

# TAFT HAS DAY OF REST AT ATLANTA

### First Sunday on Road President Does Not Make Address to People.

## LOVING CUP PRESENTED

Trophy Is Engraved With Words: "Eighteen Holes, 88," Indicating His Record on Links of Augusta Country Club.

AUGUSTA, Ga., Nov. 7.—President Taft enjoyed a real rest today and will start for Washington tomorrow afternoon refreshed by two days of quiet. This was the first Sunday since he has been "on the road" that President Taft was not called upon for an address of some sort. The President arose late and attended morning services at the Church of the Good Shepherd, Episcopal. He lunched today at the home of Alexander Thomas with 25 residents of the city. During the luncheon the President was presented with a silver loving cup as a remembrance of his golf days on the course of the Augusta Country Club. The cup was inscribed "Eighteen Holes, 88," indicating the President's record on the links. After luncheon Mr. Taft had an automobile ride and returned to the home of Major Joseph B. Cumming, his host, for an afternoon tea arranged by Mrs. Cumming. The day ended with a dinner for 12 at the Cumming home. Tomorrow the President will spend the morning at golf and at 11 o'clock he will open the Georgia-Carolina fair, leaving at 2:30 P. M. for Florence, S. C.

## TAFT SENDS FOR TYRUS COBB

### President Hears He Is in Town and Wants to Have Chat.

AUGUSTA, Ga., Nov. 7.—President Taft and Tyrus Cobb of the Detroit baseball team, will have a chat at the Country Club at 11 o'clock Monday morning. When Mr. Taft heard today Tyrus Cobb was here he sent word to him that he would like to talk to him.

## FINNISH DOUMA IS BUSY

### Russian Government Plans Close Control of Country.

ST. PETERSBURG, Nov. 7.—Premier Stolypin has taken to the Emperor the resignation of General W. A. von Boeckmann, Governor-General of Finland, and M. Knipovitch, director of General von Boeckmann's Chancellery. There is little doubt that the resignations will be accepted and that the new officials will carry out the Government's policy of bringing Finland under close control. It is announced that General Markhoff, chief of the mobilization department of the Russian general staff, will be appointed vice-president of the Finnish Senate.

The Douma has finished the first reading of the Agrarian holdings bill, and has begun the discussion of the conditional sentences bill, which is based on the American system of suspended sentences. On 10th of November the session will open on the reform of local courts and immediately thereafter a bill on violation of person will be taken under consideration. The bill virtually re-establishes the judicial reform of Alexander III, which was suppressed in the reigns of subsequent monarchs. The highest salary for the Senate is \$50,000 yearly in salaries.

## IRON ORDERS DROP OFF

### Business, However, Is Well Ahead of Average Volume.

NEW YORK, Nov. 7.—There has been a sharp contraction in the volume of business transacted in pig iron since November 1, and yet the sales have been small, only a few hundred tons, breaking tonnage sold last month. There has been a fair run of small orders for foundry and forge grades, and one contract for about 15,000 tons for delivery over the next eight months by a railroad equipment shop. Finished steel products continue strong but fabricated steel is still irregular. The tendency of prices for both finished and semi-finished steel is upward. Contracts for rails, which came to the surface last week, aggregated about 35,000 tons, but the distribution of orders for between 30,000 and 20,000 tons are expected within a few days. Contracts for structural steel have aggregated between 17,000 and 15,000 tons. The prospect is for a heavy increase in business this month. The output of all kinds of pig iron in October was at the rate of about 30,000 tons annually. The production of steel ingots, as well as the pig iron, was record-breaking.

## SLAYER INVOLVES WOMAN

### Fred Fanning Adds Another Chapter to His Confession.

TOPEKA, Kan., Nov. 7.—Following a confession that he murdered Mrs. Mary Short, a Topeka woman, in the hope of gaining possession of her property, Fred Fanning today added another chapter to his confession and Mrs. Minnie English, a woman with whom Fanning was planning to go into the restaurant business, was arrested as an accomplice. Fanning's original confession was that he put rough on Mrs. Short's coffee. Today he declared that Mrs. English threatened to kill him if he did not kill Mrs. Short, that she told him how much rough on rats to administer and that he gave her \$1490 of Mrs. Short's money.

EMPEROR OF KOREA.

## COREA FIGHTS HARD

### Rebellion Against Japan Goes Steadily Forward.

## MUCH UNDERLYING HATRED

### Coreans See Nothing in Reforms Aimed At but Annexation of Their Country and Resent Bitterly Presence of Soldiers.

KOREA, Japan, Nov. 7.—(Special.)—Message news from Korea is to the effect that the uprising started by the natives as a protest against the occupation of the kingdom of Japan, while active in spots, in other places has quieted down through the efficient service of the Japanese soldiers. This is taken here to mean that the Japanese consular is busy, for it is well known that the Koreans, animated by equally as great love of country as their invaders, will never resign themselves to be governed by the hated Japanese until they are completely brought under subjection. A correspondent of the Japan Chronicle writes that the resistance offered to the reforms desired to be brought about by the stronger nation is more a matter of misunderstanding than anything else. The Korean officials, it is said, know full well what Japan is trying to do, but the soldiers sent to occupy the land are responsible for the hostile feeling that has arisen. The coolie class sees the havoc wrought by the military forces, the plundered stores, the outraged women, the ill treatment afforded the men, and does not know what is behind all this. Pretext to Gain Possession. The poorer classes are unaware that the good of their land is what Japan is seeking. They look upon the occupation merely as a pretext for the possession of the country, and their blood boils and they rise up against the invaders. Incidental to the improvement of conditions in the empire may come annexation to Japan. In some circles this is felt to be the ultimate object. Whether that be true or not the fact remains that Korea is already a prey to the greed and appetites of the Japanese. The various stages through which the matter has passed are summarized in the Chronicle as follows: Stages of Japan's Administration. "There have been three distinct stages in her (Japan's) attitude towards her neighbor: First, the advisory stage; then the stage of subordinate administration; and finally the stage of well-nigh effective direction. The first stage was antecedent to the Convention of November, 1906. During that period Japan limited herself to tendering counsels which Korea adopted or rejected at will. The second stage was marked by assumption of entire authority in the realm of foreign affairs; entire authority in the domain of communications; practically entire authority in military and police affairs; and vicarious authority in the Departments of State by means of Vice-Ministers, in the field of justice by the agency of assistant judges, and in provincial administration by means of secretaries who ranked as assistant-governors. The third stage has just been inaugurated; military control has been made complete; judicial control has been made complete, and financial control has been made well-nigh complete. Very little remains to be done." It is the common belief that the Japanese government will adopt a much more stringent policy toward the Koreans as a result of the assassination of Prince Ito. The Japanese are in practically absolute control of the kingdom, though there is a nominal autonomy under the direction of the one-time Crown Prince, now made Emperor in place of the deposed Emperor who was on the throne during the war between Russia and Japan. The Japanese in Korea are expected to remove any tendency of the Koreans toward freedom and self-government with the rod.

## KANSAS MUCH WORRIED

### "WHAT IS REPUBLICAN?" ASKS STATE ANXIOUSLY.

### Straight Democrat Preferred by Some, Rather Than Insurgent Republican.

TOPEKA, Kan., Nov. 7.—(Special.)—"Is the National platform of the Republican party, as interpreted by the Kansas Democrats, a majority of Congress, that party's creed?" "What is a Republican?" These two questions are stirring as never before the Republican voters of Kansas. Deeply concerned United States Senator Bristow, Governor Stubbs, Congressman Murdock and other so-called "insurgents." The Kansas rebellion against Aldrich, Cannon and the "interests" has progressed far enough to insure a contest between factions on the right to a place on the party ballot in next year's primary election. Republicans who stand with the President and the National Administration openly declare they will support a straight-out Democrat in preference to an insurgent Republican who is but an assistant Democrat. The followers of Bristow and Stubbs are equally bitter and will knit any Republican bearing the Taft-Cannon label. This means, possibly, a gain of five Democratic Congressmen from Kansas.

## TAFT SENDS FOR CUMMINS

any influences seek to take away from the Commission the initiating power. They argue that the Commission should not be both judge and prosecutor, and they wish to place upon the Department of Commerce and Labor the duty and power of instituting proceedings, while the Department of Justice would be charged with the work of prosecuting before the Commission. The Interstate Commerce Commission itself would thus become a mere judge. "The danger in this scheme is that it would be by no means difficult to arrange such a division of authority and such a programme of red tape that it will be possible to hamper every proceeding with such delays that the Commission will really have no power left."

## ALDRICH SHAKES HIS HEAD

### He Declines to Answer Attack by Cummins.

ST. LOUIS, Nov. 7.—Coming through today from Chicago, Senator Aldrich arrived at St. Louis tonight. He is scheduled for a speech at a dinner to be given him tomorrow night by the Commercial Club of St. Louis. Mr. Aldrich's speech, as in Chicago, will be devoted to an exposition of the work and purposes of the monetary commission. When asked whether he would not deviate from his course sufficiently to reply to Senator Cummins' criticism, Mr. Aldrich merely shook his head. He also declined to say anything of a general nature on the tariff question. Des Moines, where Mr. Aldrich will speak Thursday night, is the home of Senator Cummins, but it is doubtful whether the Rhode Island Senator will make reference to the differences with the Iowa Senator there. Mr. Aldrich was joined at Chicago by George P. Reynolds, president of the American Bankers Association, who will continue with him to the end of the tour.

## CATHOLICS IN POLITICS

### EFFORTS TO MOBILIZE VOTERS IN FRANCE CAUSE STIR.

### Clergy Orders Parents to Boycott Public Schools—Teachers Will Invoke Law.

PARIS, Nov. 7.—The situation resulting from the French episcopate's declaration of war against the public schools and the effort to mobilize the Catholic voters for the coming general election is rapidly entering an acute stage. Monsignore Gely and other bishops have publicly forbidden Catholic parents to send their children to public schools if Catholic schools are available and parents everywhere are urged to refuse to allow their children to use the interdicted textbooks. Considerable demoralization of the school already has resulted. M. Deunergue, Minister of Public Instruction, has ordered an investigation of the situation, which probably will determine the Government's ultimate attitude. The decision of the Teachers' Association, comprising 100,000 members, to test in the courts the right of the church to interfere with the public schools will be followed by damage suits instituted by the author of the interdicted textbooks. The catechism is being revised for the purpose of teaching that it is a religious duty to vote for the candidate who is pledged to defend church interests.

## RIVER MINES TOUCHED OFF

Experiments at Fort Stevens Are Again Successful. PORT STEVENS, Or., Nov. 7.—(Special.)—Practice has again demonstrated the destructive power and deadly effectiveness of the submarine mines when properly handled. A moving target was towed by the steamer Ringgold over the mine field, the location of the submerged submarine mine being definitely known only to the men trained to watch for the exact moment when the target would be directly above the mine. A dull rumble, a huge jet of water and the target was torn into a thousand fragments. The Government steamer, Captain James Foranese, was utilized by Captain Abercrombie and the First Company of Astoria for observing and studying the methods employed in obtaining the mine explosion results.
