California Produce Comes in Round About Way.

SOME IN BAD CONDITION

Strong Demand for Good Grapes Which Sell at an Advance-Apple Trade Is Rather Slow. All Grains Are Firm.

California produce is now coming to Port-land by way of Ogden. A tunnel cave-in down the line has necessitated the roundsown the like has necessitated the round-about shipments. Several cars arrived by the new route yesterday and for the next week it is likely that all the heavy ship-ments will come that way. Express mat-ter will be transferred around the scene

ments will be transferred around the scene of the trouble.
Yesterday's receipts, which was the first of the delayed produce to come it, consisted of one car of sweet potatoes and two cars of grapes. Other shipments on the way include oranges, lemons and apples. Of the grapes received, one car was in first-class condition and the other was in a bad way. As all former receipts of Callifornia grapes had cleaned up, the market was in the shape for good Tokuya and Malagas, and the best sold readily at \$1.25 per craise. For the poor offerings there was practically no demand, though some craises of this class were worked off at 25 cents. The market was again liberally supplied with local soncords, but buyers showed little interest in them at 10 cents a busket.

The apple market is a disappointment to the trade. Stocks are large and of good quality, but the domand is indifferent. Some choice Hond River Jonathans soid yester-day at the low price of \$1.50 per box. Several cars of California apples are in transit, which will serve to further depress the market for Oregon full. the market for Oregon fruit.

Some choice Comice pears were received pesterday and were offered at \$1.50. There is a fair supply of Winter Nellis pears on the street, which are held at \$1.25@1.00

There was not much business passing in the local wheat market yesserday, but the undertone was firm. Reports from Eastern Washington points were of much strength, with buyers bidding up eagerly for the few lots offered. The demand in that section was supposed to come from interior millers. Oats are quoted strong at \$29. The de-mand is no greater than it has been for some time past, but receipts are unusually The feeling in the barley marks

Marked Falling Off in the Movement In the Southwest-Shorts Bid Up December Option.

CHICAGO, Nov. 2 .- Argentine advices and marked falling off in the movement in the Southwest prompted urgent buying of wheat here today, resulting in net gains at the close of % to 2c. Shorts were active bidders for December wheat and that option displayed relatively greater strength than the more distant months, the range on the nearby delivery being between \$1.01% and \$1.04% @ 1.04% Wet weather in Missouri and the One River Valley imparted moderate firmness to the corn market despite the bearish show-ing of the Government report. The market closed strong at net gains of 46% to
