DISTRICT ATTORNEY ACTS

## Merrill's License to Expire.

Merrill's license to sell liquor at the Marrill's ifcense to sell liquor at the Twelve-Mille House will expire on Sep-tember 27. County Judge Webster stated yestarday that licenses are usually granted to these places, unless formal protests are presented to the County Commissioners. It is understood that Marrill is already having a petition pre-pared to have his license renewed. At the County Clerk's office yesterday it was stated that there are about 12 roadhouses in Multinomah County which have licenses to sell liquors. Investigation by the grand jury into the Investigation by the grand jury into the mismanagement of the defunct Oregon Trust & Savings Bank, predicted for the last two weeks, is now assured. The office of the District Attorney took the initiative and Chief Deputy District At-torney Fitzgerald, into whose hands the conduct of the inquiry will fall, officially took up the subject with Receiver Devilin ,

# Many Women Have **Diseased Kidneys**

Investigation of Oregon Trust And Bladder Troubles Who Suffer Endless Torture, Without Knowing the Nature of Their Ailment, or Its Cause.

> This is because women are told that their every sickness is due to "ailments of their sex." The notion that to cure a woman's ailments, it is only necessary to treat the distinctly feminine organs, is one that has caused much unneces-

sary suffering. The tortures and discomforts of weak, Iame and aching back, swollen and bloat-ed feet and limbs, nausea and fainting spells, lassitude, despondency, sick head-aches, painful, scalding sensation, inflammation, etc. are invariably due to de-rangements of the kidneys and bladder.

And unless there is proper healing and curative treatment for the organs, which are diseased and out of order, which are diseased and out of order, there can be no cure of the woman's all-ments. For the cure of these conditions - and as a safeguard against even more serious and fatally dangerous diseases-there must be a thoroughly good and effective kidney and bladder medicine. #### Charge Is Not Revealed.

T. W. Vreeland, Assistant District Attorney, will have immediate direction of the indictments that will be placed before the grand jury today, and while he de-clared yesterday that he believed both Holland and Robertson could be convicted of mansiaughter under section 1745 of the state law, he would not tell the na-ture of the indictments that have been prepared in the case. Section 1746 rends as follows: "If any person shall in the commission

of a lawful act, or a lawful act without due caution or circumspection, involun-tarily kill another, such person shall be

deemed guilty of manalaughter." Any person found guilty under the pro-visions of the foregoing section is subject to imprisonment in the penitentiary for from one to 15 years.

While the Oregon law may be construed to place responsibility of accidents on the chanffeur of a machine which causes people to be killed through carelesaness, It is Vreeland's opinion that in this case, Robertson, who did not drive, has a certain responsibility in the matter. This is supported by a recent decision, he stated yesterday, of the Court of Ap-ground.

The killing of Mrs. May Real on the tality of Sunday morning, like that of the former accident in August, has been traced to the effects of liquor, and now the numerous roadhouses about the city are to be watched by the county offi-cials, and convictions for selling liquor unlawfully and revocations of licenses are to be used as a discouragement for

The two delegates discussed with the County Court the fight of the labor unions of the city for an eight-hour dis. and named several firms who are em-ploying nonunion help on ten-hour shifts. If an old sore existed simply because the fiesh was diseased at that particular spot, it would be an easy matter to apply some remedy directly to the place that would kill the germs; or the diseased fiesh might be removed by a surgical operation and a cure effected. But the very fact that old sores resist every form of local or external treatment, and even that old sores resist every form of local or external treatment, and even return after being out away, shows that back of them is a morbid cause which must be removed before a cure can result. Just as long as the pollution continues in the blood, the ulcer remains an open cesspool for the deposit of impurities which the circulation throws off. S.S.S. cures Old Sores by purifying the blood. It removes every trace of impurity and taint from the circulation, and thus completely does away with the cause. When S.S. has cleansed the blood, the sore begins to heal, and it is not a surface ours but the healing process begins at the buttom, for the surface cure, but the healing process begins at the bottom; soon the discharge ceases, the inflammation leaves, and the place fills in with firm, healthy fiesh. Under the purifying and tonic effects of S.S.S. the system is built up, and those whose health has been impaired by the drain md worry of an old sore will be doubly benefited by its use.
