It was at La Guna, a township made up entirely of Indians, that the President was met by a local committee of Indians, and there he had one of the most unique enterminments of his trip. As he sat in a little canopled stand in the plana inclosed with adobe huts and walls, the President was showered with presents. There were blankets of gaudy color, Indian bread and other offerings which the red men had familianed in his bonor. The plans itself, the walls and terraced roots of the adobe houses were lined with Indians, the squaws being attired in fantantic costumes, which seemed all the brighter under the glare

carried an American flag.

As the President was leaving the plaza, after the weird music of the tomforms had died away and the last steps of the Comanche dance had been taken by the braves, the little children sang a song of New Mexico. It was woven by the same Indian squaw, Ella of Genado, who made the blanket which was presented to Mrs. Roosevelt when the ex-President visited this city. In all his speeches today the President urged the people of Arisona and New Mexico to deliberate on the formation of their new state constitutions, once their admission to the Union is authorized. The President seems to take it for granted that statehood is soon to come to

the territories.
Pohtmaster-General Hitchcock, who is accompanying the President through the Southwest, made an address at Grand Canyon last night, paying a striking compilment to the people of this section and declaring that he hoped their ambitions for statehood soon would be realized.

Promises to Aid Statehood.

In his address to the people of New Mexico the President said:
"I am glad to see that you are orthodox in this community, and believe in a future state. I might have had some other opinion if I had not come through a territory yesterday that intimated to me that there were people on this side of the line that had the same views that they had with reference to becoming a state, but that they preferred to have each community work out its own salva-

Barrill Volunteered to Tell.

Details of how Barrill's affidavit was obtained became available here today-The guide came here two days ago and informed General Thomas H. Hubbard, president of the Peary Arctic Club, that everything in the affidavit was true. Barrill also talked with General J. M. Ashton, of Tacoma, who obtained Bar rill's affidavit, together with the affidavits from Fred Prince, a packer on the Mount McKinley expedition; Samue Beecher, the cook, and Walter Miller the photographer, all members of the Cook party. General Ashton, speaking of the man-ner in which the Barrill affidavit was ob-

tained, said: Felt Duty to Tell Truth.

"I received word from General Hubbard to ascertain the exact truth concerning Dr. Cook's climb to Mount McKinley, and had not the remotest idea what side I was on or would be on. I sent Miller to Barrill and the other members of the expedition and had them brought to Tacoma. They were carefully examined. Barrill spoke openly and squarely from

Barrill said the doctor was a fellow and that he (Barrill) had not given the Mount McKinley matter a thought until the North Pole question came up. General Ashton said there were other affidavits and that he understood that the originals were all to be turned over to the committee of the Explorers' Club and other authorized organizations.

BARRILL YARN ALLEGED FAKE Account of Ascent of Mountain Which He Repudiates.

NEW YORK, Oct. 15 .- To back up the affidavit of Edward N. Barrill, the guide. who swears that Dr. Cook never reached the top of Mount McKinley, the Globe today publishes extracts and graphic reproductions of Barrill's diary. This book was kept by the guide from the time he first met Dr. Cook at North Yakima, Wash, in May, until November 9, 1996. The most interesting portion of the exhibit covers the period from September 2 to 18, where Barrill said he changed the entries at Cook's direction to support the story that treached the top of the peak.

While the alleged false entries were in Barrill's handwriting, the guide says they were dictated by Cook. The pages, the Globe says, shows signs of might be erasures. In the writing which Barrill says Cook had bim alter to make their elevation 12,000 feet instead of \$000, the figures "12" appear blacker than the ciphers, which Barrill says were left indisturbed

undisturbed.

The alleged fulsified entry on September 15, describing how Cook and Barrill reached the summit of Mount McKinley, read as follows:

"We reached the top at last at about

11 A. M. to the gunsight. Took some pictures. They might not be good, as it was cloudy. Stayed on top a short time. Then came down to Camp 15,600. We had a grate shaking hands on top.
