BAYOCEAN

The Open Air Plunge Bath at—
Largest in the World

Fall, water, straight from the sea, yet 20 degrees warmer than the salt. This is one of the advantages of the BAYOCEAN Bath. Here is the reason. The tide crests 200 to 2500 feet from the shore on the best side of the pocket. The sandy beach is conveniently washed by exposure to the sun and air. As the tide rises, eight from the sea, flows over the beach. The weather is just right when the tide is out. The temperature is 70 degrees.

At a splendid party the Open Air Plunge Bath will afford the่ง_visited place absolutely without an equal. The inside dimensions are 350 by 1500 feet. The edge stone, stone, one and one-half feet wide, will provide seats for over 2000 people. The beach is part of the work, for which the $50,000 dodge, now in operation, offers a sea bath. Around the main edge a concrete wall will provide seats for over 5000 people. A large proportion of the water will be changed by every tide.

Aid swimming is then provided in any hour of the day. Four hundred diving men will accommodate the towel. Our floor of the building, including a separate fresh water pools and several showy will be open to visitors. The interior will be decorated with an amusing and unique number of flowers. The portion of the Southern California hotels and the great Bayside Bath of New Jersey have been studied by the design of the BAYOCEAN. The bath is equipped with their finest features. But no place can duplicate this Plunge Bath, for it is a novelty only to be possessed as a peculiar advantage.

The plan of transportation by train or boat is being arranged with the Southern Pacific and your local railroad agent. The hour times and rates will be posted at your station as the opening approaches.

The BAYOCEAN is on the north side of the bath, or the park, where the pleasure boats will land. All rates are reasonable.

Sincerity Clothes

Sincerity Clothes for young men are smart and refined too.

Good taste never runs to extremes and good style is after all no more than good taste.

Sincerity Clothes

possession, but their fit is just as noteworthy. It's a perfect fit. That's because they're made of London Shantung fabrics. The shirting keeps the cloth from vanishing, just as reason keeps wood from burning. You can be sure that Sincerity linens will always be so flat and smooth as to the dealver's, and Sincerity collars never pull away from the neck. To have Sincerity Cloth this perfect we must forfeit fifteen percent of the material, but we thereby keep your good will. It's to the mill's advantage to make the least wood into the most material; it's not our advantage to make the most wood to the least customers.
