AMATEUR ROBBERS MEEKLY PENITENT

L. B. Reed and B. Powers Tell Story of Holding Up Friend "Just for Fun."

CASE WILL BE DROPPED

After Spending Night in Jail Men Are, However, Held for Carrying Concealed Weapons-Other Police Court News.

Repenting the utter folly of their realistic and dangerous practical joke played upon their friend, Daniel E. Powers, the attorney who was held up and robbed "just for fun" by Attorney L B. Reed and B. Powers, at an early hour Friday morning, the two amateur highwaymen were huddled in the pen with the drunks, vags and other riffraff comprising the dregs of the police docket yesterday morning in the Municipal Court. Believing that as soon as their identity became known, they would be granted their liberty, they were greatly astonished to find they would not be let off so easily. While their victim was able to smile yestermorning, after recovery from his

"If Mr. Powers will not sign an information against them," said Deputy District Attorney Hennessy. "I will prosecute them for having the revolver in their possession." Attorneys representing the jokers tried to induce Mr. Hennessy to drop this charge, but he refused. Judge Bennett then set Monday as the date on which the case will he tried. It was he who "framed up" the joke upon his landlord.

"I was in my room and about ready to retire," said Reed, "when Powers rushed over to see me and wanted me to go out and scare D. E. Powers. I got from our office the revolver that Tracy, the outlaw, used in one of his fights. We then repaired to the place where we sinck him up, and had to wait two hours before he came.

"I held the revolver. You see, D. E. Powers had always boasted as to what he would do if he were held up. We thought his talk was all hot air, so we decided to give him a scare. When he was told to put up his hands he did it so quickly I was astonished myself. Before I had an opportunity to tell him it was all a joke, after the money had been taken from him, he turned and ran like a deer. We did not go to his house, because we thought he might smell a mouse. So we started downtown, and then for the first time I became a little scared at what we had done. It had been our intention to give him the laugh right on the spot, but you see he ran too fast for us."

A perfect array of legal talent appeared at the courtroom. Attorneys Giltner and Hogue appeared for the defendants. Powers, one of the defendants, is a brother of the president of the Lewiston Land & Irrigation Company. Reed is connected with the law firm of Giltner & Sewell. Both are well

The committee is no use in delaying it, as the large majority of the property-owners in the territory through which the track is to run demand it. After some discussion the motion carried. The committee also considered the applications of the National Automatic First Alarm Company and of the American District Telegraph Company for franchises to operate auxiliary service in connection with the city system. Chief Campbell and City Electrician Savarian were present to defend their side of the case, for both hold strongly it would be a grave mistake to permit any private corporation to connect its wires with those of the municipality, asserting it will injure the city system and lead to confusion and trouble.

Councilmen Lombard and Kubii were unable, they said, to see wherein the city's system would be troubled by the connection of the wires of auxiliary companies, but Chief Campbell and Elec-

General Appraiser DeVries Arrives in Portland From Capital.

General Appraiser Marion De Vries arrived in Portland yesterday morning from Washington, D. C., and immediately began taking testimony relative to pro-tests on certain duties charged on im-portations from the Orient. The hearing will continue today. Sulphur is the principal commodity

which will occupy the attention of the appraisers during the present trip. Uncle Sam insists on duty and importers assert the mineral arrives in a crude state and should be admitted free.

Salmon Sent to New York

ASTORIA. Or., Oct. 15.—(Special.)— The steamer Falcon, which sailed today for San Francisco, loaded several thou-

panies, but Chief Campbell and Electrician Savarian declared it is bad policy to have any but city employes repairing the city system or having access to the fire-alarm boxes. They explained they have no objection whatever to the companies installing a complete auxiliary system, connecting direct with the department headquarters.

The Automatic Company offers the city one per cent of its gross earnings, while the other concern offers 25 per cent, the other provisions of the franchises being similar. The matter was finally put off for two weeks, when the committee will give it special consideration, and new offers will be tendered by the companies on a flat rate basis.

CURES

If an old sore existed simply because the flesh was diseased at that particular spot, it would be an easy matter to apply some remedy directly to the place that would kill the germs; or the diseased flesh might be removed by a surgical operation and a cure effected. But the very fact that old sores resist every form of local or external treatment, and even return after being cut away, shows that back of them is a morbid cause which must be removed before a cure can result. Just as long as the pollution continues in the blood, the ulcer remains an open cesspool for the deposit of impurities which the circulation throws off. S.S. S. cures Old Sores by purifying the blood. It removes every trace of impurity and taint from the circulation, and thus completely does away with the cause. When S.S. has cleaned the blood, the sore begins to heal, and it is not a surface cure, but the healing process begins at the bottom; soon the discharge ceases, the inflammation leaves, and the place fills in with firm, healthy fiesh. Under the purifying and tonic effects of S.S. S. the system is built up, and those whose health has been impaired by the drain and worry of an old sore will be doubly benefited by its use. MEN CURED

Consult Me First

Even though your case may be one that some other dector is able to cure, and though his cure be absolutely thorough and permanent, there is yet good cause for your coming to me for treatment. The service I render is entirely unlike and better than the ordinary. I have devised new and scientific methods of treating men's allments in all their phases. I cure cases that others cannot cure, and cases that others can cure I cure in less time and without pain or possibility of injury. All my forms of treatment have been perfected along the lines of nature's requirements and are in exact harmony with the natural resuperative forces. Therefore, my cures are painless, prompt and thorough.

Contracted Ailments

The serious results that may follow neglect of Contracted Aliments could scarcely be exaggerated. Safety demands an absolutely thorough cure in the least possible time. I have treated more cases of those disorders than any other physician upon the Pacific Const. My cures are thorough and are accomplished in less time than other ferms of treatment require in producing even doubtful results, employ remedies of my own devising, and my treatment is equally effective in both recent and chronic cases.

I Treat Men Only

The vast multitude of men who have taken my treatment have not been disappointed. They know that I do not promise more than I perform. To there I have actually illustrated in the cure of their own cases the truth of what I claim, namely, that my treatment is certain to cure as it is that my patient engages my services and follows my directions. My success is due not alone to education, experience, skill and scientific equipment, but to the fact that I limit my study and practice strictly to allments of men. To male maladies alone I have earnestly and exclusively devoted 25 years of my life, and on them all my faculties are concentrated.
