

JUDGE BENETT'S OPINION ON ASSAULT

Battering Ram Not Essential to Commission of Battery, Court Opines.

BUSINESS MAN FINED \$15

Details of Roughhouse Fight Between Charles Evans and E. E. Steele Recited by Witness—In- teresting Cases Before Judge.

Business men with pugnaacious tendencies are no more exempt from the law than are the roistering rowdies of the North End in the eyes of Judge Bennett of the Municipal Court, who yesterday morning from the bench in the trial of Charles Evans, manager of the Cut Rate Trunk Factory, and a representative of the Patterson Advertising Company.

Steele accused Evans of throttling him, throwing him upon the floor and beating a tattoo upon his chest with his knees, and then when Steele was fully subdued of forcibly taking a contract over which they had disputed, but which had been altered to read for one year. The contract called for advertising on the back of laundry slips, which were supplied in large quantities to various laundries in the city.

Steele said that he was bruised and battered and that the next day he was so sore he could not move his arm. When Deputy City Attorney Sullivan advised Evans if he were guilty and in default of bail he would be committed to jail, Steele said: "No, I am not guilty of battery. I simply got him on the floor and knelt on him until I could get the contract away from him. When he tried to get up I kept my knees on his chest and told him that I would keep him there until I got it, that was all. I don't consider that a crime."

The Oregon will be towed to Vancouver and will work west to the mouth of the Willamette. The project calls for a 20-foot channel. At present the minimum depth is 11 feet at zero. In dredging the old channel down the Washington shore will be followed.

STEAMER R. MILLER SOLD TO RIVAL

ASTORIA, Or., Oct. 1.—(Special)—A bill of sale was filed in the Custom House this afternoon whereby J. B. Babidge & Sons, transferred the steamer R. Miller to the North Shore Transportation Company, the consideration named being \$1000. The sale carries with it the Babidge interest in the route between this port and Deep River, Wash., which two companies have been competitors for several months. The actual consideration was not made public.

SEND PAY TO SCHOOLS

Teachers Will Not Be Required to Call at City Hall for Salaries.

Teachers in the public schools will probably be paid each month in their respective schools in future, instead of receiving their salaries at the office of Clerk Thomas in the City Hall. This was authorized by the Board of Education, which held its regular meeting yesterday afternoon. The suggestion was made by Mr. Thomas because of the congestion caused by the presence of 700 teachers every month, who come all at once for their earnings.

MEN'S AILMENTS

Thoroughly Cured

Consult Me First

Even though your case may be one that some other doctor is able to cure and though his cure be absolutely thorough and permanent, there is yet good cause for your coming to me for treatment. The service I render is entirely up-to-date and better than the ordinary. I have devised new and scientific methods of treating men's ailments in all their phases. I cure cases that others cannot cure, and cases that others can cure I cure in less time and without pain or possibility of injury. All my forms of treatment have been perfected along the lines of nature's requirements and are in exact harmony with the natural recuperative forces. Therefore, my cures are painless, prompt and thorough.

Contracted Ailments

The serious results that may follow neglect of Contracted Ailments could scarcely be exaggerated. Safety demands an absolute cure in the least possible time. I have treated more cases of these disorders than any other physician upon the Pacific Coast. My cures are thorough and are accomplished in less time than other forms of treatment require. I employ remedies of my own devising and my treatment is equally effective in both recent and chronic cases.

I Treat Men Only

The vast multitude of men who have taken my treatment have not been dissatisfied. They know that I do not promise what I cannot deliver. My cures are actually illustrated in the cure of their own cases the truth of what I claim, namely that my treatment is a certain cure as it is that my patient engages my services and follows my directions. My success is due to the education, experience, skill and scientific equipment, but to the fact that I limit my study and practice strictly to the treatment of men's ailments. I have earnestly and exclusively devoted 25 years of my life, and on them all my faculties are concentrated.

Examination Free

I do not charge for advice, examination or diagnosis. If you call for a private talk with me, you will not be urged to begin treatment until it is impossible to call, write, Hours, 9 A. M. to 9 P. M., Sundays 10 to 11.

Afflicted Men Cured Forever

REASONS FOR MY UNEQUALLED SUCCESS

It is not so much in knowing a great deal about many things, as in knowing about a few things. When a doctor graduates from a medical college it is after the various professors have tried to impart their knowledge to him, and of it takes about 12 or 15 professors in the various lines of study four years to qualify a student for the practice of medicine, and when he is simply licensed—not qualified.

Does any sane man expect a medical student to go forth from a college as thorough in knowledge in each branch as the individual practitioner who has devoted his entire time to a single subject, such as anatomy or chemistry, and who is then far from perfect? It is a poor rule that would work both ways—if one professor is not competent to teach a student all about anatomy, chemistry, physiology, histology, obstetrics, surgery, pathology, bacteriology and the many other branches too numerous to mention, that he is expected to be thorough in how can the raw recruit of a medical student be expected to retain what the combined efforts of 12 or 15 men have tried to crowd into him? It never has been done and never will be. The doctor who is successful in the doctor who specializes in some particular line. He does not have to be a hypocrite about advertising, and devotes all his time to his special line of work, and is therefore generally a man proficient enough to have something worth advertising and willing to pay the market price, instead of sponging it in a hundred different ways.

I don't mean, however, that every doctor who advertises is alright any more than every doctor who doesn't advertise. There are good and bad on both sides of the fence.

My offices have been established 31 years, are incorporated under state laws and furnish best bank and personal references.

I cure Varicose Veins, Blood and Skin Diseases, Kidney and Bladder Ailments, Ulcers, Sores, Painful Swelling, Burning, Itching and Inflammation, Nervousness and All Special and Delicate Ailments of Men.

My fees for cures are lower than the general family physician or surgeon. Medicines furnished from our own laboratory for the convenience and privacy of our patients, from \$1.50 to \$6.50 a course.

If you cannot call, write for our free self-examination blank. Many cases are cured at home.

Hours—9 A. M. to 8 P. M., and Sundays from 10 to 12.
