information, however, came to the Mayor during a conference with the was on the later train that Chief and Captain Moore, of the first night relief, yesterday morning. That there is some gambling throughout the city the Mayor also assertained from these two police officials, and the Mayor was surprised. He at once ordered that absolute suppression of gambling in all forms, and Captain Moore will have this to handle. He told the Mayor that gambling can be stopped and kept closed, and the Mayor emphatically salt

closed, and the Mayor emphatically said that it must be closed. When the delegation from the Muni-cipal Association reached the City Hall, there were really but two subjects for discussion, as the Mayor in the moraling, had ordered the suppression of all gamb-ling, which greatly pleased the members of the Association. They were giad to learn that the Mayor had already acted to that regard.

of the Association. They work guts to learn that the Mayor had already acted in that regard. The first subject taken up at the in-terview was that of boxing exhibitions. The members of the Association said that they had worked hard to close up "prize-fighting," some six years ago, and that they were very sorry that con-ditions pointed to its reopening. The Mayor then told them that Councilman Watkins, who is interested in the boxing bout to be given next Thursday night, had assured him that there will be nothing whatever in the event to shock any one; that it is to be purely for ex-hibition purposes, and that no contest will be had, there being no decision. In such an event, the Mayor asked, would there be any objection? If was gener-ally agreed that there would not; he fact, it was pointed out, the law does not place a ban on guch a bout, but only on fights where there is betting and where there is a decision. where there is a decision.

a boxing contest or that he felt that, as many others like boxing, and as there is, according to assurances given him, to be no betting for anything in violation of the law in the scheduled bout it might be a good likes to ist it proceed. He offered to pick several first-class policemen to attend the affair to stop it if it should become too severe, but to this suggestion take well. They expressed some to To ploz several into stop it if it should become too severe, but to this suggestion the members of the Association did missinggestion take well. They expressed some doubt as to the wisdom of picking policemen as judges of what is moral and what is moral and what is otherwise, respecting a boxing exhibition. The Mayor then said he would go further, and let the Municipal Association select any man it may choose to attend the bout with power to skip it if it becomes too severe. This was the sail by agreed to by all concerned. Secretary Stone, of the Y. M. C. A., was suggested for referee, but declined, saying be would help find some one.
The social evil was then discussed and the Mayor expressed himself as desiring to regulate this most vigorous to growing to solve to grow the said that he had decided to chose up all disorderly houses all over the dity. and to give the women himselfs and, and that the administration with never again allow any of these establishents in Portland.

Considerable discussion arose as to the kind of posts to be installed, some of the members present holding that it was a matter outside the city's jurisdiction to attempt to adopt a uniform post. The general opinion, however, was that the city had as much right to do this as to require a uniform system of street im-provement in front of the respective prop-erties. The members of the association as a whole felt that the matter was safe in the hands of the City Engineer. The president was instructed to appoint a committee on the illumination question.
