and foreign wheat markets in the past two of the market here. It has had the effect of frightening, to a certain extent the buy-ers and they are not disposed now to offer are not affected by the change and none of them is willing to make concessions. Another thing that is holding the price up is the character of the present buying-which is being done by interior millers, who have sold flour to go East and have to

not yet been settled and evidently is not ent notwithstanding the re-Puget Sound Flouring Mill Company, at Taare still selling flour at cut prices. When the mills up there finally settle their trouble and get together, it is probable there will be an advance in prices over the original basis, both on the Sound and at Portland.

Oats and barley held quite firm yester. day. Some business in oats on the basis of \$29 was reported.

## Conditions Unchanged in California, Where Growers Are Firm. The only transaction reported in the local

hop market yesterday was the sale of about a carload of primes at 24 cents. A letter from W. M. Righardson, of Santa

There has been no perceptible change in this market since my last report. There has been very little inquiry the past week. Have heard there have been a few offers on the best lots of Senomas at 25c, but growers receiving these offers would not sell. With firm offer here today, I am confident I could buy some very good lots in this county at 25c. Have been offered some American Rivers at 22c.

"A few growers seem to be willing to make term contracts. They are asking Se for a term of three years, but with a irm offer could probably do some business at a little less than this figure. Some one ounty of late at 17c."

Leading Industrial and Railroad Issues Heavy-Reports From Foreign Money Markets Not Reassuring.

NEW YORK, Nex. 4—Today's stock market was a two-sided affair in that some stocks were weak and some were strong. The great body of securities, however, was inert and the price movement was listless. Points of strength were scattered widely through a miscellaneous list of specialities, some of them decidedly obscure. Railroad stocks generally and some of the high-priced industrials were inclined to be heavy. This was true of United States Steel in the carry part of the day, as well as of Amalgamnted Copper and the railroad squipment stocks.

gammied Copper and the railroad squipment stocks.

The operations that made stocks strong
from time to time were greatly concentrated
in their execution and apparently in their
origin. The fall of two points in New York
Central, following yesterday's news of a
new issue of stocks to the extent of 25 percent of the present volums, was in line
with similar action of Pennsylvania and
New York, New Haven & Hartford, when
additional stock issues were announced by
those companies.

The violent speculation in progress in

those companies.

The violent speculation in progress in the cotton morket and anxiety as to its outcome is accepted as an object lesson in conservative thancisi quarters.

There were fresh reports today of conditions in foreign money markets that are not an experienced. tions in foreign money markets that are not realsuring. It was reported that another advance in the official discount rate of the Imperial Bank of Germany had come into discussion again. The unchanged Bank of England rate made a cheerful impression on speculators, but the decline in condition of that institution, as well as of the Hank of France, indicated that the hoped-for recuperation at those points was not going on. Sterling exchange here declined sharpful.

Bonds were heavy. Total mice, par value \$4.652,000. United States 4s registered, de cifned is per cont on call.

GOOD QUALITY IN ALL LINES IN DEMAND.

Statistical Report of the Movement in the Past Month-Concerning Wagon Hogs. ,

For the month ending October 31, receipts at the Porfland Union Stockyards were as follows: Cattle, 6581; calves, 673; hogs, 9003; sheep, 9549; horses, 72. The fotal number of cars were 400. There were 1485 cattle which went to Sound points, and 278 calves, 423h hogs and 2777 sheep also went to packing-houses on the Sound. By boat, there were sent out 206 cattle, 585 hogs for the month was 205 pounds.

The market yesterday was in good trim. for quality stock in every line. The day's receipts were 9 cattle, 227 sheep and 429 hogs.

Sheep continued to show strength, as did lambs, with sales of the latter at \$5.35.

Cattle and hogs held their swn.
Shippers at the yards were W. G. Jenkius,
of Boiss, Idaho, with one car of hogs; Henry
Larkin, of Colfax, Wash., one car of hogs. J. S. Filint, of Juneston City, two cars of sheep and hogs; O. Locke, of Corvallis, one car of hogs, and J. N. McFadden, of Corval-lis, one car of cattle and hogs. In line with the suggestions made a few

days ago concerning wagon hogs, General Agent Lively calls attention to a little deal in pork, which shows what the profits are. Mr. Lively said yesterday:

Mr. Lively said 'jesterday'.

"A Portland restaurant on May 14 bought four pigs that averaged 47's pounds each, and on August 6, 8 hogs that weighed 101 pounds each. For the pigs they paid \$6 per hundred, and for the hogs \$7 per hundred. dres, making the cost for the 12 head \$70.10. They fed these hogs, in addition to the slope from the restaurants, \$4.32 worth of chops and bran. On October 29 they sold these 12 hogs, average 233 pounds, at \$7.75, and the profit on the transaction was \$146.30. Here is a trial balance showing

### MR. HENRY ON BRIDGES And More Present Argument Against Broadway Bridge.

PORTLAND, Nov. 4 - (To the Editor.) It appears now that Mr. Modjeski has succeeded in getting a contract from our succeeded in getting a contract from our city fathers, whereby he is to be paid another fat fee, \$50,000, for plans and specifications for a bridge at Broadway street. The taxpayers paid him \$5000 before to come out here and look at the river, and now they are to pay him \$50,000 for this work. Surely that is evidence enough to any thinking taxpayer that he was not in favor of anyone else build-

poses, and also a double track for its railroad purposes on the lower deck; and it is so well built that with a 20-foot lift span, it will enable all the ordinary river craft to go through without interfering with the passengers on the upper deck of the bridge, and the company is getting this enormous bridge built for less money than the Broadway bridge. Mr. Modjeski in his report Wednesday admitted as follows:

"A subterranean tube as a connecting link between the two sides of the river would be all right for cars operated by electric power or steam. An underground tube is a great factor in rapid transit. But to put a tube at Broadway for foot pussengers and freight, would be difficult on account of the high bank."

Now, the facts are that no one wanted a tube at Broadway. The taxpayers of the City of Portland need and will soon have to have a tube for streetcar purposes under the river in the middle of the city, so as to accommodate the fast meants account of the fast meants account of the fast mander accounted the river in the middle of the city, so as to accommodate the fast meants accounted the research accounted to the second of the city, so as to accommodate the fast meants accounted the

The city is growing so fast that it will need every particle of turning room in the backer, the term room ritius.

every particle of turning room in the harbor in the very near future.

The writer hereof feels certain that upon completion of the new Steel bridge to be erected by the railroad company, there will be no occasion for this vast expenditure of money at Broadway, and feels that Frank Klernan and those associated with him are rendering a great public service in bringing an injunction suit and restraining the erection of the Broadway bridge. While it is claimed that it was carried at an election the facts are that it was carried by a small percentage of the voters, and this was expected and relied upon by the boosters who counted upon the well-known and astounding apathy and indifference of our taxpayers whe grumblingly sit by and is demestic elevator; No. 2 red, \$1.20% it is arrive f. o. b. affeat; No. 1 North-Duluth, \$1.11% nominal f. o. b. affeat; hard Winter, \$1.15% nominal for hard Winter, \$1.15% no

this vast expenditure, is not bearing any of the burden himself.

It seems clear to the writer hereof that we must sconer or later have a tube under the river, and it behooves every taxpayer of the City of Portland to take interest in this matter and see that we are not led into greater and further bonded indebtedness without getting just value for the money expended. The writer believes, and has urged that at city elections entailing a bonded indebtedness upon the City of Portland only those persons should be entitled to vote at such an election who can show a tax receipt upon real estate in the City of at such an election who can show a tax receipt upon real estate in the City of Portland for the current year in which the election occurs. For the people who are to pay the bills are the ones to say for what their money is to be paid and how much of it, and not non-taxpaying bootters are homes.
