Secretary Ballinger Preserves Water Power Sites to Government.

DEPOSITS WITHHELD

Abandonment of Walker Project in California and Nevada Is Announced, and Lands Adjacent Thrown Open to Settlement.

WASHINGTON, Nov. 16.—In line with his policy of waiting for legislation affecting the disposition of public lands containing power sites and petroleum deposits. Secretary Ballinger today announced the withdrawal from sertlement of lands in different parts of the West.

These include 2682 acres along the White. River, 449 acres of which, however, are embraced in pending ciaims; approximately 29,829 acres along the Crooked River; 5441 acres along the middle fork of the John Day River; 2021 acres along the north fork of the same river, and 789 acres along the south fork. All these withdrawals are in Oregon and are believed to contain water site possibilities.

Walker Project Abandoned.

Secretary Ballinger also announced the withdrawal of 255 acres in California containing petroleum deposits. There are now 3,621,652 acres in this class of with-

drawals.

Because of the uncertainty regarding results sought, the Interior Department has abandoned the proposed construction has abandoned the proposed construction of the Walker River reclamation project in California and Nevada. Secretary Ballinger today announced that lands withdrawn from settlement in 1804 and 1806 in connection with that project have been restored to the public domain, with the exception of those sites believed to contain water power possibilities.

Own Salvation to Be Worked Out.

Notice is given that probably 40 per cent are embraced within pending segre-gations, and that intending settlers abould bear in mind that irrigation must depend upon their individual efforts or be obtained through private enterprise.

Seattle Stands by Ballinger.

SEATTLE, Wash. Nov. 16.—The Cham-ber of Commerce today adopted resolu-tions expressing confidence in the integity and devotion to the public interests f Secretary of the Interior Richard A. Bailinger and condemning recent attacks upon him in certain publications.

Relegated Mothers and Wives

As strange as it may seem, out of perhaps twenty-five thousand patients that we have supplied with Alveolar Teeth in our 9 Western offices in six years, leas than one per cent have been old women. It would seem that our mothers and wives who are nearing the close of a weil-spent life, would be our first consideration. Yet most som and husbands seem to think that a plate of false teeth or any cheap substitute is good enough for an old woman who has served her purpose in life. This, of course, is not always the fault of daughter, son or husband, or whoever would naturally pay the fall. Women generally, and particularly mothers eld ones, are self-sacrificing. High-class dentistry is maturally high priced. So she says to herself "Daughter needs a new coat, or son an automobile. I'll get along without teeth or take a plate." We make lots of examinations for old ladies, but we seldom ever have the opportunity to do this class of work for them. On the contrary, Dad, Dear Old Dad, always says, "The best is none too good for me. Go ahead."

Briefly, the Alveolar Method is this: if you have two or more teeth left in either jaw, we can supply all that you have lost with teeth ar good, solid and sound as the best set of natural teeth ever grown in any human being's mouth, and a whole lot more beautiful than mature's best product, without resorting to such makeshifts as partial plates and the unsanitary bridgework is seldom ever longer than 5 or 6 years and generally a good deal less. It is never guaranteed to last by any first-class dentist who is responsible and creations and gives trouble from the time it is put in the mouth until it has to be taken out. In many cases where bridgework is impossible, and all cases where the longevity of bridgework at bost is doubtful. It is a painful operation and gives trouble from the time it is put in the mouth until it has to be taken out. In many cases where it is possible, we can replace your missing leeth with perfect.
