

BARLEY GIVES EAST First Shipment Is Made From This Section.

LOCAL MARKET STRONG Eastern Demand for Wheat Revives and Some Business Is Being Worked—Buyers Offer Better Prices Than Before.

Grain men who expected the recent report that there was inquiry from the East for North Pacific Coast barley, will have to revise their views for the inquiry has developed into actual business and some shipments have already been made.

Weekly foreign wheat shipments were reported to have been made for the first time since the Eastern cash market began to improve a few days ago.

It is not likely the English hop buyers can much longer delay their appearance in the Oregon market.

The following cable was received yesterday by Klaber, Wolf & Netter from their London office:

"English crop four-fifths sold. Market has improving tendency. Holders making higher prices."

New York advices are that only 5000 to 10,000 bales remain unsold in that state.

Market Is Broad and Active and Prices Advance Throughout the List—Steel Leads in the Trading.

BORROWING IN LONDON

NEW YORK, Oct. 29.—Today saw a considerable revival of speculative interest in stocks.

The market was buoyant at the beginning of the week, and the conditions would further relax with the passing of the November 1 money settlements.

The resumption of American borrowing in London marks a defeat for the expressed policy of the Bank of England.

The week's currency movement has been against the New York banks.

The maintenance of the Federal reserve bank's policy is independent.

The stock market proved broad and active and a comprehensive advance in prices was effected.

The covering operation of a substantial short interest were given credit for a good part of the day's buying.

The closing stock quotations.

NOT LONG LABORED Rapid Growth of Industry Overtakes the Supply.

MILLS RUNNING OVERTIME

Business Situation Satisfactory in Every Line—Early Reports of Holiday Trade Are Good.

NEW YORK, Oct. 29.—Bradstreet's tomorrow will say:

Trade as a whole is good. Industry in turn responds with advice of full manufacturers' order books.

While mild weather has tended to retard retail trade in some sections of the North-west, the general report is that the advance of the season and the marketing of the year's crops is bringing out a large volume of trade in country districts.
