## NEW TRADE IN FLOUR

Seventy-five Thousand Barrels Sold to Go East.

INTERIOR MILLS' BUSINESS

Demand for Wheat for Eastern Shipment Continues Unabated -- Strong Inquiry Also From Califor-

The Eastern demand for wheat is still the leading factor in the Northwestern mar-ket. Another Eastern buyer made his appearance yesterday, making four on the ground. In addition to the Eastern inquiry strough. In addition to the Eastern inquiry there is good buying by California firms and likewise a better feeling in the export mar-ket. All these contribute to hold prices very firm in this section. The London cable of the Merchanis Exchange reported car-goes firmer on American sivices with Walla. CANNOT DEPRESS HOP MARKET. Efforts of Bearish Dealers are Futile-Lon-

don Prices Higher.

Efforts are being made by a few hop dealers in Balem and Takima, who evidently have orders under the market, to create an impression of weakness, but such talk has no effect on anyone. Hop markets all over the world are steadily advancing, and the Oregon crop will take care of itself. That this market is on a sefe basis was shown by the sale of a carinad of choice goods sterday at 26 cents. On the whole trade as quiet during the day at all points along he Coast. Among the transactions in Orens was the purchase by McNeff Bros. of bales at a little better than 25 cents.

A California letter placed the unsold rop in Sonoma at 3500 bales and in the nussian River section at 1500 bales, the riter estimating the Bonoma crop at 22,000 les and the entire state at 60,000 to 63,000 les. Among the deals in the Southern state mentioned were the purchase of 600

There is only a very moderate demand for new hops, but where planters are disposed to take moderate prices business retion of community. The greater number are demanding prices now p very high values, which consumers are not willing to give. The quality of the growth turns out to be very good, but the quan-tity is smaller than was estimated. Yearings continue to sell well, the prices be-tween these and new hops being unusually wide. Continental markets are dearer. American reports irregular. Quotations for English hope—Choice East and mid-Kent. ff to f8 15s; medium quality, f5 15c to f6 10s; low and inferior, f4 15c to f5 5e.

BETTER DEMAND FOR POULTRY. Prices Are Steady in Spite of Unusually Large Receipts.

More than the average quantity of poultry came in yesterday, but there was a very good demand and nearly everything cleaned up. Hens sold at 14@15 cents, but Springs were slow at around 14 cents. A good many turkeys have been shipped to Beattle and this has strengthened prices somewhat, sales being made at 1614-217 cents.

Cheaper eggs were offered, but the demand seemed to be only for the best. Butter and cheese were unchange.

Cooler Weather Helps Retail Business and Distribution-Reordering Benefits the Jobbing Trade - Bank Clearings.

NEW YORK, Oct. 15.—Brandstreet's tomorrow will say: Improvement is the erder of the day in trade, collections and didustry. Cloudy weather, freezing temperatures, light snew or killing freeze, coupled with freer crop movements have helped retail trade and collections at the West and Northwest, while lower temperatures and light prices and free marketing of cotton have helped distribution at the South, Jobhing has been coincidently benefited by recordering to fill broken stocks, and the distributive trade side accordingly presents a very favorable appearance.

Trade at first hands feels the stimulus of more confident buying for Spring, though the unsattlement in the dry goods trade, due to high cost of material and the talk of curtailment, still retards trade in this line. The iron and steel, coke, machinery and automobile industries this week return good reports as to activity and thore is noted a greater scarcity of skilled labor.

Business failures in the United States for the week ending October 14 were 222 against 203 last week, 244 in the same week of 1908, 204 in 1907, 170 in 1906 and 175 in 1906. Business failures in Canada for the week number 30, against 38 last week and 24 in the same week of 1908.

St. Paul, Amalgamated Copper, Union Pacific and Reading Are Also Strong.

NEW YORK. Oct. 15.—Prices of Stocks today continued on the recovery. United States Steel was the dominant leader of the spreadation and its rapid advance set the tone for the whole market. Or the new prominence assumed its rapid advance set the tone for the whole market. Or the new prominence assumed its rapid advance set the tone for the whole market. Or the new prominence assumed in the prominence assumed to promine the favorities in speculative mediums of the Standard Oil party.

The movement of the speculation that the Morgan movement in the speculation that the Morgan movement in the market did not have the support and approval of the Standard Oil party. The concurrent revival of strength in Reading made an important addition to the favoring influences. The spone of the money market was somewhat caster in the call loan division, in spite of the forecast of another heavy decline in the cash holding of the banks for the week. This rolling rate for call loans was lower than yesterday, and the supply of funds was reported to be larger. The foreign exchange market held steady during most of the day spin did not reflect offerings of finance tills. The week's loss of cash by the banks is estimated at between \$6,000,000 and \$7,000,000.

The extraordinary movement in United States Steel caused a circulation of new rumors of special developments assign from the favorable trade situation to account for its rise. Reports of a contemplated dinner, at which the heads of the independent and of the United States Steel Carporalloid, made the immediate occasion for the producers. The companies are to be present with the working agreement reported, also, a better feeling in the copper trade, but-tile effect was more promounced on the securities of copper companies than on the market for the metal their induced some special effects of the copper trade of the companies affected that the producers of the copper trade that on the market for the metal their did the producers. The copper trade that the copper trade the copper trad

panies than on the market for the Actas sharption helped the stock of the companies affected and induced some credence for reports of other railroad deals. One of these pointed to a project for sharing control of the Western Pacific or even of the Denver & Rio Grande, which controls that road. The above specimens will indicate how large a part the unvertied rumors played in the day's market. Resilising sales deducted something from the day's gross gains.

TRADE AT THE STOCKYARDS IS LESS ACTIVE.

Sheep Moving on a Lower Basis, but Fancy Cows Are.

Higher.

Livestock receipts yesterday were light and trade was not extensive. The arrivals for the day were 155 cattle and 265 goats. The heavy run of sheep of late has had a eakening effect on the market. Packers are well supplied and not free bidders, and \$% cents is now quoted as the top on best weth-ers. Lambs hold their own.

There was a better feeling in the cattle market, with some good cows moving at \$3.50, a quarter higher than the bost recent sales. Steers sold at former prices.

Hogs were steady and unchanged. Shippers at the yards yesterday were F. I Hibbs, of McMinnville, with two cars of goats; W. F. Richards, of Condon, with two cars of cattle, and L. Zimmerman, of Haines, Or. with four cars of cattle, The day's cales were as follows;
