MODJESKI IS CONFIRMED

LEAVES FOR CHICAGO TO BEGIN BROADWAY BRIDGE PLANS.

Mayor Simon Says Work Will Be Rushed-Friendly Suit Started to Contest Bonds' Legality.

Ralph Modjeski was confirmed as consulting engineer in charge of the construction of the Broadway high bridge, when the City Executive Board met yesterday afternoon. Mayor Simon, who had tentatively engaged the noted bridge man for the position, stated the facts to members of the board, saying he had given the subject great consideration, and had decided to recommend Mr. Mod-sentative of the Hotel Savoy, of S jeski. Upon motion of George W. Brown, chairman of the bridge committee, the omination was confirmed

Mr. Modjeski left Portland for Chica-go last night, and before leaving, paid a risit to Mayor Simon at the City Hall. He told the Mayor that upon reaching his headquarters in Chicago, he will send a force of men to Portland to take charge of the preliminary work, get soundings in the river and attend to all necessary matters preparatory to filing plans and specifications for the structure. It is to be of the bascule type, and will cost approximately \$1,250,000.
"The construction of the Broadway

bridge will be rapidly pushed," said Mayor Simon, after his conference with Mr. Modjeski. "There is to be no delay on the part of the city or the consulting engineer, and everything that can be done to complete the bridge in quick time will be done."

Attorney H. H. Riddell filed suit in Circult Court yesterday for the Northeast Side Improvement Association against the city to test the legality of the Broadway bridge bonds, sale of which has been ordered. The suit is a friendly one. Attorney Ralph R. Duniway said last night he is preparing a suit to be brought in the name of Frank Klernan against the city to fight the bond issue, and have it declared illegal. But if filed, his suit will not partake of the friendly nature of

PRESENT SYSTEM IS TO BE READJUSTED.

Sections Now Bark Will Be Given More Arcs and Others Will Lose Some Lamps.

The entire lighting system of Portland is to be readjusted by the lighting committee of the City Executive Board, assisted by City Engineer Morris. This was decided yesterday afternoon at the deal can be accomplished along this line by the committee.

There is an unfair or unequal distriution of arc lamps, all over the city, ac cording to the developments. tions have many lights, while others have virtually none, and it is regarded as certain that there must be readjustment. No more arc lights will be ordered by the Executive Board until the committee, assisted by Engineer Morris, ac-complishes the object for which it was appointed. The lighting fund is sufflcient to warrant granting of all petitions for these lamps throughout the city, and

for these lamps throughout the city, and grest care must be exercised, in order that all sections are treated fairly.

The board took up the matter of the proposed franchise on East Third street, desired by the O. R. & N. Company, at the request of Thomas Hislop. He asked that the valuation be fixed at not more than \$100 a year and upon motion of than \$100 a year and, upon motion of Chairman Smith, of the franchise committee, that valuation was fixed. The Council, and will probably be ordered advertised by the City Council at its

The franchise has created much discussion throughout the East Side, as there are some who oppose it, on the ground that it is more or less of a nuisance, creating, as it does, an additional track which the Morrison-street cars must cross. It extends from East Burn-side street down East Third to Haw-thorne avenue. The franchise contains a common-user clause, and therefore may be used by any commercial railroad. The large interests operating in the district are strongly in favor of the franchise passing at an early date.

Demonstration Train Returns.

Ending a journey of four days, which extended over the three branch lines of the O. R. & N. in Morrow, Gilliam and Sherman Counties, the seventh demonstra-tion train of the railroad company re-turned to Portland last evening. The final

The addresses at Wasco were by Dr. Withy-place. combe, who talked on general farming subjects, devoting particular attention to stockraising; Professor Scudder, who ex-plained the principles of dry-farming; Professor Cole, who talked on fruitgrowing, and Professor Dryden, who spoke or

WILL BLAZE TRAIL AGAIN Mr. and Mrs. J. D. Chapman to Take

Up Homestead in Old Age.

Mr. and Mrs. J. D. Chapman, pioneer

residents of Sellwood, left Tuesday for their homestead, which is 30 miles west of Salem, where they will spend the next regular meeting of the board, when Chairman Sichel, of the committee, made the motion. The clamor for electric lights has become so great that something must be done to remedy existing conditions, and it is believed that a great last ten miles is through an almost unbroken wilderness. On the homestead there are 6,000,000 feet of timber. Mr. Chapman is a veteran of the Civil War and Uncle Sam has made it a little easier for the old soldiers to secure title to a homestead than the ordinary individual. Just prior to their departure for their homestead Mr. and Mrs. Chapman were surprised by 40 members of the A. J. Smith G. A. R. Post and Blackmar Circle, Ladies of the G. A. R., who bade them God-speed to their wilderness home. Remarks were made by Comrades Adams.

Miller, Pratt and others, telling Mr. and
Mrs. Chapman how much they will be

SMITH'S CHICKENS and

EASTERN TROUT SECURED Half Million Wisconsin Fish to Stock

Washington Streams.

VANCOUVER, Wash, Oct. 29.—(Special.)—J. M. Crawford, general superintendent of state fish batcheries, arrived today from the trout hatchery on Bas-ket Creek, where he had been on a trip of inspection. He stated that he found everything in excellent shape for the reception of 550,000 eastern brook trout, which have been shipped, and which are expected to arrive within a very short time, from Wisconsin.

After this consignment arrives, it is
the plan of the state fish commissioner always to have trout being hatched and ready for distribution from the plant in Clark County. Trout will be distributed from the only trout hatchery west of the Cascade Mountains in Clark County, to the streams in Ska-mania, Klickitat, Cowlitz, Chehalis and Pierce Counties.

Sheriff Seeks Forger.

MONTESANO, Wash., Oct. 29 .- (Special.)—A man who signed himself G. E. Smith passed a forged check for \$94.60 on the Oakville State Bank, at Oakville, day included a stop of three hours at a few days ago, and now the Sheriff is
