# PLEASED AT WATER

All Mount Scott Is Satisfied With Contract Made With Woodmere Company.

MAYOR'S EFFORTS PREVAIL

Directly Through City's Executive Better Conditions Are Brought About, Affording Pure Supply at Cost Greatly Reduced.

People living in the Mount Scott district, where the Woodmere Water Company's system furnished the supply of water, are said to be fully satisfied with the conditions now existing, since Mayor the conditions now existing, supe algebras from and the members of the Water Board turned on the Buil Run service from the Mount Tabor Reservoir. They are getting more and better water at greatly reduced rates, and directly through the Mayor's efforts. That they are in far better circumstances now than formerly, when they had not enough wa-ter for bathing purposes and often not ter for bathing purposes and etten not sufficient for cooking, is attested by all concerned. That they are receiving this service for much lower rates is proved by the contract between the city and company, which is published herewith. So far as is known, J. D. M. Crockwell, who introduced before the Central Labor Council here. Follow might a resolution. Council last Friday might, a resolution calling for the recall of Mayor Simon for calling for the recall of Mayor Simon for his bart inasecuring improved water supply for the Mount Scott district, is the only person living in the district who is dissatisfied. And judging from the fact that Mr. Crockwell also condemned the Mayor for running an alleged "open town," it is said it may have been the alleged lax moral situation more than the water supply that troubled him and that moved him to cause the adoption of the resolution. This was also based on an erroneous supposition in that it declared George W. Brown, president of the Woodmere Water Company to be a member of Mayor Simon's Water Board, which is incorrect, as Mr. Brown is not; be is a correct, as Mr. Brown is not; he is a member of the Executive Board, having nothing to do with the Water Board.

### Situation Needed Relief.

All who regularly attend the sessions of the Water Board and who are well in the Water Hoard and who are well in-formed on the situation and the proceed-ings leading up to the agreement between the private company and the city, know that the conditions in the Mount Scott district prior to this time were almost unbearable. People there were suffering for lack of water supply, and came pleaddistrict prior to this time were almost unbearable. People there were suffering for lack of water supply, and came pleading to the Mayor and the members of the board for relief. It was finally decided the city must act, although the district had been a part of Portland for but a few months. Therefore a main was laid from the Mount Tahor reservoir to the Woodmere system, and relief given.

Mayor Simon personally investigated the rates charged by the Woodmere company,

rates charged by the Woodmers company, and decided they were too high. He personally requested President Brown to reduce them, which was done, as is shown in the contract which follows. This is the condition which now prevalls in the district, the Bull Run supply having been turned on last week, and, so far as is known, every one save Mr. Crockwell is satisfied. He wanted to recall the Mayor, as set forth in the resolution, both because of the alieged fact that the Mayor had "stood in" to rob the people of the Mount Scott district and had conducted rates charged by the Woodmere company, Mount Scott district and had conducted

e "wide open" town. E "wide open" town.

Following is the contract between the city and the Woodmere Water Company, which was signed by President Brown for the company and by Mayor Simon, Superintendent Dodge and City Attorney Kayanaush for the city.

agreement.

In consideration of the premises, the party of the first part hereby agrees to take and purchase monthly, from the party of the second part, at meter rates, quantities of water, which when added to the quantity supplied from said well, will afford an adequate water supply for household purposes to the consumers in said district at all times, provided that the price paid the party of the second part, as above stated, shall not amount to less than 6 per cent per annum on the cost of said main to be laid by the party of the second part, as above stated, with water through their own service pipes from said main. And the party of the first part sgrees to adopt and oberge the following rates for the use of water by its consumers in dwellings, to wit:

Rutes Chargod Consumers.

Rates Charged Consumers.

For family of six persons or less, mini-mum rate for ordinary use of water for drinking or in cooking or washing, 75 cents par month: for each person exceeding six. 10 cents; for each individual bathtub, 25 cents; for each additional bathtub, 25 cents; for each addi-tional water closet, 25 cents; for each addi-tional water closet, 25 cents; for urinal, 25 cents; for steam heat or hot water heater, \$1 to \$4.

ed part may annul and rescind this agree-ont at any time and may discontinue the pply of water to the party of the first ort at its pleasure.

"TAG-DAY" PLANS MADE

Headquarters for Next Saturday's Work Are in Beck Building.

The directors of the Baby Home are receiving encouragement far beyond expectation in their preparations for "Tag day" which is Saturday, October 30. The owners of the Beck building, on the corner of Seventh and Oak streets, gave the free of Seventh and Oak streets, gave the free use of a vacant storeroom, facing on Seventh street, and this will be headquarters. The room is furnished with tables, chairs, telephones and a rolltop desk, a gift from the Powers Furniture Company.

The directors are desirous of making this day a greater success than last year in co-operation with their president. Mrs. D. C. Burns. Gresham, Troutdale, Pairview and Hillsboro have volunteered to

# AILING MEN

**Quickly and Permanently Cured** 

You need not pay any doctor an exorbitant or fancy price for treatment when I offer you a thorough and permanent CURE for a moderate fee.

I have a quick and absolutely certain system of treating the cases I undertake which positively insures the cure in less than half the time called for by methods used in ordinary practice.

## Contracted Ailments

Every contracted ailment I treat is thoroughly cured. My patients have no relapses. When I pronounce a case cured there is not a particle of infection or inflammation remaining, and there is not the slightest danger that the ailments will return. No contracted ailment

is so trivial as to warrant uncertain methods of treatment, and I especially solicit those cases that other doctors have been unable to cure. VARICOSE VEINS-I use neither knife, ligatures nor caustic in

my treatment for Varicose Veins. I positively cure this ailment in one week by an absolutely painless method and without detaining the patient from business. OBSTRUCTION-My method of curing obstruction is new and en-

tirely original. No cutting or dilating. The obstruction is dissolved and entirely removed and all affected membranes thoroughly cleansed.

CONSULTATION AND ADVICE FREE-Come and have a private talk with me concerning your ailment. Even if you are not prepared to undergo treatment at this time, I can always give helpful suggestions to men who are ailing. If you cannot come to Portland, write for particulars of my system of home treatment.

great deal about many things, as in knowing all about a few things. When a doctor graduates from a medical college it is after the vari-ous professors have tried to impart their knowledge to him, and it takes about 12 or 15 professors in the various lines of study four years to qualify a student for the practice of medicine and them. medicine, and then he is simply li-censed—not qualified.

Does any sane man expect a medical student to so forth from a col-lege as thorough in knowledge in each branch as the individual professor who finds it necessary to de-vote his entire time to a single subject, such as anatomy or chemistry, and who is then far from perfect? It is a poor rule that won't work both ways—if one professor is not competent to teach a student all about anatomy, chemistry, physiology, histology, obstetrics, surgery, pathology, bacteriology and the many other branches too numerous to mention, that he is expected to be thorough in, how can the raw recruit of a medical student be expected to retain what the com-bined efforts of 12 to 15 men have tried to crowd into him? It never has been done and never will be. The doctor who is successful is the doctor who specializes in some particular line. He does not have to be a hypocrite about advertising, and devotes all his time to his special line of work, and is therefore generally a man proficient enough to have something worth advertising and willing to pay the market price, instead of sponging in a hundred different ways.

Not a Dollar Need Be Paid Until Cured

I don't mean, however, that every doctor who advertises is all right any more than every doctor who doesn't advertise. There are good and bad on both sides of the fence.

My offices have been established 31 years, are incorporated under ate laws and furnish the best bank and personal references. I cure Varieose Veius, Blood and Skin Anilments, Kidney and Bladder Ailments, Ulcers, Sores, Painful Swelling, Burning, Itching and Inflammation, Nervousness and all Special and Delicate Aliments of
