There was not a dence implicating him in the insurrection. A policeman who was shot during the demonstration died. Another policeman is in a serious condition.

PEKIN. Oct. 13.-Japan has taken official cognizance of the reported efforts of British and American interests to arrange with China to build the Kin Chow Tsi-Tsihar Railway, as it is considered that the proposed construction of the road has grown out of the defeat of the plan to build the Hsinmintin-Fakuman Railroad.

Japan has formally notified China that while it does not intend to obstruct that government, yet it will maintain its right to be consulted with respect to Man-

hurian railways. Recent events in connection with the recall of Charles R. Crane precipitated Japan's action. It is understood that the action of the American Secretary of State followed Japan's solicitations, not only on account of Mr. Crane's alleged utterances, but because of American activ lties in Manchuria and of another mer American official, whom the Japanese regarded as exceedingly active in the anti-Japanese movement in Man
