

SAN ANTONIO HAS CHEERS FOR TAFT

President Dedicates Army Chapel at Fort Sam Houston.

FOURTH SERMON GIVEN

Taft Tells Texans He Has Become Convert to Great Work of Irrigation in West, and Suggests Larger Standing Army.

SAN ANTONIO, Tex., Oct. 17.—President Taft's travels brought him to the Far South today. After 24 hours of continuous journeying from El Paso, he arrived here at 7:30 P. M. and was given a cheering welcome.

After being received by the city officials, the President was driven to the hotel with an escort of cavalry, and later in the evening proceeded to Fort Sam Houston, where he assisted in the dedication and accepted on behalf of the Government the chapel which has been erected at the famous old Army post by the citizens of San Antonio.

Tomorrow morning the President will lay the corner-stone of the nearly completed chapel, which is now stationed at Fort Sam Houston, and returning to the city, will make an outdoor address from a stand in Alamo Plaza. He will leave in the afternoon for Gregory, Tex., near Corpus Christi, to pass four days on the ranch of his brother, Charles P. Taft.

At Del Rio, Sanderson and one or two other places the President made brief speeches to the people.

The sagebrush and cactus of the western part of the state gave way as the train advanced to mesquite bushes and finally to pasture lands and cotton fields. The President's train was one of the 14 specials running into San Antonio ten minutes apart. Most of the trains were headed with troops of cavalry, and finally to pasture lands and cotton fields.

The President accepted and dedicated the chapel at Fort Sam Houston tonight in his capacity as Commander-in-Chief of the Army. In doing so, he preached his fourth sermon of the trip. Among those who participated were: Bishop Johnson, of the Episcopal Church; Bishop Forest, of the Catholic Church; the Rev. Samuel Marks, and the Rev. J. B. Cleaver, president of the Ministers' Association of San Antonio.

The President took this as a further indication of his view, that the churches are growing closer together, on the common ground of the Fatherhood of God and the brotherhood of man. He also complimented the Del Rio of the Regular Army.

In his speech at Del Rio the President said: "I suppose you are interested in irrigation. This Western trip impressed me with the need of irrigation. We are exhausting the land of the East, and the high price of farm products and everything of that kind is explained by the fact that we are using up most of the land, and unless we can expand our territory by making that which has heretofore been a desert useful, we are up against it."

At Fort Sam Houston the President said in part: "I would desire to say that an exceptional circumstance has contributed to the construction of this Army post here, and one that speaks wonders to the people of San Antonio and for the Army of the United States stationed in this beautiful city."

"Visiting here convinces me that the officers and enlisted men of the Army are held in the highest regard and that they have been taken into our society. The supporters of the Army do not come quick enough or often enough to their defense. They do not defend the Army of devoted men like they should. I don't think we can ever see a threat when the talk is made to increase the Army. I will leave it to the people of San Antonio to say and do for the Army of the United States."

HOBBO SHOT BY OWN GUN
Tramp Wounded While Crawling Over Brake Beams.

While crawling across the rods underneath a freight car on the D. R. & N. attached to an eastbound train in the local yards early last evening, a revolver in the pocket of Frank Phillips, a hobo, was discharged, the bullet passing through the fleshy part of his shoulder.

Phillips slid out from under the car and walked to the office of Dr. Fred J. Ziegler in the Medical building, where the wound, which is not serious, was dressed.

He claimed to be going to Bridal Veil, where he expected to get work in a logging camp.

REVENUES TAKE BIG JUMP
Government's Income Will Greatly Exceed Last Year's Figures.

WASHINGTON, Oct. 17.—The big boost in income from internal revenue continues, and reports indicate that internal revenue collections during the current fiscal year will exceed last year's by between \$12,000,000 and \$15,000,000.

cause of his mastery of the Spanish language, but also because of his ability to enter into the peculiar mental processes of the South and Central American people.

Mr. Buchanan was born in Irvington, Ohio, September 10, 1852. He was appointed United States Minister to the Argentine Republic by President Cleveland in 1894. He devoted himself to extending American trade with South America, especially with the Argentine Republic. It is incidentally noted that a reciprocity treaty between Argentina and the United States that gave promise of benefit to the business interests of the two countries, but this failed of ratification by the United States Senate.

One of his important achievements while in Buenos Ayres was his settlement of the boundary dispute between Argentina and Chile, that threatened to involve the two countries in war.

Mr. Buchanan as Director General, successfully managed the Pan-American Exposition at Buffalo.

Recently had he finished his service as a delegate to the second Pan-American conference in Mexico City, in 1902, before he was again drafted into the diplomatic service to become the first United States Minister to Panama, where, owing to his tact, he was able to adjust many difficult issues.

Voluntarily relinquishing that post when he was choosing Mr. Buchanan to go to Europe as representative of large business concerns. But soon he had a call from the State Department and went first to the Rio Janeiro conference and then to Venezuela.

American concessions and diplomatic business, generally, were in bad shape in this country and Mr. Buchanan succeeded in arranging for a private settlement of four of the five great American claims against Venezuela and for the reference to the Hague tribunal of the fifth. He had been named as agent for America in the presentation of this case—that of the Orinoco Steamship Company—to the Hague tribunal when he left New York for London recently, and was in conference with the State Department almost up to the day of his death in regard to that business.

VAUGHN'S GRIEFS GROW
REAL ESTATE MAN ACCUSED OF ATTEMPTED POISONING.

May Gain Liberty on Habeas Corpus to Return to Cell on More Serious Charge.

C. C. Vaughn, a real estate man, was served a warrant yesterday for attempting to poison two women. The warrant was sworn out by Mrs. Lola G. Baldwin, woman police officer, who with Mrs. Vaughn divorced wife of the real estate man, received a package of tea, impregnated with deadly poison. The package was sent through the mail.

Vaughn is held in the city jail. He is in a final attempt to secure his liberty through the habeas corpus proceedings. He has been sentenced by Judge Brough to four months on an assault charge. Should he secure his liberty through the habeas corpus proceedings he will be promptly rearrested by Jailer Hunter and held on the new charge of attempting to poison Mrs. Baldwin.

The real estate man has refused to make any statement concerning the attempted poisoning charge.

PHEASANT HUNTER SHOT
A Wood Comes Home With Legs Full of Small Pellets.

A. Wood, of 672 East Belmont street, a clerk in the general offices of the Portland Railway, Light & Power Company, was accidentally shot in both legs while out hunting pheasants yesterday afternoon near Linton. He was brought to the city on a United Railways train and taken to St. Vincent's Hospital in a Red Cross ambulance.

Wood was shot by his hunting companion, R. Spaulding, of Linton. Spaulding fired at a pheasant and did not see his friend directly within range of his gun. Wood was hidden by a clump of bushes toward which the bird flew, and when the shot was fired the No. 7 pellets penetrated his legs.

The wounds are not accounted serious.

MARKET IN EAST EXPANDS
Visiting Japanese Buy Articles Not Accepted Before.

WASHINGTON, Oct. 17.—Extensive purchases in the United States by members of the Japanese commercial commission of Japan of a large variety of manufactured articles which heretofore have not found a market in the Orient, cause American trade experts to look for a heavy increase in trade between the United States and Japan.

In spite of the fact that the distinguished Japanese visitors have been received hospitably by every city they have thus far visited, it has been apparent in a number of places that the real purpose of the coming to this country is not fully understood.

Lipman-Wolfe & Co. AGENTS FOR THE BEST TRADE FOR BUTTERICK PATTERNS and NEMO CORSETS BUY NOW \$1 Down, \$1 a Week

Great Suit, Blanket, Apron and Dress Goods Sales SALE OF NEW FALL KNIT UNDERWEAR AND HOSIERY ON SALE TODAY AT 25 PER CENT TO 40 PER CENT LESS THAN REGULAR PRICE

- THERE ARE UPWARDS OF 40,000 ARTICLES OF KNIT UNDERWEAR AND 20,000 PAIRS OF HOSIERY IN THIS SALE. THE BEST KNIT UNDERWEAR AND HOSIERY THE WORLD PRODUCES FOR MEN, WOMEN, MISSES, GIRLS, BOYS AND INFANTS, AND ALL AT THE LOWEST PRICES OF THE YEAR.
- Through our importing house we obtained the best knit underwear the European market had to offer, while through our New York buyer we got the best the American mills make. And so with hosiery. Chemnitz, Germany, sent large purchases, while from the big mills in the United States came hundreds of dozens of superior Hosiery. It is therefore a sale positively unprecedented from the view point of value-giving, quantity of merchandise and superiority of quality.
- The underwear shows many improvements, very recent improvements which you cannot find in the garments shown in other stores in Portland.

DRYS HIT TAGGART
Groom Governor Marshall for Democratic Leader.

SALOONS ARE DEALT BLOW
Temperance Cause in Indiana Will Be Advanced, With Democrats Joining Republicans on Local Option Issue.

INDIANAPOLIS, Ind., Oct. 17.—(Special.)—Anti-saloon Democrats of Indiana have started a movement to make Governor Marshall the Democratic leader, and thus supplant such men as Tom Taggart, State Senator Fleming, of Fort Wayne, and Crawford Fairbanks, of Terre Haute. Taggart has been the close friend and ally of the saloons for years. Fleming is a heavy stockholder in a brewery, and Fairbanks is a brewery owner.

It was largely through the influence of these men that the Democrats arrayed themselves almost solidly against the local option law in the last session of the Legislature, and but for the convictions of a few members of the party would have secured the repeal of that statute. The Governor was not in sympathy with the effort to repeal the law, but refused to take any hand in the fight, saying merely that the Democratic platform had declared for township and ward local option, but had not declared

against county local option. Those who were close to the executive believed that he would have vetoed the repeal bill had it been passed, but a few Democrats saved it and the question was not presented to him.

Ever since the Republicans took such advanced ground against the saloon, beginning with the Nicholson law in 1885 and ending with the enactment of the local option law at a special session one year ago, many Democrats have been in sympathy with them on this question. But the one thing that the moral element in the Democratic party in Indiana lacked was leadership. On the other hand, the wet element was never inactive, and when delegates came to state conventions or Senators and Representatives came to meetings of the Legislature, it usually managed to have a majority on the saloon side.

This was the condition of affairs in the party up to the time that Governor Hanly ordered the famous raid on Taggart's and Lee Sincilar's gambling dens at French Lick and West Baden. The confiscation of thousands of dollars of gambling devices at Taggart's resort made a profound impression on the minds of many Democrats.

QUEBEC FIRE COSTS \$1,000,000.
QUEBEC, Oct. 17.—The loss from the fire which swept Quebec's waterfront late last night and early today, will exceed \$1,000,000.

HORSES SUPPLANT DOGS
Haul Heavier Loads Over Frozen Trails in Alaska's Fastness.

WASHINGTON, Oct. 17.—Horses are superseding dogs in the transportation of mails in Alaska. A load of mail weighing not less than 2000 pounds is often dragged over the frozen roads of Alaska by one horse attached to a sled.

In a short time, it was said today, the Postoffice Department expects to make an announcement of the awards of contracts for the transportation of mails in Alaska for the four-year period from July 1, 1910, to July 30, 1914.

FOUR DAYS TO REST
President to Enjoy Peace and Quiet on Lone Star Farm.

REST PLANNED ON RANCH
On Broad Acres of Brother Charles' Estate Much Diversion in Way of Golf, Hunting and Dinners Is Arranged for Executive.

SAN ANTONIO, Texas, Oct. 17.—Following a day's visit in San Antonio, the President will leave for his brother's ranch at Corpus Christi for four days of rest. Then he will make, in quick succession, stops at Houston and Dallas, on his way to St. Louis.

On members of his party will have an opportunity to relax after their strenuous trip. Formalities will be eliminated as far as possible when the President goes to his long journey from El Paso to San Antonio there was ample escort for Mr. Taft. Notable in this escort were 109 members of the International Club of San Antonio who have chartered a special train for the trip to and from the border. Mr. Taft is an honorary president of this organization, and so is General Dix.

The program at San Antonio is still subject to slight modifications, although the feature of the President's visit to the historic old city will be the acceptance of the chapel and library, located within the confines of Fort Sam Houston. This building is designed to furnish a place of recreation for officers and enlisted men at all times, both on week days and Sundays.

Monday will be strenuous for Mr. Taft. He will start the morning with a review of all the troops at Fort Sam Houston at 8:30 A. M. Shortly after this ceremony is completed, the President will return to the center of the city, where he will be presented to the populace. He will be welcomed to the city by half a dozen speakers.

This ceremony will be followed by a noon luncheon, at which the business and professional men will be the guest of honor at a formal banquet. This is expected to consume at least two hours preceding Mr. Taft's departure for his brother's ranch at Corpus Christi.

For months preparations have been under way for the reception at the Taft ranch near Corpus Christi. In the four days that he remains of the great estate known as "La Quinta," he will be receiving hunting parties and a chance to admire the fine cattle his brother Charles has down there, which will be paraded before him by the proud manager.

Thus for four days the capital of the United States will temporarily be located at Gregory, Texas, one of the small towns on the Taft property.

His visit there will be broken only on one day, when he goes to Corpus Christi to address the delegates of the Inland Waterways Convention, to speak to the residents of that city, and probably attend an old-fashioned oyster roast. The people of Corpus Christi will not go strong on formalities, merely inviting the President over as a neighbor.

The President will leave his brother's ranch Friday night, October 22, at 7:30

o'clock, making an easy run to Houston, where he again starts his "one-night stand." Houston is to be a brief stop. He will arrive there at 7:30 A. M., leaving at 10:30 A. M.

The program at Houston includes a breakfast by the prominent business men, after which the President will make a public address. Probably all the school children will be massed at the depot to welcome him. Many of the residents of Galveston will join in the celebration at Houston. Galveston is but 50 miles distant.

From Houston the President is to make a daylight run, and the probabilities are that he will make several brief speeches at some of the larger places before Dallas, the North Texas metropolis, is reached. The Dallas Chamber of Commerce will send a delegation of 100 business men to Houston as an escort to the President while traveling to the city. The President will reach Dallas at 5:30 P. M., October 23. A half-hour later he is to make an address at the Dallas fairgrounds, which is the home of the largest state fair in the South. Following this address he will be briefly shown the fairgrounds, and then return to the city, where a banquet will be served.

The President will remain in Dallas over night, leaving for St. Louis October 24 at 8:30 A. M. Dallas will probably be his last stop in Texas.

HUGE COMMUNION IS HELD
About 25,000 People Partake of Sacrament at Pittsburgh.

PITTSBURGH, Oct. 17.—The greatest religious gathering ever held in this city, and perhaps in the country, occurred at Forbes Field here today, when about 25,000 people assembled at the sacrament of the Lord's Supper, the event being the principal feature of today's session of the convention of the Disciples of Christ, or the Christian Church.

About 100 elders and 1000 deacons officiated in passing bread and wine.

HAD QUIT WORK
READY TO GIVE UP IN DESPAIR
Restored to Health By Vinol

"I was sick, run-down and finally had to give up work. After trying a number of remedies and several physicians, I was just about ready to give up in despair. I saw Vinol advertised and decided to try it, and it has done more good for me than all other means combined. It has built me up and restored my strength until I now feel twenty years younger, and am able to attend to my work again as usual." Job Jeavons, 1036 Lind street, Wheeling, W. Va.

The reason Vinol is so successful in such cases is because it contains iron and all of the strengthening blood-making and body-building elements of cod liver oil, but no oil.

Vinol is unexcelled as a strength creator for old people, delicate children, weak run-down persons, and after sickness—and is the best known remedy for coughs, colds and bronchitis.

We return your money if Vinol fails to give satisfaction.

WOODARD CLARKE & CO., DRUGGISTS

WANTED, SQUARE PIANOS
We want at once seven or eight square pianos in reasonably good condition. Will make liberal allowance for same toward payment of a fine new upright or grand, or pay cash for same. Apply Eilers Piano House, wholesale department, 353 Washington st.

During the month of September, for which the highest quality of pianos compiled, Eilers Piano House reports having sold in Oregon and Washington more than a quarter of a million dollars' worth of fine pianos.

Not more than ten years ago one of the highest quality pianos in America's finest matters asserted that not to exceed fifty thousand dollars' worth of pianos could ever be sold in either one of these "Far Western states" in any one year.

Scarcely a decade later Eilers Piano House alone sells more than six times this estimate in a single month.

This is not an exaggerated record and speaks volumes, not only for the money-saving selling policy of this firm, but also for the intelligent devotion to liquor education and the better things in life prevailing throughout the West.

To show this development still more forcibly, it is a matter of record that, although the highest quality of America's finest and most costly piano, has been sold in Oregon ever since the old territorial days, never in any one year prior to the coming of Eilers Piano House were over more than thirteen Chickering pianos sold by their "biggest houses" of the trade.

Since establishing his business in Portland there has scarcely been a month that did not witness a shipment to Eilers Piano House of more than one solid cabinet of Chickering, both grands and uprights.

The great thing which the big business of Eilers Piano House was founded here could gain recognition, and today more than seventy per cent of the piano trade in Oregon and Washington is handled by Eilers Piano House.

Before Eilers Piano House was established the sale of good pianos was restricted, and indeed, wonderfully limited. The aim of dealers then, as it is and must of necessity be with a great many dealers now, was to sell a few pianos as possible and to secure on each individual piano sold as high a profit as could possibly be obtained.

Eilers Piano House methods meant entirely the reverse of this. From the very beginning they have made it their policy to furnish high-class pianos at a price within the reach of a home of such an ordinary character.

The introduction of "carload freight rates," the employment of the so-called "direct" method of shipping pianos in special cars without boxes, which at first was a patented device exclusively employed by Eilers Piano House, the getting instruments from factories at first-hand, and the elimination of the many middlemen and jobbing houses who at San Francisco and other places exacted exorbitant profits and commissions, as they do in several instances today, the doing away with all ciliares, irksome and unworkable methods with which the trade was encumbered, the establishment of a one-price selling policy, meaning one price and not the lowest to each and every buyer, no more being asked and no less being accepted, and the dozens of money-saving facilities employed by Eilers Piano House, all contrived to bring about the popularizing of the piano, and made possible the establishment at Portland of the largest concern of its kind.

The sales last year of Eilers Piano House exceeded \$1,000,000, and they will exceed \$1,500,000 this year.

PHOTOGRAPH OF CHARLES P. TAFT'S NEW RANCH HOUSE, WHERE THE PRESIDENT WILL BE A GUEST.

GRAND, Texas, Oct. 17.—(Special.)—This is a photograph of the new ranch house "La Quinta," owned by Charles P. Taft, where President Taft will make his headquarters during his hunting trip in Texas. "La Quinta" is situated three miles from Gregory, Texas. The President expects to find an opportunity here of entertaining a number of close friends, including several members of his Cabinet. He will go to Texas to meet him. The new ranch house is a thoroughly modern building, with half a dozen bathrooms, gas heat, electric, etc. The President will occupy a suite of rooms on the second floor. Extensive preparations have been made by the ranch managers for a big wildcat hunt and, though the President himself does not indulge in shooting to any extent, many of his friends expect to find great sport in hunting the game, which abounds on the extensive ranch.
