Judge Anderson Says Government Can't Remove Men to Washington.

PRESS SHOULD CRITICISE

Court Holds Attack on Canal Deal Was Not Libel, and, if It Were, Trial Should Be Where Paper Is Published.

INDIANAPOLIS, Oct. 12.—Judge A. B. Anderson, of the United States Court, today dismissed the proceedings against Delavan Smith and Charles R. Williams, proprietors of the Indianapolis News, who were relating removal to the District of Columbia for trial under a grand jury indictment charging them with criminal libel in publishing articles alleging that there was a corrupt profit of \$25,000,000 in the sale of the Panama Canal to the United States.

Duty to Tell Truth.
"That man has read the history of our institutions to little purpose," said Judge Anderson, "who does not view with apprehension the success of a proceeding as this, to the end that citizens could be dragged from their homes to the District of Columbia, the seat of Government, for trial under the circumstances of this case. The defendants are discharged."

Peculiar Facts About Canal.
"Now, there were many peculiar circumstances about the Panama Canal business. The revolution in Panama, the circumstances concerning it, were unusual. The people were interested in the canal, and the canal. It was a matter of great public concern; a portion of the people favored the Nicaraguan route; another portion, those who were interested in the canal, officially and personally—just interested—preferred the Panama route. A committee was appointed to investigate and report on the relative merits of the two routes. They investigated and reported in favor of the Nicaraguan. Shortly afterwards they changed to Panama."

Just Ground for Suspicion.
"Now, there were a number of people who thought it was something wrong. A committee of the United States Senate was appointed to investigate these matters. The committee met, as stated in the article, in the United States, in one of the buildings of the United States, upon having certain questions put to him, stood upon his privilege as an attorney and refused to give ground for suspicion. I am suspicious about it now."

Slight Ground for Removal.
"This indictment charges the defendants with commission of a crime in the District of Columbia. Now, the Constitution of the United States, in one of the amendments, provides that the accused shall be tried in the state or district where the offense is committed."

Crime Wherever Paper Sent.
"So the question is, do the defendants, when they prepare and publish 50 copies in the United States and deposit them in the United States mail to be transmitted by mail to 50 subscribers in Washington, do they publish those 50 copies in the United States, if they do, if they do, the court has jurisdiction of the offense. But if they do not, then the court has neither jurisdiction of the offense nor over the defendants."

He is the author of Moors, Meteorological Almanac and Weather or Guide and has been a contributor to scientific and other publications on meteorological subjects.

SNOW COVERS EAST

Dig Up Furs in Middle and Mid-Western States.

BLIZZARD SWEEPS LAKES

Michigan and Superior Lashed into Mad Fury by Piercing Northern Gale—Colorado Hurrying to Harvest Apples.

CHICAGO, Oct. 12.—While the Atlantic and Pacific Coasts are beset in sunshine, the Middle and Middle Western states are in a state of gloom. The first chilly blasts of winter have swept a section from Manitoba to Kansas and from West Virginia to Colorado. Most of the states within this radius are covered with the first snowfall of the winter, and accompanying the white flakes was a piercing north wind that cut to the bone. From Manitoba comes the report that the mercury has fallen to near zero; that snow covers a large portion of the province to the depth of three inches. The blizzard has swayed in Duluth for two days, cutting wind is driving in from Lake Superior and the constant surges of mixed snow and rain have covered the streets and sidewalks with a thin coating of ice. The Illinois report is a report of a drop in temperature to 40 to 20 above zero. Everywhere there is snow. At Omaha, Lincoln and Norfolk, Neb., the mercury stands at 22 above. Des Moines and other places in Iowa are covered with snow and the northern gale has sent the thermometer down to below zero. In Kansas City, Mo., it stood at 23 above. Other places in Missouri report the arrival of winter. Kansas prairies have taken on a robe of white and the Sunflower State has put up its storm shutters. Oklahoma and the Texas Panhandle are shivering. All of Wisconsin awoke this morning to sweep paths through a steady snow. The temperature throughout the Badger State ranges from 10 to 30 above. A howling north wind raged all night. The gale lashed Lakes Superior and Michigan into a fury. The mad waters washed the decks of the larger steamers, and anxiety was felt for smaller craft. Either from a sudden surge or from boats dragging their anchor until they reached the beach no damage is reported. Throughout the fruit district of Colorado business in the towns is suspended to allow the clerks and other employees to help put the \$1,000,000 apple crop out of frost's way. Last night an overcast sky saved the fruit, and by tomorrow the largest part of the crop will be safely stored.

CUPID PLAYS HOBBY WITH BURNIE GIRLS

One Daughter of Portlander Weds Secretly, Other Elopers but Repents.

OLD LOVES ARE FORGOTTEN

Nancy, Smitten With Long Beach Youth at First Sight, Elopers but Backs Out and Surprises Sister's Secret.

LOS ANGELES, Oct. 12.—(Special.)—Surprises are in store for Portland young men, according to the story told today by Miss Nancy K. Burney, and her sister, who was Miss Alladine until her secret marriage last Thursday to Arthur Wayland Wright, a young business man of Los Angeles. The mother of the young man, W. T. Burney, of Portland, who is here with Mr. Burney on their way to New York, corroborates a large part of the story.

Elopes, Then Backs Out.
Miss Nancy, according to her own story, is engaged to young men of Portland and Seattle. When she reached Los Angeles, she met a youth of Long Beach and it was a case of love at first sight. They became engaged and the chances of the fiancés in the north dwindled. An elopement was proposed and the couple started for Santa Ana, the Gretna Green of Los Angeles. With her mother and sister present today she confessed the rest as follows:
"I backed out before we reached Santa Ana. Then, when I saw sister, I told her about it, confessed the whole thing instead of at the Lenox Hotel. Then she had to tell me that Thursday she married Mr. Wright. What do you think of that?"
Sister Had Eloped Also.
Mrs. Wright said:
"We intended keeping our wedding a secret for two years until I finished my education, but I let Nancy know it without meaning to and now it is all out. I have tried to write to my fiancé in Portland about it, but I can't get beyond: 'How are you? I guess I'll have to let my husband write him.'"
Mrs. Wright admitted that she did not know Mr. Wright until she met him a week ago on her arrival here.
Mrs. Burney, mother of the girls, said:
"This is an awful mixup, but I guess it will be straightened out all right. Mr. Burney and I are going to take the girls and our new son-in-law to New York with us for a few months and let it blow over."

W. T. Burney is a lawyer of Portland, with offices in the Washington building, and has taken quarters at the Nortonia Hotel.
ASTORIA, Oct. 12.—(Special.)—At an early hour this morning a set of diamonds valued at \$50 and a number of machines were stolen from the home of Mrs. O. F. Stafford, wife of Professor Stafford of the University of Oregon. She is a guest at the Oregon Hotel.
C. J. Butsch, a business man of Tacoma, is visiting Portland this week and has taken quarters at the Nortonia Hotel.

BOND IDEA GAINS FAVOR

Senator Jones Will Urge Action on Plan for Reclamation Fund.

NORTH YAKIMA, Wash., Oct. 12.—

(Special.)—Through Senator Wesley L. Jones it became known today that the Congressional delegations of all Northwest states are going to band together at the coming session and pull for a bond issue to provide funds for the completion of reclamation work, as suggested by President Taft on his recent visit. The Washington delegation is taking the lead in this, and, through Governor Hay, is bringing the matter before the other state delegations. The idea has been well received so far and promises success.
Converts to the bond issue idea are also being made among Eastern solons. Senator Bob Taylor, of Tennessee, here on a visit, declares himself in favor of the idea, and Senator Painter, of Kentucky, has purchased a ranch under the Trejon project for his sons, insuring his interest in the completion of the work.
