Senator Aldrich Says Europe Ahead of United States in Handling Cash.

LARGE RESERVE AVOIDED

France, Germany and England Protect Surplus Funds by Raising Discount Rate—Credit Made Liberally in Stress.

KANSAS CITY, Mo., Nov. 9.—Retracting his declaration that neither he nor the monetary commission, of which he is head, had any pet scheme of financial reform, Senator Aldrich tonight, in this city, dwelt at some length on the advantages of the European banking systems over the systems in the United States. He spoke after a dinner given by the Clearing-house Association at the Baltimore Hotel.

Europe Avoids Till Money.

He added that foreign banks do not hold as "till money" a sum greater than 10 or 15 per cent of their liabilities, while in the United States the average is 20 per cent. The London banks, however, have either in their own vaults or in the Bank of England 10 or 15 per cent of their deposits. In addition, these banks loan large sums to discount houses, subject to call on short notice, which they regard as another source of reserve.

Match Draws Biggest Crowd in Chicago Since Championship Contest—Yousiff After Winner.

CHICAGO, Nov. 9.—Frank Gotch, champion wrestler of the world, defeated Giovanni Raicevich, of Italy, in two straight falls at the Coliseum here tonight.

The first fall was in 16 minutes 28 seconds and the second in five minutes 28 seconds.

The match was witnessed by the largest and most enthusiastic crowd that has attended a wrestling bout since the Gotch-Hackenschmidt match in Chicago two years ago.

When the wrestlers were introduced they were greeted with applause, the throng in the Coliseum crowding the aisles and preventing progress until the police changed the order.

Gotch won the first fall with a crotch-and-bar arm hold. The Italian gave a fine exhibition of wrestling skill, but the champion was too agile and strong for him.
