

GOTHAM ADVENTS  
FULTON PARADENew York Looks for Record  
Crowd—Rain Stops  
Flights.

## SEATS SELL AT PREMIUM

Grandstand Tickets Bring \$25—Hotels Along Line of Pageant Renting Rooms for \$100—Rain Prevents Flights.

NEW YORK, Sept. 27.—An appeal by Governor Hughes to the people of New York and New Jersey to observe the Hudson-Fulton celebration today. The Governor spoke at the dedication of Palisades Park, the new interstate preserve along the Lower Hudson River. The exercises celebrated the saving of these picturesque cliffs near the city from the vandal hand of the stonecutter, and the turning over to the people of New York and New Jersey of a strip of beautiful park, stretching for 14 miles up the west bank of the Hudson River.

"I hope," said the Governor, "that it is only the beginning of efforts to make justly be made by these two commonwealths to safeguard the highlands and waters in which they are both deeply interested."

## Great Future for Park.

Governor Fort, speaking for New Jersey, said 500 acres of Palisades Park are destined to become the most important preserve in the United States. The cornerstone of the monument to Henry Hudson on Spuyten Duyvil Hill was laid later in the day in a drizzling rain. The storm kept down the attendance, but did not bother Governor Hughes who had come to deliver an eulogy on the discoverer of the Hudson River. The monument located is close to the spot where the legend places the first landing of the discoverer on his trip up the river.

## Expect Record Crowd.

In preparation for the largest crowd which the city has ever witnessed, shopkeepers along the route of the parade have shuttered their windows with boards and bannisters have barricaded themselves behind strong picket fences which the crowd will be unable to scale. Grandstand tickets sold tonight at prices ranging from \$3 to \$25 apiece. Hotel rooms fronting on the line of parade are worth \$75 to \$100 each.

Four hundred officers of the visiting warships were entertained on Governors Island this afternoon by Major-General and Mrs. Leonard Wood. At a dance this evening there was a large civilian attendance to the company. Wu Ting Fang proved one of the centers of attraction for the foreign officers at the reception. The rain caused a postponement of the balloon races to Albany. At 2:30 P. M. the code flags were hoisted at the police station to the company of the city, indicating that there would be no aeroplane flights.

"I have been up in the air in a 25-mile gale," said Mr. Wright, "I don't pretend to cater to the crowd. My life is in my own hands. I'll make flights, but not when the public is in the way for a flight, nor when the crowds are large. I will not attempt a flight until I am thoroughly ready."

## Reception to All Nations.

The envoys of seven nations that have sent warships and the special delegates of other nations participating in the celebration, were officially received tonight at a reception at the Metropolitan Opera-house under the auspices of the Hudson-Fulton celebration. Seated on the stage were Mrs. Julia Ward Howe. At her left was Admiral Sir John Jellicoe, British fleet, while the French representative, Rear-Admiral Beatty, French fleet, and the Turkish representative, Rear-Admiral Sarrailh, Turkish fleet, were seated on the right of the Mayor. Governor Hughes, Grand Admiral von Koenig, of the German fleet, and Vice-Admiral Do Broeckhoff, of the Italian fleet. Mayor McClellan was chairman.

Bishop David J. Greer, of the East Diocese of New York, delivered the invocation. The most conspicuous part of the invocation was his saying, "In the hearing of the naval officers of the chief powers of the world:

"Bless the nations of the earth in the bonds of brotherhood and peace; make war cease and righteousness to reign."

Mrs. Howe read an original poem, paying tribute to Hudson and Fulton.

## Rollcall of Nations.

The roll was called, beginning with Argentina and concluding with the United States. Each delegate stepped forward and presented either a message from his sovereign or an appropriate address. The assemblage grew especially enthusiastic when the delegates of Japan, Holland, Germany and England appeared. The majority of the delegates presented their addresses, after having read them, to Mayor McClellan, while the delegate from Norway read a congratulatory message from King Haakon. Referring to the Vikings, he said Norway had in reality discovered America before Columbus knew of its existence.

Admiral Seymour, for the British, referred to the discovery of the Hudson and application of steam navigation by Fulton as two of the most important events in the history of the race, "to which you and we belong."

## Cheers for Old Amsterdam.

After the address of the Dutch delegate, J. T. Cremer, the national air of Holland was played, while the Hudson-Fulton flag was waved from the stage under great cheering. The Mayor of Amsterdam conveyed greetings from Old Amsterdam to New Amsterdam. From the Kaiser, Emperor of Germany, a congratulatory message was referred to the occasion as "the first time that a celebration of a single city had been made an international festival."

"cap sympathy for your celebration be greater than in Germany. We admire the extraordinary work accomplished in the United States by the irresistible energy and the creative impulse of the American people, and we may be proud of the fact that to a high degree the sons of our country have had the privilege of partaking in the de-

velopment of the magnitude of the United States as well as the City and State of New York."

## HUDSON PALISADES BOUGHT

Precipitous Cliff Will Become Interstate Park.

NEW YORK, Sept. 27.—Fourteen years of unrelenting efforts to save the beautiful palisades of the west bank of the Hudson River from destruction by blasting were crowned with success today when the completion of the purchase of the entire strip of palisades from Fort Lee, N. J., to Piermont, N. Y., was announced.

This strip of land and precipitous cliff, 14 miles long, constitutes one of the most picturesque bits of scenery in the state, and under the plan by which the work of redemption has been accomplished it will become the Palisades Interstate Park.

The purchase price of this park was about \$27,000, of which \$20,000 was paid by the state of New York and \$7,000 was contributed by contributions of J. P. Morgan.

## HISTORY doesn't quite reach back to the day when a handsome young

sampler of noble and generous impulses, a beautiful and trusting maiden and a set of most cruel circumstances and misadventures first were woven into mild melodrama. The theme was old when Aristophanes was an infant. But for that matter, there's nothing new under the sun anyway, and wasn't when Solon arose to make the remark some days since. The best we can hope for is an occasional new phase of an old thing.

And one of those occasional new phases is at hand this week in "Cameo Kirby" as presented for the first time here last night at the Bungalow Theater by Lieber & Co., with the admirable actor, Eugene Kirby, in the title role. The theme itself is as old as the hills, but Booth Tarkington and Harry Leon Wilson have done for it what has been done for the detective stories. He carries along his part and works up to the very tense climaxes without anything tinging on the melodramatic, as that term has come to be applied in connection with stage-gambler heroes.

We've been used to seeing Dustin Farnum in beakskin chaps and broad-brimmed hat, with artillery ornaments to match, for so many years that it was really quite a shock to have him appear in the rather quiet, but picturesque, garb of a Southern gentleman of the ante-bellum days. But the shock vanishes immediately, for Mr. Farnum has graduated into something more worthy of his talents than the red bandana and brace of bolts of days gone by. It is a test that puts acid on the quart of his ability and it may be said, with reservation, that the result shows gold.

"Cameo Kirby" is full of thrills. Stripped of the touches of its treatment, it is the time-honored story of the young gambler who falls in love with a young woman who feels his unworthiness so keenly that after a set of most annoying circumstances have been put to rest, she goes forth into the world to study theology or something of the sort in order to reach a satisfactory state of holiness. The factory state of holiness would be as full of noisy clatter as the part is full of tense action. But Farnum attains his ends subtly. It is a piece of work which is instinctively carried out by the actor. And it bespeaks greater things for the future.

The support is a worthy one. McKee Rankin, who does a piece of character work which is a credit to him. There's a distinctness about the part of Colonel Moreau in an admirable way. And by the way, Moreau is one of the French representatives, and he doesn't show the white feather or resort to dishonorable methods in the hour of danger—a fact which constitutes one of the "new phases" already referred to.

There were many people at the Bungalow last night, and all were well served. The attraction was the mother of all this week, with matinees Wednesday and Saturday.

## DUNSMUIR SUIT STICKS

Heirs of Governor's Mother Will Prosecute Case.

VICTORIA, B. C., Sept. 27.—(Special.)—In Supreme Court chambers this morning permission was granted to heirs of the late Oliver Dunsmuir, widow of British Columbia's original premier, to sue the late Dunsmuir's present Governor and head of the Dunsmuir interests, for completion of an agreement respecting the San Francisco business of the Dunsmuir, under which all interests of the late Alexander Dunsmuir were to be turned to his mother. A copy of this agreement is filed with the Supreme Court here and interests of many a Dunsmuir descendant are involved. Mrs. Henry Croft, daughter and heir of Mrs. Dunsmuir, is principal under the revised terms of action.

## JUDGE WILLIAMS BETTER

Aged Jurist May Be Able to Leave Hospital Soon.

Judge Williams will be out of the care of his physicians and nurses within another week, according to a statement given out by the Good Samaritan Hospital last night.

The distinguished Oregonian last Wednesday evening was he improved, and Dr. Mackay and Mackenzie declare his complete recovery from the present illness is but a question of time.

## Cous County Sends Potatoes.

MARSHFIELD, Or., Sept. 27.—(Special.)—When President Taft dined in Portland next Sunday Cous County will furnish as its contribution to the feast two sacks of potatoes from the La Crosse ranch and five boxes of prize-winning Gravenstein apples.

SPANISH BOTTLE  
FIGHTING MOORS

Tribesmen, Driven to Desperate Straits, Ask Terms of Surrender.

## STRONGHOLD SURROUNDED

Ring Around Mount Guruga Almost Closed—Termination of War Is Feather in Hat of Much-Hated Premier Maura.

MADRID, Sept. 27.—The War Office announces today the complete success of the maneuvers in Morocco against the Moors.

Both Nador and Zetuan have been occupied. At the latter town there was bloody fighting with large bodies of Moors.

The ring around Mount Guruga is now considered almost closed, and the position of the Moors is desperate. Kaid Amas appeared before General Marina, the commander of the Spanish forces, yesterday and asked terms of surrender for the tribes entrenched on Mount Guruga.

The conference was not known, but it is believed the Moors are ready to submit without conditions. The immediate successful termination of Spain's war against the Moors, which has been going on since July, would be of inestimable advantage to the government of Premier Maura, the daily becoming more intense among the lower classes.

## SPANIARDS' STRATEGY WINS

General Orozco Captures Town by Ruse—Nador Burns.

MELILLA, Morocco, Sept. 27.—The capture of Nador by the Spanish forces yesterday was comparatively easy, owing to the strategy employed by General Orozco, who pointed in the direction of Zetuan, to which the Moors rushed. The Spanish commander then turned his men and marched into Nador.

The defenses of Nador were razed, and the town was burned by the Spaniards. From Nador the Spaniards shelled the Moors. The positions surrounding Nador are now occupied by 20,000 Spanish soldiers.

## MOORISH VILLAGES BURNING

Moroccan Coast Ablaze With Fires Set by Soldiers.

ALHUCEMAS, Morocco, Sept. 27.—The entire coast line here is illuminated with the fire of the burning Moorish villages. After the Moorish villages in the fighting of yesterday had silenced the native artillery, the infantry advanced and drove the Moors from their positions.

## TEMBOOR SEASON DUE

SUN AND MOON MAY PULL EARTH OUT OF SHAPE.

Frank Perret, Volcanologist, Figures Out That Earth Shocks May Occur September 29.

MESSINA, Sept. 27.—Frank A. Perret, the American volcanologist, who arrived here today, believes that the date of the earthquake that this part of Italy will be the scene of more seismic disturbance. Mr. Perret said: "Wednesday, September 29, is the date most favorable for earthquakes or eruptions. At that time the earth, sun and moon are in line with each other, and it is in its nearest approach to the earth. This combination occurs frequently, tending to produce gravitational distortion and give rise to the earth's crust, causing weak spots in the earth's crust, thus producing earthquakes or volcanic eruptions."

"On Wednesday it happens that the planet Mars almost directly in line with the earth, sun and moon, while Saturn is not far from the same line. Jupiter, on the other hand, is on the other side of the sun, but in line with the earth. It is true that the effect of these planets is much less than that of the sun, but the strain will be greater than usual."

"Thus I consider that Tuesday, Wednesday and Thursday next will be very dangerous. Possibly nothing very special will occur, but this will simply mean that the earth has resisted the danger."

## CENTRAL STATES ARE SHAKEN

Earth Shocks Felt in Towns in Mississippi Valley.

ST. LOUIS, Sept. 27.—A slight earthquake, which was felt through Southern Missouri and in Southern and Central Illinois and Indiana, occurred today. In St. Louis the tremor came at 3:47 o'clock. So far as has been learned, little or no damage has resulted.

The general direction of the shock was west to east, and it was felt more clearly in thinly settled districts. Villages west of St. Louis reported the destruction of a few chimneys, and in the west end of this city, the residence district, many sleepers were awakened. The quake was recorded in evidence in the downtown districts, only a few of the many guests in the larger hotels being disturbed.

Reports of the phenomenon were received in Chicago and Mayfield report a slight shake over the western sections of Kentucky, but no damage.

The shock was felt in Louisville, and many persons in the southern section of the city were awakened.

## Wriggle Records Shocks.

CLEVELAND, Sept. 27.—Earth vibrations lasting nine minutes were recorded at 2:46 o'clock this morning at St. Ignace observatory. At the college it was said that the movement was from north

Phone Main 4542, A. 1127.

to south, and at a distance of between 300 and 400 miles. The shock was not severe.

Weather Bureau Shy Records.

KANSAS CITY, Sept. 27.—A slight tremor of the earth at 4 o'clock this morning was reported by persons living four miles south of the business section. The local weather bureau has no record of a shake either here or at other points in this district.

## ANOTHER MRS. GEORGE

SHE IS ACCUSED OF WINNING LAWYER'S AFFECTIONS.

But George Says He Never Married Her, Though She Hounded Him for Years.

TACOMA, Wash., Sept. 27.—(Special.)—With the filing of a complaint in the Supreme Court of New York by Mrs. Mae George, asking \$10,000 from Mrs. Ida L. Austrian for the alienation of the affections of Charles E. George, the well-known Tacoma lawyer, a third party has made her appearance in one of the most complete matrimonial tangles that have ever come before the Washington courts. Either Mr. George is a much persecuted man or else he is a prince of prevarication.

Mr. George this morning received a dispatch saying the action had been filed, and also saying that criminal proceedings were contemplated against Mrs. Austrian.

"This Ida L. Austrian," said Mr. George, "is the woman who under the name of Ida L. George has sued me for \$10,000 damages for the alienation of my affections."

"Mrs. George is the woman from whom I was divorced last February by the New York courts. I allowed this case to go by default, and do not know what the allegations were. I understand, however, that my former wife charged me with misconduct and named this Austrian woman as co-respondent. This woman who has hounded me for over three years, and to whom I was never married."

Mrs. Ida L. George, or Austrian, maintains that she was married to the attorney at Montreal, Canada, last September.

Mr. George this morning received a dispatch saying the action had been filed, and also saying that criminal proceedings were contemplated against Mrs. Austrian.

## PAST AMERICANS TOLD OF

Dr. Hewitt Lectures on Archaeology at Art Museum.

In an absorbing illustrated lecture, under the auspices of the Portland Society of the Archaeological Institute, Dr. Edgar L. Hewitt, director of the School of American Archaeology, held the interest of a large audience at the Art Museum last night while he depicted the progress of the society and the restoration of the ruins in the Pajarito district of New Mexico. Incidental to his discourse he touched upon the legends and folk lore of the western part of the United States.

Since the Government threw protection about the homes of ancient inhabitants three years ago, the society has made agreeable progress. Preparations are being made to unearth the former abodes of all the ancient peoples of the Government's present possessions.

In an interesting manner Dr. Hewitt explained the accomplishments of the society in the three excavations already made at Puye, 30 miles northwest of Santa Fe, N. M. Ancient the occupants of the extraordinary cliff dwellings and the ruins of the speaker said evidence had been discovered to substantiate the belief of archaeologists that the homes, tools and wares discovered were over 1,000 years old.

## TROLLEY FRIGHTENS GIRL

Jumps Off Alberta Car When Sparks Fly and Is Badly Bruised.

Becoming alarmed at the diabolical actions of the trolley, caused by intermittent extra charges of electricity, Miss Emma Seris, of 354 Taylor street, leaped from an Alberta car at Union avenue and Russell street at 11 o'clock last night, sustaining severe bruises and possible internal injuries.

Miss Seris was removed to Good Samaritan Hospital, where she was attended by Dr. A. E. Rockey.

## Columbia Hotel Is Sold.

VANCOUVER, Wash., Sept. 27.—(Special.)—The Hotel Columbia in this city was sold today by H. E. Dodd, formerly of Ellensburg, Wash., to Mrs. Srethina Phelps, of Portland, for \$25,000. The new proprietress will make many improvements.

"I don't know that they are accusing me of it. I have led a straight life and have met no two men, who could have induced me to such a deed," said Martin. The prisoner, 31 years old and came here according to his story, ten days ago from Centralla, Wash.

"My father is Fred Martin, a carpenter. I came here to seek work. I found none and was about to return home and marry a girl I have been engaged to for four years when the policeman arrested me. I have never done anything," he is quoted.

Martin will be given a hearing Wednesday.

## GRADING WORK SUSPENDS

Difficulty Encountered Between Railroad and Property-Owners.

KELSO, Wash., Sept. 27.—(Special.)—Because of some difficulty over right-of-way matters between the property-owners and the railroad company, work on the double tracking of the Northern Pacific, south of town, was temporarily suspended this morning.

Murphy & Craven are the contractors who were ordered to suspend operations. It is believed the trouble will be adjusted within a few days.

## MAINE GOES FOR HEINZE

COURTS ENJOIN MEETING OF DAVIS-DAILY MINING CO.

Petitioners Claim Stockholders Did Not Have Sufficient Notice of Intentions of Firm.

PORTLAND, Me., Sept. 27.—An injunction restraining the holding tomorrow of the annual meeting of the Davis-Daily Mining Company, of which F. Augustus Heinze is president, has been granted by the Maine courts on the petition of Newman Erb and S. M. Jarvis.

The meeting probably will be held on October 13, as October 12 is the date set for the hearing on the injunction. The petitioners claimed the Federal grand jury had sufficient notification of the meeting.

NEW YORK, Sept. 27.—According to a statement issued tonight by Attorneys for F. Augustus Heinze, the efforts of Newman Erb and others to wrest the management of the Davis-Daily Copper Mine from the control of Heinze interests will prove unavailing, as proxies for 350,000 shares—a safe majority, it is said—are already in the hands of the Heinze committee.

NEW YORK, Sept. 27.—It is believed that the lost vessel, some members of whose crew are now aboard the Winter Quarter school lightship, was the Norwegian steamer Gere, Captain Myer. The steamer cleared from Philadelphia September 25, for Sagua la Grande, Cuba.

It was difficult work, but enough was learned by those on the Porto Rico to make it possible to learn the name of the vessel, but the answer could not be made out.

While the information was given that 12 persons were drowned, no attempt was made to learn names.

May Be Steamer Gere.
