

PRIZE TURNED ON EXPRESS COMPANY

Commerce Commission Looks Into Charges Against Wells-Fargo.

DISCRIMINATION CHARGED

San Francisco Shippers Say High Rate Applies to Their City and Not to Portland—Lane Doubts Right to Change Tariff.

SAN FRANCISCO, Oct. 21.—With the taking up of charges made by local shippers against the Wells-Fargo Express Company, the Interstate Commerce Commission today, laying aside for the moment the practices of the railroads. The complainants against the express company are the California Commercial Association and M. S. Kohlberg & Co., and the action is taken in each case with the change in rates made by the company in 1908 which the shippers claim made the shipment of goods in lots weighing more than ten pounds impossible. It was claimed that inasmuch as the higher rate applies only to San Francisco and not to Portland, it was discrimination in favor of the latter city.

Changes Made in Rates. According to the case set forth by the attorneys, the express company fixed the following rates in 1908: Five hundred to 1,000 pounds, \$12 per hundred weight; 1,000 to 2,000 pounds, \$11; 2,000 to 3,000, \$10; 3,000 to 4,000, \$9; 4,000 to 5,000, \$8; and over 5,000, \$7. The rates were withdrawn and the former rate of \$12.50 on 50 to 100-pound lots was resumed.

Attorney I. L. Brown argued in behalf of the complainants, and read statements which gave the net earnings of the express company in the last 15 years, over Southern Pacific lines into San Francisco, at \$1,000,000. He said that the present contract between the express company and the Southern Pacific Company has 25 years to run, and that the express company pays the railroad 4 per cent of its gross earnings, \$150,000 in cash and 15,000 shares of the capital stock of the express company, or 35,000 shares, and that the stock is paying 10 per cent per annum in dividends.

Figures Show Big Profit. Counsel argued that these figures show the profitable nature of the express company's business under present rates and analyzed rates east of Chicago to show the difference.

C. W. Stockton, vice-president of the express company, and its general counsel in New York, answered for the corporation. He said that the rate of 1908 was established to give San Francisco merchants a chance to fill their stocks after the fire without delay.

"The complainant is now trying to force us to abandon the express business and to operate a fast freight service," he said. Briefs were offered in behalf of both sides and the case submitted.

Commissioner Lane stated that in his mind there was a question as to the commission's right to compel the express company to fix a new rate, and the body adjourned to meet in Reno, Nev.

PHOENIX MAKES HER PLEA Says Railroads Favor Coast Terminals at Her Expense.

SAN FRANCISCO, Oct. 20.—The Interstate Commerce Commission heard arguments today on the complaint of shippers at Phoenix, Ariz., against alleged discrimination by the railroads in favor of Pacific Coast terminal points.

Counsel for the Southern Pacific and Santa Fe railroads make the same tariff to Arizona points that is fixed for Los Angeles, though they are 300 miles nearer the originating points in the East. Speaking for the Santa Fe, Attorney Norton replied that Phoenix, not being on a main line and handling only a small freight business, could not expect to be in the same class with the Coast terminals. Phoenix, he said, compared unfavorably as regards railroad rates with Sacramento and Salt Lake.

He asserted that the rates on a number of important commodities to Phoenix are lower than the combined through rate to the Coast and the local rate back to that city. California jobbers, he said, could not profitably go into this territory.

HUNTER KILLS COMPANION

Blows Off Back of Head as He Fires at Flock of Ducks.

BELLINGHAM, Wash., Oct. 20.—(Special.)—With the back of the head taken off by a charge of bird shot fired by a 35-year-old hunter, Conner Fraser, this afternoon, the body of 15-year-old Robert Sims lies in a mahogany box on Sumas prairie, one and one-half miles east of Abbotsford, B. C., awaiting the arrival of the coroner.

The two boys left Sumas early this morning, armed with a shot gun apiece in quest of ducks. They traveled across the border line into British Columbia, and when they reached a bog near Abbotsford, young Fraser fired at a flock of ducks that rose close at hand. Sims was shot in the back of the head and was dead before his body struck the ground.

FRANK TO WRESTLE PLATT

Multnomah Club Goes Into Portland Contests on Reputation.

SAN FRANCISCO, Oct. 20.—(Special.)—In the Portland wrestling bouts that will take place Friday in Dreamland Club, Edgar Frank, of the Multnomah Club, is to wrestle Platt, an Oakland boy, at 125 pounds.

A majority of the wrestlers had to try out tonight, but the Portlander goes into the final on his reputation.

AFRICAN TROPHIES PERFECT

Roosevelt's Spoils of Hunt Arrive in Good Shape.

WASHINGTON, Oct. 20.—Every one of the skins in the collection of Roosevelt

trophies received here from Africa has been found to be in good condition by the taxidermists of the Smithsonian Institute. The first lot that arrived here two months ago was in an excellent state of preservation and the second consignment that came last week was just as thoroughly pickled.

Some of the trophies are declared to be among the most magnificent specimens that have come into the possession of the institution. With some of the skins came a complete set of bones upon which they will be mounted. In that way the mount will be extremely correct, as the skeleton is an aid to the taxidermist in giving the specimen a life-like appearance.

ROOSEVELT PARTY ALL WELL

Ex-President Escapes Attacks of Fever—Mt. Kenia Sealed.

NAIVASHA, British East Africa, Oct. 20.—Colonel Roosevelt, accompanied by R. J. Cunningham, the hunter and guide, arrived here today. All the members of the expedition are well. Edmund Heller, the zoologist, returned last night, having ascended Mount Kenia, to a height of 10,000 feet. Mr. Heller said that Major Edgar A. Mearns would continue the ascent, hoping to reach a height of 15,000 feet. Mount Kenia is an extinct volcano, rising 17,200 feet.

With the exception of Colonel Roosevelt, the members of the expedition have at one time or another experi-

WOMAN FIRES ON MEAT INSPECTORS

Mrs. Crane Denounces Federal Regulation of Packing-House Products.

OFFERS TO PROVE FARCE

Government Service Announcement Denounced—She Declares Work Influenced by American Packers' Association.

RICHMOND, Va., Oct. 20.—Direct charges of incompetency in the Federal

Department of Agriculture and of disregard of the rules by the Bureau of Animal Industry in the Federal inspection of meat were made by Mrs. Caroline Bartlett Crane, of Kalamazoo, Mich., in an address today before the American Public Health Association, in convention here.

Mrs. Crane openly attacked the department for misleading, as she said, the public into believing that the meat inspected by the Federal authorities was passed upon justly and with the best interests of the public at heart. She stated that the standards of health of animals slaughtered had decreased since the commission to inspect with the department for misleading, as she said, the public into believing that the meat inspected by the Federal authorities was passed upon justly and with the best interests of the public at heart.

One of her most startling charges, and which evoked a spirited denial from Dr. M. Dorset, of the bio-chemical department of the bureau, of Washington, was that the Department of Agriculture has caused to be issued, simultaneously with the annual rules and regulations, certain "service announcements," which it was stated were intended for inspectors and passers only. The inspectors, she said, were warned not to show or give their "service announcements" to any other person.

Replying to Dr. Dorset's refutation of this, Mrs. Crane offered to show photographs of papers of such pamphlets which she had taken from a pack of meat inspectors, which she declared the standards of meat inspection had been influenced by the efforts of the American Meat Packers' Association, which had sent a commission to confer with the Bureau of Animal Industry on the formulation of the regulations. She also attacked the competency of many of the Federal inspectors.

Politics must be eliminated as a factor in the appointment of municipal or state health officers if the best interests of the public welfare are to be protected.

SENATOR CHAMBERLAIN. R. L. Sabin. A. H. Devers.

fairly good progress in the work of reclaiming about 1200 acres of tide lands along the Columbia River, east of Clatskanie. The company's small dredge has been at work for several weeks, and the large one, which has been employed on the Cowitz River, is about ready to begin operations on the Lower Columbia.

While ducks sufficient to reclaim only a small tract have been completed, the base for quite a stretch has been thrown up by the small dredge and it will be finished by the larger machine. The tracts reclaimed will probably be utilized as dairy lands.

NICARAGUA MAY APPEAL

Southern Republic Will Ask Arbitration.

MEXICO CITY, Oct. 20.—Francisco Castro, Nicaraguan Minister to Mexico, declares that if it is true, as reports indicate, that other governments in Central America, notably Guatemala, are assisting in the revolution in Nicaragua, the case will be taken at once to the Central American court of arbitration at Cartago, Costa Rica.

Minister Castro intimates that his government already is taking steps in that direction.

All Central American countries are bound by the Washington treaty, of which the international court is the outgrowth, to respect the rights and territory of one another, the Minister de-

clares, and they are forbidden to aid in revolutions.

ZELAYA STILL HOLDS CORINTO

Nicaragua Wires That It Is Strong Enough to Crush Rebels.

WASHINGTON, Oct. 20.—A dispatch has been received at the State Department from Corinto, Nicaragua, that the city is still in the control of the Zelaya Government and that there has been no fighting there. The dispatch adds that every able-bodied native over 16 years of age is under arms.

The gunboat Motombo is at Corinto, but it is expected to sail at any time.

Minister Espinoza received a dispatch from his government, stating that it is strong enough to overthrow the revolution.

The question of mail communication between the United States and Eastern Nicaragua, which has been closed as ports of entry by the government, is giving the officials here some concern.

GEN. ELWELL S. OTIS DEAD

Man Who Subdued Philippine Revolt and Ruled Islands.

ROCHESTER, N. Y., Oct. 21.—General Elwell S. Otis, U. S. A., retired, died at 12:30 this morning at his home in the town of Gates, just outside this city. Heart trouble, with complications, chief of which was an affection of the kidneys, was the cause of death.

General Otis' wife, daughters, brother and sisters were with him at the end. The illness in which he died had been his own for many years.

In August, 1898, General Otis succeeded General Wesley Merritt as Military Governor of the Philippine Islands, and held the post until May, 1902. He was a member of the Regular Army in 1892. He was 71 years old.

He served through the Civil War, being brevetted Brigadier-General at its close, and was appointed Lieutenant Colonel in the Regular Army in 1892. He was 71 years old.

MEAT DEALERS ARE FINED

Seattle Judge Imposes Heavy Penalties for Use of "Freezium."

SEATTLE, Oct. 20.—Pines aggregating \$50,000 were assessed against meat dealers by Judge John B. Carroll, of the Justice Court, today, when the butchers were found guilty of using a preparation of sodium sulphite, known as "freezium," in doctoring tainted meat, in violation of the state pure-food laws.

With one exception the individual fines ranged from \$50 to \$100, the usual penalty being \$50 for each count. One dealer was fined only \$100, upon his proving that the drug had been used by his employees without his knowledge.

Nearly all the cases will be appealed to the higher courts. If the decision of the lower court is sustained, the State Pure Food Commissioner will carry the crusade into other cities in the state.

WARD POLITICS HARMFUL

Mayor Benn Would Have Councilmen Elected at Large.

ABERDEEN, Wash., Oct. 20.—(Special.)—According to the statement of Mayor N. S. Pratt, of Spokane, in favor of a commission plan of city government, Mayor E. B. Benn, of this city, has caused something of a sensation here by his emphatic endorsement of such a system.

"The election of many Councilmen from various districts of the city," he says, "provides too many opportunities for log rolling. Taxpayers should have a chance to vote for every member of a City Council rather than to be limited to a vote for a few representatives."

The Plummer Drug Company, at Third and Madison streets, is known as the least expensive and most satisfactory place in Portland to purchase hot water bottles, syringes and all the other things that are needed in a household. It is warranted for from one to two years, and they make good if there is any complaint.

THE BEST TONIC FOR WEAKNESS

Dr. Williams' Pink Pills Check Decline in Health and Build Up the Strength of Exhausted Sufferers.

There are few cases of general debility that have not been prevented. There is no hidden cause for its presence nor is it added in its attack. Any person, who is overworked, or subject to any great worry or excitement, or undergoes some long-continued strain on the body, is liable to become debilitated unless the blood is kept pure and rich. Such unusual conditions call for more nourishment than the blood can supply and pale ness, headaches, poor appetite, unrefreshing sleep, backaches, loss of spirits and a general tired-out feeling, which follows, are simply a call for a blood tonic and builder.

But sometimes what is mistaken for simple debility is a symptom of a more serious disorder, anæmia perhaps, or a breaking down of the nervous system. By taking a tonic that is a direct treatment of general debility lies in their direct response to the needs of the blood. Their work is to make new blood. That they do this well is shown by the gradual disappearance of the symptoms and the return of color and health. They lay the foundation for permanent health in the future.

LOST FLESH AND STRENGTH.

Dr. Williams' Pink Pills Cured This Santa Ana Woman.

Mrs. H. J. Bradford, of No. 1514 Sprague street, Santa Ana, Cal., says: "A few years ago I began to lose flesh rapidly until I weighed only about 100 pounds. Before this I had always been well and quite fleshy. I also became very nervous and would be awake all night long. I had frequent crying spells which I could not seem to help and which the least little thing would bring on. Excitement or noise made me very nervous. I had a craving for sour things but my appetite was variable. At times I would feel very well but this would be only when I kept very quiet at home for a long time."

"The doctor pronounced my troubling nervous debility. I was under his care for over two years. Sometimes he would treat me regularly and then he might not have to call in two months. I did not get well under his treatment and was finally advised to try Dr.
