FULTON DEFENDS SCHMITZ REVERSAL

Trial in Lower Court Is Compared With Injustices of Notorious Jeffrey.

OREGON BAR IN SESSION

Disbarment of Hatchins May Fall and Case Against Max Cohen Will Be Deferred-New Members Elected.

With 300 members of the Oregon bar as attentive listeners, ex-Senator Charles W. Fulton yesterday poured the vitriol renunciation over the trial judge prosecution in the case of the peo-of California against ex-Mayor nitz Without alluding to Judge Lawler and Francis J. Heney by name, Mr. Fulton declared the methods of Heney unfair, and that the rulings of the trial judge exhibited an utter dis-regard of the rights of the defendant to a fair and impartial jury. As Mr. Fulton closed he was greeted with round after round of applause.

The incident grew out of the reading of a paper entitled "Criticiam by the

Press of Court Decisions," the speaker averring that when the Appellate Court of California reversed the verdict of guilty against the former Mayor, con-victed of receiving bribes and other forms of graft, it performed only its sworn duty.

Lawler Compared With Jeffrey.

"I state without any reservation whatever, as a result of careful reading and consideration of the decision, that had the court failed to decide as it did, it would have discredited itself and the judiciary of the country," cried the speaker. "They could not have deided otherwise without violating their cided otherwise without violating their official oaths and pleading guilty to a degree of cowardice and pusilianimity that would have justly earned for them the enduring contempt of the bench and bar of the Nation. I do not contend that the record disclosed the innocence of Scimits. I do contend, however, that the record disclosed the innocence of Schmitz. I do contend, however, that see was entitled to a fair and impartial trial and that the record disclosed not only that he had been denied such, but that the character of the trial in the lower court, in its utter disregard of the most simple and elementary principles of justice and decency, was rarely if ever surpassed by Joffrey in his most vigorous and victous examples of judicial tyranny and deprayity."

and depravity."

The ex-Senator then called attention to the newspaper condemnation of the decision of the Appelate Court which resulted in Mayor Schmitz being liberated pending a new trial. He pointed out that a great outery had been made by the press against releasing that arch-conspirator upon a technicality, and he urged that, while courts are often wrong in their decisions, the newspapers should defer criticism of their decisions until careful study of the facts and the law had been made. He deprecated criticism of the courts for following precedent, and contended that the law must be uniformly ap-

oil that the law must be uniformly applied.

"Of the trial judge in the Schmitz case I besitate to speak," concluded the Senator, "lest I express myself in language too severe. Macauley, speaking of Bertrand Barere, said: "In almost every particular sort of wickedness he had signed there may have been men.

the action of influential Oregon news-papers in denouncing the higher state courts for their action in the Hembree case, convicted for murder of his wife and daughter. He asserted that the higher court did not avail itself of a technicality, but was governed by the plain letter of the law.

Case Against Hatchins to Fall.

In point of interest the next feature of the meeting was the report of the grievance committee presented by Thomas G. Greene. James Call was prosecutor for the committee. It is probable that the case against J. Hat Hatchins will be dismissed. The committee stated that it had gone as far mittee stated the treaty and elected Iglesias provisional president. General Andres Caceres, at the head of this schedule. that the veracity of the absent witness ing in the fall of Lima and the deposition of the disparment are commendation of disparment.

Death stopped the committee in its in-estigations of the charges against Peter Vest, of Pendleton, who died soon after the charges were filed.

No action will be taken now against Max G. Cohen. The grievance committee acknowledged that charges were in its hands, and recommended that the case go over to the new committee to be appointed at this meeting. Cohen is charged with extortion and unlawful practice. It is alleged that the attorney retained as fees the entire amount of money received by him in compro-mise. Judgment was obtained against him last week in the Circuit Cou

A recommendation was made that local courts take up the subject of punishing two unnamed attorneys, who are al-leged to have been practicing law after eing disbarred by the state. One of the men is ascertained to be H. H. Turner, of Salem, who is said to have returned from California, where he went after his disbarment two years ago.

New Members Admitted.

New members of the bar association were admitted as follows: Herbert Marx. W. Humphreys, J. E. Sibley, J. A. Beckwith, Walter L. Tooze, Jr., Ed F. Coad, Charles I., McNary, P. H. Whit-field, John H. McNary, Ralph A. Coan. Robert Tucker, Clarence Butt, Albert E. Gebhart, W. A. Johnson, A. B. Winflee, A. A. Anderson, D. Solls Cohen and Colon Eberfield.

The regular committee upon legal edu-cation submitted the information that of the 51 applications for admission to the Oregon bar during the past year it had found only two disqualified either in learning or reputation. Both of them

came from other states. Waiter P. LaRoche, formerly of the Georgia bar, discussed the provisions of the present constitution of Oregon, decoting particular attention to the action of the state in increasing the number of Supreme Court Judges from three to five.

e, to which the speaker said he gave deference. While admitting that the of the initiative and referendum has thus far proved unobjectionable in this state, Mr. LaRoche believed that the power to change the constitution in jus four months of agitation or discussion was startling.

Chinese Law Discussed.

Extra-Territorial Lawyers in China," was the theme of Joseph W. Rice, now located in Portland but for several years a practitioner before the courts of

President Wirt Minor ist presiding at the meeting with Jerry Bronaugh at the secretary's table. Treasurer Schnabel announced that he had \$225 in the treas-

ury.

Among the prominent lawyers of the state who are in attendance are Judge King of the Supreme Court. Judge Eakin of Astoria, Judge Sam White of Baker City. Judge Henry Bean of Pendieton. Senator J. N. Hart of Baker City. C. A. Hardy of Eugene. Oscar Hayter of Dallas, A. C. Woodcock of Eugene.

law were properly set.
Captain Frank Wagner, master of the Wentworth, James Burkholder, an employe of the dregde and the companion of Robinson on the night of the accident, the chief engineer and watchman of the Wentworth, were called upon to testify before the Inspectors. The testimony of the steamboat officials showed that the tug carried all lights required by law; that the three lights at the masthead denoted that a log raft was in tow and extended well astern of the steamer. It was shown by the evidence of Burkholder that he was not acquainted with the lights and signals.

PERFECT CURES FOR MEN

Different doctors have different ideas in regard to cures. Some call a suppression of symptoms a cure. They dose for drug effects and claim that nothing more can be done. But the real ailment remains, and will bring the real symptoms back again, perhaps the same as before, but very likely leave the patient in a much worse condition. I claim that nothing less than complete eradication of the aliment can be a real cure. I treat to remove the aliment, and not merely the symptoms. I search out every root and fiber of an nilment, and I cure to stay cured.
