DRYS AFTER OMAHA

White Ribboners Have Designs on Nebraska.

SPEAKER CANNON SCORED

W. C. T. U. President Thinks That Uncle Joe Blocked Liquor Legislation—Taft Is Praised for Stand on Temperance.

OMAHA, Oct. 22.—White ribboners ruled in Omaha today. Thousands of women, bedecked with the badge of purity, and bubbling over with denunciation of the demon rum, are here for the 38th annual convention of the Women's Christian Temperance Union. The women gathered in the Auditorium for the first session. The annual address of National President Stevens occupied the greater part of the morning session. Mrs. Stevens congratulated President Taft for his stand on temperance and approved the action of many corporations in placing the ban on employment of persons addicted to the liquor habit. Omaha was chosen as the convention city, Mrs. Stevens declared, with a view to starting a crusade in this state for state-wide prohibition. A review of victories was given, the work in Tennessee, Alabama, Florida, South Carolina, Indiana, Ohio, Nebraska and other states being mentioned. "It is conservatively estimated," the report stated, "that 80 per cent of the railways, 79 per cent of the manufacturers, 30 per cent of the trades and 70 per cent of agriculturists discriminate against a man who drinks." The report appealed to the various religious denominations to increase their zeal for the cause of prohibition. Mrs. Stevens charged Speaker Cannon with having prevented the passage of a bill designed to prevent interstate shipments of liquor into dry territory. The report strongly favored a Federal commission to investigate the liquor traffic but admitted that it is not so greatly needed now as it was 20 years ago. The annual reports of the corresponding secretary, Mrs. Frances P. Parks, of Illinois, and of the treasurer, Mrs. Elizabeth P. Hutchinson, of Illinois, were the features of the afternoon session. The report of the treasurer showed an expenditure of \$73,911 during the last year. In an address on "Temperance and Labor," Mrs. Mae E. Whitman, of California, superintendent of the department of temperance and labor, declared that the movement for the conservation of the natural resources fall to measure up to the movement for the conservation of the highest well being of the useful worker himself, to which this union is devoted.

Coast Architects Hold Election. SAN FRANCISCO, Oct. 22.—The Architectural League of the Pacific Coast closed its first annual session in this city today after the election of the following officers for the ensuing year:

President, A. F. Rosenheim, of Los Angeles; vice-president, E. F. Lawrence, Seattle; secretary, John F. Premeau, Los Angeles; treasurer, W. B. Wilcox, Seattle. The next annual meeting will be held in Los Angeles.

FAMISHED FAMILY LOST

Five Wander Desperately on Desert. Footprints Tell Story.

SAN BERNARDINO, Cal., Oct. 22.—Somewhere along the ancient trails of the Mojave desert a man and his wife and their three children are lying dead or in a dying condition. Who they are or what led them to attempt to cross the menacing desert is not known, but their trail has told a pitiful story and today searching parties are after them in a real race against death. The family was traced to within a comparatively short distance of the west side of the main irrigation canal, but whether they found the water or were guided further away through illusive canyons is not known. When the three horses refused to go farther over the sands and one fell dying, the man had unhitched the two remaining horses from the wagon, and, leading the staggering animals, had set out with his family across the rocky hills and parched plains. There was every evidence of extreme suffering to those who followed the trail. The family stopped for rest with ever-increasing frequency, and their uncertain trail showed that they must have been in very sore straits. All efforts to learn the identity of the family have proved futile.

IDAHO FINDS MORE GOLD

Pierce City Company Prepares to Install \$50,000 Quarts Mill.

PIERCE CITY, Idaho, Oct. 22.—(Special)—The Orem Mining Company has authorized the installation of a mill with a daily capacity of 120 tons for the Wild Rose property, where a 30-foot vein of rich free-milling ore was tapped last week at a depth of 537 feet. Preparations for installation of the mill will begin at once. The plant will cost about \$50,000 and be ready for operation early next year. The strike on the Wild Rose marks the greatest depth attained in any of the Central Idaho camps, and the greatest depth for free gold ore in the state. Miners from all sections are rushing into the Pierce district, and all property in the vicinity of the new strike is being frenzied. Mining men generally regard the Wild Rose strike as the most important development in the history of quartz mining in Central Idaho.

Oddfellows Select Sand Point.

GRANGEVILLE, Idaho, Oct. 22.—(Special)—The delegates who have been in attendance to the State Grand Lodge of the L. O. O. F., departed this morning by special train for their homes to meet at Sand Point next year. The selection of the next meeting place was vigorously contested by the delegates from the North and South sections of the state.

Grangeville to Lay Sewers.

GRANGEVILLE, Idaho, Oct. 22.—(Special)—The Council last night authorized the preparation of plans and specifications for a sewer system to cost approximately \$35,000. The action was taken after a report had been received from State Pure Food Commissioner Walls, who has been investigating the sanitary conditions of the city.

RACES WON'T MIX

Russian Opinion of Japanese Relations.

SAYS HOSTILITY INNATE

Race Antagonism of Americans Causes Friction, Which Government Strives to Remove, Says Official Paper.

ST. PETERSBURG, Oct. 22.—An article on the relations between Japan and America appears today in a semi-official newspaper, though in the same column it pointed out that the Russian government wholly disclaims responsibility therefor. The article speaks of the relations as strained and says that, while on the surface the reason for this situation appears to be a controversy over the question of open door to Manchuria, the real cause of the friction is the innate hostility of American people towards the Japanese. This hostility, the article says, is influenced somewhat by economic motives, but principally by the problem of inter-racial assimilation. The American Government, it adds, is far more friendly in its attitude toward Japan than are the American masses, and the Government is making every effort to settle the misunderstandings that constantly arise.

TWELVE DROWN IN LUZON

Americans Lose Lives in Philippine Typhoon—Property Loss Heavy.

MANILA, Oct. 22.—Incomplete reports show that 12 persons were drowned during the recent floods in Northern Luzon. The destruction of property was heavy. The floods in the vicinity of Dagupan, continue, the streets of the place being flooded as late as yesterday by five feet of water. WASHINGTON, Oct. 22.—Six lives, some of them Americans, are known to have been lost and probably many others perished in the recent typhoon which swept across the Island of Luzon in the Philippines, according to a telegram from Governor Forbes, received today. The typhoon crossed close to Baguio, the capital of the province of Benguet, and the rainfall which accompanied it, caused the sharpest rise in the Dued River ever known, inflicting great damage to the roads of the province.

NORTHERN PACIFIC GAINS

Net Income Shows Increase \$1,276,232 Over Last Year.

NEW YORK, Oct. 22.—The annual report of the Northern Pacific for the year ending June 30 last, was made public today and shows a total operating revenue of \$68,466,747, an increase

over the previous year of \$240,076. Operating expenses were \$38,020,040, a decrease of \$1,820,877. The net income for the year, after payment of interest, dividends, rentals, taxes and other charges, was \$7,534,859, an increase of \$1,276,232. Last year \$2,784,950 was appropriated for the insurance fund but no such appropriation was made this year.

SEEKS TRIPLE MURDERER

Kansas Officials Believe He Feared Recognition by Van Royens.

KANSAS CITY, Oct. 22.—A coroner's inquest over the bodies of Alonzo Van Royen, his wife and her sister, Miss Rosa McMahon, who were murdered on their farm five miles west of Kansas City, Kansas, Wednesday, was begun today. "The murderer is some one familiar with the premises and some one acquainted with the family, and not a tramp," said Prosecuting Attorney Joseph Taggart today. "From the nature of the wounds the murderer must have fired several shots into each body after it lay on the ground. This indicates to my mind that he was some one who feared he would be recognized." Patrick McMahon, a brother of the two murdered women, testified that there had been trouble for some time between the McMahon family and the Van Royens. The jury adjourned for one week without rendering a verdict.

AMERICAN PREDICTS QUAKE

Seismic Disturbances in Sicily Forecast by Scientist.

MESSINA, Oct. 22.—Yesterday's earthquake shocks felt in the vicinity of Mount Vesuvius, and have caused much alarm here. The fact that such seismic disturbances had been predicted by Frank A. Perret, the American scientist, formerly assistant director of the Royal Observatory on Mount Vesuvius, does not lessen the uneasiness. Mr. Perret was in this city during the last week of September, and at that time pointed out that September 29 would be a date
