching the official integrity of his superior officers."

Nature of Glavis' Charge.

The statement, which is in the form of a letter to Mr. Ballinger, written before the President left his summer home at Beverly, follows:

"Beverly, Mass., Sept. 13, 1909.—My Dear Sir: On the 18th day of August last, Mr. L. R. Glavis, chief of the field division of the General Land Office, with headquarters at Seattle, Wash., called upon me here and submitted a statement or report relating to the conduct of the Interior Department, and particularly to the action of yourself, Assistant Secretary Pierce, Commissioner of the General Land Office Bennett and Chief of Field Service Schwarz, in reference to the so-called Cunningham group of coal lands in Alaska.

Insinuation and Innuendo.

"Mr. Glavis report does not formulate his charges, but by insinuation and innuendo, as well as by direct averment, he does charge that each of you, while a public officer, has taken steps to aid the Cunningham claimants to secure patents based on claims that you know, or have reason to believe, fraudulent and unlawful.

No Substantial Evidence.

"I have examined the whole record most carefully and have reached a very definite conclusion. It is impossible for me in announcing such conclusions to accompany it with a review of the charges and the evidence on both sides. It is sufficient to say that the case Mr. Glavis attempted to make embraces only specifiers of suspicion without any substantial evidence to sustain his attack.

The whole record shows that Mr. Glavis was honestly convinced of the illegal character of the claims in the Cunningham group and that he was seeking evidence to defeat the claims.

President Diaz Aged 79

Mexican Ruler Celebrates—Workmen Move Him to Tears.

MEXICO CITY, Sept. 15.—General Porfirio Diaz, President of Mexico, celebrated his 79th birthday anniversary today.

Glavis Tried to Fool Taft.

"Mr. Glavis seeks by quoting from a single telegram in the department to show that at one time the department wished to delay him in his investigation of the Alaska claims and at another time unduly to hurry him, and he attempts to prove these two circumstances by citing telegrams and correspondence without disclosing other circumstances and correspondence which he knows, or had under his control, and which do show an entirely proper reason for the action which in each case was directed to be taken.

Attack Must Be Promptly Met.

"The great responsibility of Cabinet positions demands the selection therefor of men of the highest character and integrity. Possession of these qualities as well as an ability and experience which especially fitted you to direct the affairs of the department, warranted your appointment.

GREAT COMET NEAR ORBIT OF EARTH

AT CLOSEST APPROACH NEXT MAY WONDERFUL SIGHT.

Photographed at Lick Observatory, Halley's Comet Is Traveling Nearer.

SAN JOSE, Cal., Sept. 15.—(Special.)—Astronomer Heber D. Curtis, of the Lick Observatory, has photographed Halley's comet with the Crossly reflecting telescope. In advising this fact, Director W. W. Campbell stated that it is a very faint object that is visible only in the largest instruments. Professor Campbell expects that it will grow brighter very rapidly.

According to dispatches received at Harvard University, Professor Wolff, of Heidelberg, also discovered the comet's return on September 11.

Halley's comet visits the region of the earth in its recurrent journey around the sun at long intervals of 75 years. It is now coming rapidly toward the earth's orbit at the rate of about 4,000,000 miles per day. It will be in its most visible glory to mundane inhabitants in the early Spring of 1910 and will approach within 54,000,000 miles of the sun, receding for 33 years until it is far beyond Neptune's path.

At its nearest approach to the earth, which will be in next May, the comet will present a most wonderful sight, which can be seen by the attention and admiration, if not the fear, of the lowest of the human species. The infrequency of its visit will make it an object of especial interest, both to astronomers and laymen.

RUSSIA SENDS TROOPS

Czar Is Massing Great Army in Siberia.

VICTORIA, B. C., Sept. 15.—Russia is massing a great army in Siberia, four or five barracks are being built and extensive fortifications made and speculation as to a second war with Japan is a common topic of conversation among the Russian military men, said A. B. Denbigh, a Russian who returned from Khabarovsk and Mongolia by the steamer Kasa Maru today.

"It was told that there were at least 50,000 troops in Siberia," said Mr. Denbigh. "Troops are quartered everywhere. The number of troops are from four to five times the number in Siberia before the war. At Vladivostok, before I left, there was a review of 55,000 troops and not one man was taken from the fortifications. I suppose at least as many more could have been prepared."

Denbigh brought news of a rich gold field by Ruzhans in Mongolia, about 50 or 60 miles distant from Kikita, the big walled city which has been for centuries one of the stopping places of the tea caravans from China. An average of 20 pounds of gold is being washed from the river banks with rockers daily.

EIGHT KILLED IN WRECK

Mail Clerks and Trainmen Die in Collision.

NASHVILLE, Tenn., Sept. 15.—As the result of a head-on collision between passenger train No. 4 and fast freight No. 51, on the Nashville, Chattanooga & St. Louis Railway, one mile west of Pegram Station, Tenn., today, eight trainmen and mail clerks were killed, one seriously injured, and a number of passengers reported more or less hurt. No passengers were killed. The cars caught fire and several of the victims were cremated.

The dead: Will Morgan, Nashville, traveling engineer. Joe Gower, Nashville, passenger engineer. Jesse Tarkington, freight engineer. Walter Roach, messenger. Samuel White, freight fireman. S. B. Walt, freight brakeman. W. S. Stalcap, mail clerk, Martin, Tenn. L. F. Bailey, mail clerk, Martin, Tenn. Ellis Martin, conductor on the freight, was badly injured.

Both engines were completely wrecked. The wreck was caused by the overlooking of orders.

ABRUZZI TO MEET KING

Will Receive Appointment as Rear-Admiral Italian Navy.

ROME, Sept. 15.—The Duke of the Abruzzi will meet King Victor Emmanuel at Gaeta and probably will witness the naval maneuvers.

The Duke will then receive his appointment as Rear-Admiral. Later he will come to Rome to lecture before the geographical students on his expedition to the Himalayas.

PEARY'S TRIUMPH AGAIN DESCRIBED

Hanson, His Negro, Tells of Final Dash.

HAD FOUR ESKIMO COMPANIONS

Colored Man Says He Led Cheers at Flag-Raising.

POSITION PROVED THRICE

Repeated Observations Made to Insure Accuracy—Saw Peary Write Records Left in Ice—Pole Is Solid Sea of Ice.

COOK'S STORY TO CONTINUE

The second installment of Dr. Cook's exclusive amplified narration of his journey to and discovery of the North Pole will appear in Friday's Oregonian. The third and last installment will appear in Sunday's Oregonian.

BATTLE HARBOR, Labrador, Sept. 15.—(By wireless via Cape Ray, N. F., Sept. 15.)—"We hoisted the Stars and Stripes twice at the North Pole," said Matthew Henson, Lieutenant and the only other civilized man who reached the Pole with Peary. Henson then gave to the Associated Press an account of one night and two days he and Commander Peary and four Eskimos camped at 90 degrees north latitude. Henson assisted in raising the American flag, and he led the Eskimos in the cheers, an extra cheer for Old Glory in the Eskimo tongue being given.

"Having passed 18 years with Peary and a considerable portion of that time in the Arctic," said Henson, "I have acquired a knowledge of the dialect of the Northern Greenland Eskimos, who probably are superior to any other. As is commonly known to travelers in the Far North, the Eskimo entertains a strange prejudice toward any tongue but his own, and it is therefore necessary for successful dealing with them to study their unwritten language.

"We arrived at the Pole just before noon, April 6, the party consisting of the Commander, myself, four Eskimos and 24 dogs, divided into two detachments equal in number and headed respectively by Commander Peary and myself. We had left the last supporting party at 87 degrees 53 minutes, where we separated from Captain Bartlett, who was photographed by the Commander.

"Captain Bartlett regretted that he did not have a British flag to erect on the ice at this spot, so that the photograph might show this as the farthest north to which the banner of Great Britain had been advanced.

"Made Three Observations.

"I kept a personal diary during this historic dash across the ice fields. Our first task on reaching the Pole was to build two igloos, as the weather was hazy and prevented taking accurate observations to confirm the distance traveled from Cape Columbia. Having com-

pleted these observations, I made three observations of the sun, which confirmed the distance traveled from Cape Columbia. Having com-

SHYLOCK VICTIM HELD FOR THEFT

BOSTON MAN BLAMES MONEY SHARKS FOR FALL.

Says He Paid 60 Per Cent for Loans Which He Used to Keep Business Going.

LOS ANGELES, Sept. 15.—(Special.)—William H. Woodhall, former treasurer of the Woodhall Furniture Company, of Boston, declared he was the victim of bloodsucking loan sharks, when he was arrested today at Seventh and Main streets at the request of Boston authorities. He has been indicted by a Boston grand jury on eight larceny counts, aggregating \$2753.

"I was not enough of a financier to steer clear of the loan sharks," said Woodhall today. "We were doing a good business, but our money was going into raw material faster than we could get it out of the finished product. I borrowed some money from the money sharks to tide us over a crisis. They charged me as much as 40 per cent interest. I got in deeper and deeper. Then it became necessary for me to negotiate new loans to pay interest on the old ones. It got to the point where it was better for me to get out and let the others reorganize the business. This I did. I haven't any fear of these charges. I used every cent of this money for the company. Boston is full of loan sharks, who have ruined many a business man. It is like signing a financial death warrant ever to borrow a cent from them."

MAN DIES AS HE SLEEPS

I. G. Rambo, of Green Point, Succumbs to Heart Disease.

OREGON CITY, Or., Sept. 15.—(Special.)—I. G. Rambo was found dead in his bed this morning at his home in Green Point by his brother, Captain Rambo. He had died during the night of heart disease. He was born in Davenport, Ia., August 17, 1853, and came to Oregon in 1888 and settled at Salem, living there eight years, when he came to Oregon City, where he had since resided.

Rambo was a plasterer by trade. He is survived by a sister, Mrs. Letta Greenlee, of Lewis, Or., a sister at Russellville, Kan., a mother at Lewis and three brothers, W. and Captain S. Rambo, of Oregon City, and Murrell Rambo, of Portland.

MARRIED AT OREGON CITY

Mrs. Olga Bartsch Lang and Wade Moreland Make Trip in Auto.

OREGON CITY, Or., Sept. 15.—(Special.)—Mrs. Olga Bartsch Lang, who is well known in Portland musical circles, was married here this afternoon to Wade Moreland, by County Judge Grant E. Dimick at the courthouse. The pair came up from Portland in a Cadillac car and were accompanied by Mr. and Mrs. Monroe Goldstein.

After the ceremony they returned to Portland in the machine.

Mr. Moreland was employed for a short time last winter as a dancing teacher in the Western Academy of Music, Education and Dramatic Art.

FIGHT UPON PROHIBITION

Alabama Antis Devises Plans to Defeat Constitutional Amendment.

MOBILE, Ala., Sept. 15.—Anti-Constitutional Prohibitionists from every part of the state gathered today to formulate plans under which the proposed change in Alabama's laws can be defeated at the polls November 4. Today's meeting served as an offset to the prohibition meeting in Birmingham tomorrow.

Almost Abducts Sherman.

Vice-President Sherman made a vain effort to see the President at Utica, Mr. Sherman's home city. It was not known whether he would succeed.

Starting from Boston a little after 10 o'clock this morning, the President headed straight for the West. It was his 53d birthday and he received many congratulations and messages of good will. The throng which lined the way from the hotel to the station in Boston was but a foretaste of those encountered along the way. The President set a precedent for the trip by electing to run on a slow schedule. The New York Central surrounded the train with every precaution for its safety. There always were three men on the engine and prominent representatives of the traffic department were aboard.

TAFT SPEEDING TO BOUNDLESS WEST

Given Joyous Birthday Greetings on Way.

HE AND HUGHES FORM TEAM

Each Sounds Other's Praises as Good Executive.

"SUNNY JIM" GETS LEFT

President Rejoices to Get in Touch With People—Throgs Welcome Him at Every City and Hear Him Speak.

SYRACUSE, N. Y., Sept. 15.—After traversing today the two great states of Massachusetts and New York, President Taft was skirting the southern shores of Lake Erie, on his way to Chicago, where he will arrive at 11:30 A. M. tomorrow to make his first important stop on a 13,000-mile tour of the West and South. Whenever the train stopped today on its run from Boston there were large crowds at the railway stations, and the President was greeted with enthusiastic cheers. In Massachusetts Mr. Taft spoke at Worcester, Springfield and Pittsfield. Entering New York, he was greeted at Albany by Governor Hughes, and both made little talks to the depot throngs, which cheered the state and Federal executives with equal enthusiasm. Mr. Hughes became the President's guest on the run from Albany to Syracuse and had dinner with him on the car Mayflower.

Get in Touch With People.

The President was in rare good humor today. He seemed happy that the journey had at last begun. He said he believed the long trip would bring him in closer touch with the people than any other plan which could be devised. Mr. Taft said the more he could see of the country and the people during his term of office, the better President he would make.

Many Birthday Greetings.

Starting from Boston a little after 10 o'clock this morning, the President headed straight for the West. It was his 53d birthday and he received many congratulations and messages of good will. The throng which lined the way from the hotel to the station in Boston was but a foretaste of those encountered along the way. The President set a precedent for the trip by electing to run on a slow schedule. The New York Central surrounded the train with every precaution for its safety. Vice-President Sherman made a vain effort to see the President at Utica, Mr. Sherman's home city. It was not known whether he would succeed.

POWER SITES WITHDRAWN

Government Lays Claim to North Yakima Property.

NORTH YAKIMA, Wash., Sept. 15.—(Special.)—Notice was received at the local Land Office today that all power sites along the Yakima River in the vicinity of North Yakima have been withdrawn from entry for the present. Approximately 6253 acres of land are involved, 331 acres being entered land. The land is included in a strip about 18 miles long, starting just north of the city. Reason for the withdrawal is not stated.

RIDING TEST IS CRITICISED

General Myer Is Not in Sympathy With Roosevelt Idea.

WASHINGTON, Sept. 15.—The Roosevelt riding test for the officers of the Army is being criticized by General L. M. Myer, commanding the Department of Texas, in his annual report. In substance, it is the severest criticism of the tests made by General Myer. General Myer favors yearly examinations of all officers to ascertain their fitness for their duties.

CANADA HELPS TRAVELERS

Prevents Annoyance by American Immigration Officials.

OTTAWA, Ont., Sept. 15.—Canadian Railway Commission made an order commanding all railroads in Canada, which do international business, to direct their conductors to prevent any due interference with passengers in Canada by United States immigration officials.

MRS. NELSON MORRIS HURT

Widow of Chicago Packer Near Death in Paris.

CHICAGO, Sept. 15.—Mrs. Nelson Morris, widow of the Chicago packer, is near death in Paris, suffering from injuries received in a motor car accident, according to word received today. The accident occurred at Sainte Bleue, near Paris.

EMPEROR OF CHINA IS ILL

Baby Ruler of Celestial Kingdom in Serious Condition.

PARIS, Sept. 15.—A special dispatch from Peking says the Emperor is seriously ill.

NORTH POLE IS NOT UNCLE SAM'S LAND

BELONGS TO CANADA OR DENMARK, SAYS PROF. STARR.

Chicago Anthropologist Says He Accepts Peary's Story, but Doubts Claims of Dr. Cook.

VANCOUVER, B. C., Sept. 15.—(Special.)—Discovery of the North Pole by an American explorer does not give the top of the earth to the United States, said the statement of Professor Frederick Starr, the world-famed anthropologist of Chicago University, today just before boarding the Empress of Japan.

"If the discoverer of the Pole made his journey to it from the west of Greenland," said the professor, "the land area found belongs to Canada; if from the body of Greenland proper, it belongs to Denmark. The mere planting of a nation's flag cannot hold the ground, and such a claim for the United States would be thrown out of court."

Professor Starr says he accepts Peary's statements without a doubt, but is inclined to be skeptical about Dr. Cook's claim that he reached the North Pole.

"Peary," he said, "is known to be a scientific man, who makes only careful statements, and I am sure, therefore, that when he says anything he has the proofs to back it with. Dr. Cook, however, will have to substantiate his claim of having discovered the North Pole by carefully written notes showing minutely observations made along the journey, deviations of course, and why made, etc. The word of his Eskimos will have no bearing whatever, as the Eskimo will say whatever he thinks the man with him wishes him to say, and, moreover, he has no idea of the importance of the point involved.

"Within the next 15 years I believe there will be countless pilgrimages to the Pole by private enterprises, only and largely by half-brained persons seeking imaginary riches, mineral and otherwise, which they will suppose to exist in the cold northern area."

TAFT WANTS NEGRO VOTES

President Deplores Discrimination Against Black Men.

WASHINGTON, Sept. 15.—Taft has placed himself on record, in a letter to a local newspaper, as being opposed to suffrage restrictions intended to discriminate against the negro race. In answer to a letter asking his opinion concerning the franchise amendment to the Maryland constitution which is proposed by the Democratic party in Maryland, the President says:

"It is deliberately drawn to impose educational and other qualifications for the suffrage upon negroes and to exempt everybody else from such qualifications.

"This is a gross injustice and is a violation of the spirit of the fifteenth amendment. It ought to be voted down by every one who is a Democrat or Republican who is in favor of a square deal."

INDEX OF TODAY'S NEWS

THE WEATHER. Maximum temperature, 80 degrees; minimum, 59 degrees.

TODAY'S FAIR, followed by increasing cloudiness and lower temperatures, easterly wind.

Discovery of North Pole. Peary's negro servant says he and four Eskimos went to Pole with Peary.

Professor Starr, of Chicago, leans to Peary's account of the North Pole. Starr is Canadian, and says Peary is Danish.

Peary and Bartlett decided to hunt South Pole and British rivalry is aroused.

National. Taft starts from Boston for West, making speeches on way.

Taft upholds Ballinger, says Glavis' charges unfounded and orders Glavis dismissed.
