WATER BOARD WHA MEST.—A meeting of the Water Board is to be held this morning, at which time the Everett-street water main built by Mayor Simon will be accepted. The main has met with the approval of the City Engineer and the water committee of the City Council. At this meeting bids are expected on several water mains in various parts of the city. Mayor Simon says he has been assured that the Barber Asphalt Company will put in a bid on the Hawthorne-avenue water mains, as it is anxious to get this work done in order that it may start as soon as possible to do the work of paving for which the contract has already been awarded. Mayor Simon hopes that a number of other bids for the construction of water mains will also be received.

The report recommended that articles be prepared from time to time and published giving detailed information of features of the initiative and referendum law, meeting the effort to discredit the law. Closing, the report says:

law. Meeting the effort to discredit the law. Closing, the report says:

We feel that we should further recommend and urge that each grange in our county and in our state should be fully alive to its duty to actively aupport and defend this privilege at any and all times, and we especially desire to call your attention to the systematic effort of certain political leaders to bias and prejudice the minds of newcomers among us. against the initiative and referendum/law.

It is very apparent that the struggle, from a political point of view, between the masses of the people of the State of Oregon and the few who have, prior to the enactment of the initiative and referendum law, very largely dictated the policies of the state. Is to be continuous for many years to come, and our duty demands that we ever keep before the people of the state fine necessity of carefully scrutinizing each and every political move made or suggested by the opponents of the initiative, against this or any measure which in any way gives to the people the power to hold in check the selfish interests which are evidently combined and working for the overthrow at the earliest possible date of the initiative and referendum law.

The resolution favoring the restriction

The resolution favoring the restriction of the publication of State Grange pro-ceedings to the reports of the master, lecturer, secretary and treasurer, sub-mitted by the Masters and Lecturers' Association of Multnomah County, was defeated.

Pomona Grange accepted an invitation to meet December 15 with Evening Star Grange.

epicures, and nearly everyone shows its superfority as a sailed dressing or as an ingredient for one.

If we should start out to make a food product which should be all nourishment and no waste we could not improve on olive oil, it seems for the analysis give it the high taking of 100 per cent. A little idea of what that means can be had by comparison with other food products. It is better than the best grains, as they contain but 90 per cent nutritive elements. It is four times as nourishing as mest, which is credited with only 28 per cent absolute food elements on the gavrage.

Its nutritive qualities alone would give it a high standing as a health food, but even more is claimed for it. Doctors say olive off is a destroyer of certain forms of germ life, being notably useful in intestinal troubles. As a restorative, fiesh-builder and strengthener it is recommended more highly than codliver oil and it is much more pleus ant to take.

All these good things are said of olive under that name. To get it pure sing wholesome it is necessary to buy a brand in which you have every reason to place confidence. You will have full confidence.
