# MAYOR STANDS BY PACT ON BOXING

**Municipal Association Changes** Front, but Simon Will Permit Bouts.

### POLICE TO ENFORCE LAW

Executive Also Declines to Change Policy in Regard to Social Evil, Although Plea Is Made, for District Plan.

Mayor Simon yesterday afternoon mad the unequivocal declaration that, while he is chief executive of Portland ther will be no restricted district for faller women, and that his policy along these lines, announced in The Oregonian Last week, will stand. Chief of Police Cox has emphatic instructions to carry of the order, closing all disorderly house

and vigorously regulating the social evil. The Mayor will also stand by the agreement entered into hast week with the Manicipal Association, that boxing exhibitions shall be permitted, so long as the law is not transgressed, and h was surprised yesterday when he received from President Pattullo a letter saying the organization had reconsidered its action in accepting the authority to referee tonight's bout.

"I am not a vacillating man," said the Mayor. "I first decide thinga as I thor-oughly balleve to be right, everything considered, and I will fulfill my promises and execute the laws. The law plainly states there shall be no disorderly houses in Portland, and there will be none, while I am Mayor. On the other hand, the law contemplantes boxing exhibitions, for it specifies that a license for the same must first be obtained before an exhibition may be held. Now, if the exhibition that to the promises made to me, it will be allowed to proceed, but if it develops allowed to proceed, but if it develops into anything else, and violates the law, the police will stop it forthwith. Fur-thermore, if the premoters want to hold any more such exhibitions, they must understand that their fate is in their own hands; if the police should have to stop this hout. I will allow no more bouts at all; if the bout is all right, and others are wanted, they will be allowed under the same rules." the same rules."

#### Pattullo's Little Surprise.

Mayor Simon was greatly surprised when he returned to his office yesterday afternoon and found on his desk two letters, signed by D. A. Pattullo, presi-dent of the Municipal Association. One was written at the order of the organimation, stating that, after consideration, it had been decided the association would not have present any referee at to-night's boxing exhibition, and asked that all these exhibitions be stopped. The other letter was briefer, and said that, at the bout Tuesday night, one of the boxers was "knocked out." as he had been

During the afternoon, Mayor Simo telephoned to President Pattullo, inquir-ing why the organization had changed front, and urging that the agreement be kept. Mr. Pattulio replied to the effect that the Mayor, as the executive officer of the city, is responsible, and that the association, while it will have some one present to see what transpires, does not want to shoulder the responsibility of stopping or not stopping the bout. The Mayor said that, in his opinion, the assoclation has an opportunity to show its fairness by taking authority to stop the exhibition, should it become too rough, or to let it proceed if it is proper. Mr. Pattulio finally said he would take up

One was young and good looking. The other was some distance past the "broiler" period, and would have been among the "also rans" at a beauty con-test. With a very supercillous head-to-foot glance at the young nurse, the other oranged beautilities with opened hostilities with: "What are you doing now?" "Nursing, of course," retorted the young hely opposite, "Hadn't you noticed "Oh, yes

on, yes, said the other, but you dia not graduate, did you?" "No. I did not graduate," said the younger, coloring slightly, "but I am nursing just the same, and I am now on my second case for Dr. X (a very prom-iment physician), and I have had splen-did success."

The aggressor failed to heed a com-bative gleam in the eye of the nurse who had failed to graduate, so she came back

with: "Why, I did not know that Dr. X ever gave cases to any but graduate nurses." The thrust brought a rising color for a moment, but it soon vanished and sum-moning a sweet smile, the young lady Pe-

There didn't seem to be anything more to be said on the subject and there was silence within the car as it rattled on for a few blocks and then stopped on a signal from the "graduate" nurse. She neglected to bid farewell to the non-graduate, but the latter smiled sweetly as she sang out: "Gooy-bye, dearie, I am so glad I met you again." But "dearie" said nothing, and, with a triumphant grin, the non-graduate turned to a companion and said:

Miss Frances C. Gage, the executive secretary of the Young Women's Christian Association work for the Northwest. has expressed herself as a strong supporter of the "Know Your City" ment undertaken by the Civic Institute which Miss Anna Louise Strong is organ izing for November 8-18 at the Y. "The 'Know Your City' Institute," said Miss Gage. 'Is of very great interest to me because I find in going from city to city in the Northwest that oftentimes the people who talk the most about unfortunate conditions and the way to improve them know the least about things 4xactly as they are. Not long ago I was in a city making an investigation preparatory to organizing a Young Women's. Christian Association. I wanted to find out before I began to talk about it where the bars were their standards. Dorsey B. Smith, general manager of the Open River Transportation Company, left last night for Cellio. He will pro-ceed from there to Lewiston by boat, inspecting the various conditions at river points. Mr. Smith announces that the steamer Twin Cities will be taken off the Lewiston run early in November and, until the freeze up, will operate between Celilo and Kennewick only. The water in the Snake is low at present and boats have a hard trip up stream.

#### Marine Notes.

The steamship Hornet, from San Francisco, arrived up last night.

The British bark Jordanhill is loading umber for the United Kingdom at the Portland Mills.

The steamship Eureka, from Eureka and Coos Bay ports, is due to arrive this morning.

The oil tank steamship Santa Rita is discharging fuel oil at the Union tanks at Portsmouth.

From Portland with a full cargo of lumber, the steam schooner Olympic has arrived at San Pedro. From Portland with wheat, the French

bark Berengere, has reported out at Det-goa Bay, South Africa. With passengers and freight for Coos

ports, the steamship Breakwater sailed last night at 8 o'clock.

#### **Consult Me First**

Even though your case may be one that some other doctor is able to cure and though his cure be absolutely thorough and perma-nent, there is yet good cause for your com-ling to me for treatment. The service I ren-drary. I have devised new and scientific methods of treating men's aliments in all their phases. I cure cases that others can out cure, and cases that others can cure I cure in less time and without pain or pos-sibility of injury. All my forms of treat-ment have been perfected along the lines of nature's requirements and are in exact harmony with the natural recuperative forces. Therefore, my cures are painless, prompt and thorough.

#### **Contracted Ailments**

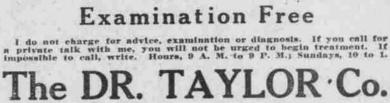

Contracted Animents The serious results that may follow neg-lect of contracted aliments could scarcely be exaggerated. Safety demands an abso-lutely thorough cure in the least possible time. I have treated more cases of these disorders than any other physician upon the Pacific Coast. My cures are thorough and are accomplished in less time than other forms of treatment require in producing even doubting results. I employ remedies of my own devising and my treatment is equally effective in both recent and chronic cases.

#### I Treat Men Only

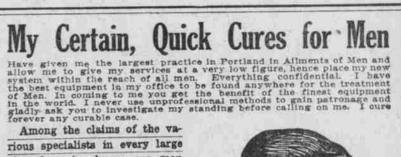

I Ireat Men Only The vast multitude of men who have taken my treatment have not been disappointed. Thoy know that I do not promise more than I perform. To them I have actually illus-trated in the cure of their own cases the truth of what I claim, namely that my treat-ment is as certain to cure as it is that my patient engages my services and follows my directions. My success is due not alone to education, experience, skill and scientific equipment, but to the fact that I limit my study and practice strictly to aliments of men. To male maladies alone I have earnest-ly and exclusively devoted 25 years of my life, and on them all my faculties are con-centrated centrated.

rious specialists in every large city there is always one man who, on account of his years of experience and success, stands head and shoulders above all the rest. There cannot be two best specialists-all of them may be good, but only one of them can be best, and I apprehend there can be no controversy over this point in Portland. My office has been established 27 years, longer than any other, and is indorsed, not only by leading business men, but by a generation of cured and satisfied patients.

Every one that is accepted for treatment here at my ins receives my own personal and individual attention, and, you may have the positive assurance that you will be skillfully and honorably served by one whose conscience dictates a policy of justice to all. Instructions Given to Chief.

Mayor Simon then called up Chief of Police Cox and instructed him to pre-ceed as before agreed; to have ample po-lice force at the bout to see that it is properly conducted, and to stop it if it at any point violates the law. The Mayor still holds out to the Municipal Association, however, the offer of authority to be the judge as to whether the bout shall proceed.

Through Dr. Benjamin Young, pastor of the First Methodist Episcopal Church, a meeting has been arranged between Mayor Simon and Charles N. Crittenton, the philanthropist of world-wide fame, for this morning at 10 o'clock. Mr. Crit-tenton's public declaration that Mayor Simon's policy of closing the houses of Simon a policy of cosing the nouses of ill repute is the wrong step has created much agitation. In view of this numer-ous men yesterday called upon the Mayor, endeavoring to persuade him to allow the City Council to aet asside a district, into which the fallen women may be quartered, as a means of solving the vexatious problem of the social evil.

Among those deeply interested in the restricted district plan are Councilmen Lombard, Watkins and Concannon, comprising the Council committee on health and police. They have proposed to the and police. They have proposed to the Mayor that he sanction a district where the disorderly women may be placed, saying they agree with Mr. Crittenton that such a district is petter than closing the houses and vigorously regulating the evil, as ordered by the Mayor. The fact that a prominent slum worker had openely advocated such a district was urged as a reason why the Mayor should ind his order of last week, but the Mayor, after listening to all arguments,

#### Open Vice Thought Mistake.

"I am convinced that open vice in Portland is a mistake, and the wrong policy, and I will not consent to any scheme having for its object the herding of these unfortunate women into a dis-trict. I will demand strict compliance by the police of the order issued last mark that these establishments close week, that these establishments close and the women leave the city, or reform. I will rigidly enforce the law. I state this, however, having the most earnest regard for Mr. Crittenton's views, for he indoubtedly is entitled to serious con undoubtedly is entitled to serious con-sideration, having made a long study of the problem. But he is not in a posi-tion where, as Mayor, he is sworn to enforce the law, which prohibits these

houses. The Municipal Association also sent brief letters to Sheriff Stevens and Dis-trict Attorney Cameron, calling their at-tention to the code concerning "prize-fighting." It is the avowed belief of the members of the organization that, not-withstanding the declaration of the pro-moters of these bouts to the contrary. they are in reality fights.

"The employment agencies also espe-cially interest me, for a year or two ago in connection with my hopfield camp, I had occasion to employ men through the Portland agencies. I am sure the people of Portland will be intensely interesting interest. In making application in many of the em-ployment agencies men are obliged to register in saloons. "I was very much interested in Miss

register in saloons. "I was very much interested in Miss Strong's work in Seattle from another standpoint. In organizing an association one of the first considerations of impor-tance is to find women who know condi-tions sufficiently well to act with intelli-gence on a board of directors. The Young Women's Christian Association is never an arginistics body, but comes into gence on a board of directors. The Young Women's Christian Association is never an originating body, but comes into a city or institution of learning to fur-nish to young women what they need along lines which are not otherwise well provided for. I believe the efficiency of the association will be very greatly en-hanced in Seattle and Portland by the attendance of women who are of influ-ence in it at the institute sessions." Miss Mary B. Day, the general secre-tary of the Portland Young Women's Christian Association, is also heartly in favor of the sessions of the Civic In-silitute, as planned by Miss Strong. "I am very glad." asid Miss Day, "that we are to have a 'Know Your City' Institute, for it is almost impossible for busy peo-ple to keep up with Portland's growth in any other way, and there is no ques-tion that the more intelligent we become on our common interests and ideals, the In a disease so painful as Rheumatism, medicines containing opiates and nerve-quieting drugs are often used. Such treatment is dangerous not only because it frequently causes the sufferer to become addicted to the only because it frequently causes the sufferer to become addicted to the drug habit, but medicines of this nature are always injurious to the system. Rheumatism is a disease of the blood, and its cure depends entirely upon a thorough purification of the circulation. As long as the blood remains saturated with uric acid, an inflammatory condition of the nerves, muscles and tendons of the body will exist, and the pains, aches, soreness, and hot, feverish flesh of Rheumatism will continue.
