PELLAGRA GAINING

New Disease Declared to Be More Serious Than Hookworm.

COUNTRY IS THREATENED

Doctors Fear National Scourge. Physicians Think Rockefeller's \$1,000,000 Could Be Used to a Better Advantage.

COLUMBIA, S. C., Nov. 3.—"While we regard Mr. Rocketeller's princely gift for the sradication of the bookworm at its true value, we say \$1,000,000 for the battle against the disease of pellagra would be far more valuable."

Thus spoke E. J. Waison, South Carolina's Commissioner of Agriculture, in addressing the National Conference on Pellagra, which opened here today.

'Dr. George C. Zeller, superintendent of the State Hospital for the Insane, Peoria, III., believed the country is threatened with a National scourge. The discovery of pellagra in the Peoria Hospital was made August last, since which time numerous cases have been diagnosed as pellagra, many of the patients having died.

Pollagra as a National health problem ras the subject of an address delivered y Assistant Surgeon General Kerr of the Inited States Public Health and Marine

Hospital Service.

"The problem of pellagra in Europe and in the new world is in some respects analogous to beri beri in the Orient," said Dr. Kerr. "Both diseases are held to be associated with the consumption of important articles of diet, but are capable of becoming vertiable scourges among the people where they become epidemic."

SCHOOL HELD UNSANITARY

Rose City Park Association Complains of Conditions.

At a meeting of the Rose City Park Improvement Association held last night, which was one of the best attended in the history of the organization, strong resolutions were passed condemning the Board of Education for delay in executing a schoolhouse for the district. It was brought out that work had been started to relieve the congestion in the district and that the contractors were delaying the completion of the building.

It was said that in the meantime 50 children are crowded in where there should be but is, that at desks for one pupil three are seated, and that in the small temporary building, 12x14 feet in size, there are two teachers. The conditions are described as unsanitary and dangerous, made more so by a leaky roof during the recent hard rains.

At the same meeting a strong protest was made by the taxpayers over the delay in getting electric lights on the Sandy

Complete returns on balloting in Aldermanic districts show that Tammany lost four also in that body, and that the Democratic majority was cut down from 21 to a majority by a single vote. In addition, several nominally Democratic votes from Brooklyn districts are the product of a fusion between Democratic and Hearst-Independent forces and hardly are to be depended upon to support their Democratic colleagues in all instances.

Trins Shouts Victory.

William M. Ivins, who launched the Hearst boom late in the campaign, offered his congratulations to the fusion

"It is the greatest victory for reform. New York has ever seen," said Ivins. Complete returns on the vote for Mayor show the following: Gaynor, 25,858; Bannard, 177,662; Hearst, 18,848; Gaynor's plurality, 73,056.

With the exception of Mayor, the Fusion sweep was complete. Not another Democratic randidate on city or county tickets won success. The fusion forces elected their candidates for the presidencies of all five boroughs.

On the county ticket the Fusionists elected their candidates for District Attorney, Sheriff, County Clerk, Registrar and City Court Judge, which, with their other victories, will place nearly every hit of patronage in the greater city in their hands.

The strength of the Fusion cause in New York County was indicated by the olurality of 22,000 votes which Charles S. whitman, the Fusion nominee for District Attorney, received over Géorge Gordon Battle, the Democratic candidate. John Shea, Fusion, this elected for Sheriff by a plurality approximately of 37.00. The Democratic candidate for the City Court bench, George F. Rossch, was snowed under by 21.00 votes by his Fusionist opponent, Richard H. Smith. From greener, indications the State Assembly will have a Republican majority of 3, a Democratic gain of five. Women played a picturesque part in the election. One faction of the suffrageties conducted a mock polling booth in Harlem, where all women were permitted to vote, and where the Socialist candidate for Mayor polled an overwhelming majority. In two of the polling places on the lower East Side women served as watchers for Prohibition candidates. They were treated courteously and accorded all the privileges of men watchers.

After Making Confession and Retracting, Alva Coan Writes Description of Crime Commitscription of Crime Committed Two Years Ago.

CLEVELAND, O., Nov. 3.-The police were puzzled tonight by a new confes sion from Alva Coan, 17 years old, that he murdered little Alexander Hoenig two years ago. The boy first confessed to the murder Monday. That night he retracted when the police accused him of fabricating the story. Today he wrote a lengthy description of the crime and a lengthy description of the crime and gave it to Night Judge Adams.

He enticed the child, he said, into an alley in the rear of a butcher shop.

"I asked him if he had any money," wrote Coan. "He said "No." Then I stooped down, picked up a handful of shavings and rubbed them over his face. I let him drop to the floor and walked out. When I say hack, I saw him lyout. When I got back, I saw him lying there and I got scared. I felt his heart. It was not beating. I picked him up, threw him in the barrel head first. Then I climbed over fences till I was three doors from there.

The Hoenig child, the doctors say, was cheked to death with sawdust and shavings.
