Raincoats

Stores In  
All Principal  
Cities

### FROM MAKER TO WEARER

## To the Public!

Everybody is or ought to be aware of the values we have given the public during any of our previous sales of the past. Today we take pleasure in announcing a Raincoat Sale most extraordinary—a Manufacturers' Overproduction Sale of first-class garments that is sure to meet with most enthusiastic response. This undertaking, considered from the standpoint of actual values offered, will totally eclipse anything we have ever placed before the public.

## The Cause!

The cause and reason is simply this: Being manufacturers of high-class waterproof garments, we find that at the advance of Fall we are burdened with a tremendous overproduction. As a result we have just received a carload consignment of waterproof and cravenetted garments for men, women and children, which go on sale today at remarkably low prices. We show you by illustrations two raincoats that to our mind emphasize the beautiful coats we are selling at prices within the reach of all, and we quote a few special leaders for this sale.

## This Sale Starts at Eight o'Clock Wednesday Morning

Even Though You Travel Hundreds of Miles It Will Pay You to Attend This Sale

## ALL CLASSES GROW

Old Willamette Experiences  
Best Year in History.

## 25 PER CENT GAIN SHOWN

Eight to Enter Oratorical Contest.  
Eaton Hall Progressing—Museum and Library Enhanced.  
Outlook Is Very Bright.

**WILLAMETTE UNIVERSITY, Salem, Or., Nov. 16.**—(Special.)—Willamette University is fairly launched upon what promises to be the most prosperous year in its history. The freshman class in the liberal arts department is more than double that of last year, the law class is double the 1908 class and there is an average increase of about 25 per cent in all departments. There has been a notable reawakening of enthusiasm and interest in athletics and the university spirit pervades every branch of the historic institution.

Already eight contestants have entered for the local oratorical contest, to be held preliminary to the state contest in this city in March. In the state contest the following schools will take part: Willamette University, State University, O. A. C., Albany College, Dallas College, Pacific College, at Newburg; Pacific University, at Forest Grove; McMinnville College.

Guy Smith has been elected president of the Willamette University Oratorical Association; Theodosia Bennett, vice-president; Mary Pader, secretary; Stanley Van Winkle, treasurer. The executive committee comprises Alfred Eyster, Guy Woods, Mary Emmel, Charlotte Seeley and Howard Zimmerman.

The Willamette Moot Court Association has been organized and the first moot trial of the year, a murder case, has been tried, with Dean C. L. McNary, of the law school, as the presiding judge and with all the rules of a regular court of law prevailing.

The new building, Eaton Hall, is a splendid addition to the equipment of the school and the work of furnishing the big building is going forward as fast as possible.

New desks and chairs for the class rooms are being installed and some new library furniture has been purchased. President Homan speaks enthusiastically of Willamette and its future. He said today:

"Willamette has a museum not excelled west of the Mississippi River. Our library is excelled by none except perhaps a few of the state universities. Students in the law and medical departments have unusual privileges and opportunities here. Last Fall I purchased a remarkable collection of birds, beasts and reptiles of the Central American region and this collection is just now being mounted for use in our museum."

"People are learning that Willamette stands for absolutely thorough work and a high standard in educational work. This will be more generally understood in five years from now. The outlook this year is excellent. The attendance is much larger than ever before and we are getting a remarkably high-class student body."

## ROAD ASSURED SUCCESS

Backer of Coos Bay, Oregon & Idaho Talks at Roseburg.

**ROSEBURG, Or., Nov. 16.**—The Coos Bay, Oregon & Idaho Railroad was the subject of an address before the Commercial Club in this city last evening by Francis H. Clark, of Coos Bay. Mr. Clark assured the Commercial Club that the proposition which he was representing was going to be a success, and that it had sufficient backing to carry it through. All that will be asked of the people is their hearty cooperation, and probably a terminal site where the road enters the town.

Mr. Clark filed a plat of the first 20 miles of the survey in the United States Land Office in this city today. This survey covers the most difficult part of the route which shows a wonderfully straight route, with nothing over a 1 per cent grade, and less than six degree curves. The engineer in charge of the survey, Mr. F. A. Haines, has built several lines of road in Dakota and Minnesota.

The survey leaves Myrtle Point, and comes up the middle fork of the Coquille River, and to the summit of the Coast Range in Camas Valley, thence down this slide through Olalla, and through the Looking Glass Valley, to Roseburg.

Mr. Clark assured the members of the Commercial Club here tonight that the road would be built.

Turkish baths, Mrs. Turner, 221 Drexel bldg., 2d and Yamhill.

Trunks, suitcases and bags. Largest variety at Harris Trunk Co.

## COAL PORT IS PLANNED

Aberdeen to Be Shipping Point for Union Pacific.

## BUNKERS WILL BE ERECTED

Ten Thousand Acres of Coal Properties Near Centralia Will Be Developed by Railroad Company, Is Grays Harbor Report.

**ABERDEEN, Wash., Nov. 16.**—(Special.)—Providing for the erection of mammoth coal bunkers in Aberdeen on the North Side of the river on the waterfront property west of the Andersons & Middleton mill, and the expenditure of many thousands of dollars, the Grays Harbor & Puget Sound (Union Pacific) Railway will make Aberdeen a shipping port for its immense coal deposits near Centralia, according to a statement this morning from an authoritative source.

Near Centralia the railroad owns about 10,000 acres of valuable coal lands. At the present time these mines are being worked at the rate of 1500 tons daily, but with the completion of the road to tide-water in Aberdeen, it is planned greatly to increase this output. This coal will all be shipped to Aberdeen, it is declared, and stored in the immense coal bunkers which the company will erect here. From these bunkers the coal will be shipped to San Francisco and other domestic and foreign ports on steamers belonging to the company and built especially for the traffic.

It is estimated that with the working of the mines to their capacity, at least 15 or 20 cars of coal will be received daily in Aberdeen.

**Club Will Study Classics.**

**PACIFIC UNIVERSITY, Forest Grove, Or., Nov. 16.**—(Special.)—At a recent meeting of the Greek students of the university, a club was formed for the promotion of interest in Grecian literature and ancient writers. Professor F. C. Taylor, head of the Greek department, is president; Miss Loretta Murphy, secretary, and Arthur Silverman, treasurer. At the

initial gathering Principal Bates read a paper on "Ancient Greek Philosophy." A like organization has also been perfected among the students of chemistry. Only workers in the laboratory are eligible for membership. The officers for the ensuing year are: President, Fred Knight; secretary and treasurer, Archie Markee.

## BIG ESTATE IS DIVIDED

Hackelman Claims at Albany Settled by Court Decision.

**ALBANY, Or., Nov. 16.**—(Special.)—Final partition of the estate of A. Hackelman, on whose donation land claim the eastern part of Albany is built, was made last evening in the State Circuit Court, when Judge Galloway approved the report of the referees appointed to make the partition. Though a city has grown up on more than half of the claim, the title to the remainder of it has remained in the name of the original claimant for more than half a century.

The big estate was divided among five heirs: Thurston P. Hackelman, Denver; D. Hackelman, Frank A. Hackelman and Mrs. Pauline Deane, of Albany; and Mrs. Winona Josephine Williams, wife of Rev. A. Melvin Williams, of McMinnville. The first four heirs are children of A. Hackelman, and Mrs. Williams is the only child of a deceased daughter of Hackelman, so inherits equally with the others. The estate is valued at \$150,000.

## BENSON NAMES DELEGATES

Twenty-four Men May Attend Rivers and Harbors Congress.

**SALEM, Or., Nov. 16.**—(Special.)—Governor Benson today appointed the following delegates to the National Rivers and Harbors Congress, to be held in Washington, D. C., December 8 to 10:

Philip Beuhner, R. R. Hogue, Lloyd Wentworth, L. A. Lewis, J. N. Teal, W. D. Wheelwright, A. H. Dwyer, H. Wittenburg, all of Portland; W. J. Mariner, Blalocke, C. A. Barrett, Athens; B. L. Eddy, Roseburg; M. A. Moody, J. T. Peters, The Dalles; George Flavel, Herman Wise, Astoria; William Grimes, W. Bennett, Marshfield; James Watson, Tillamook; C. H. Wheeler, Nehalem; R. E. L. Heddlow, Bandon; O. W. Hurd, Florence; B. F. Jones, Independence.

**Body to Rest at Home.**

**OREGON CITY, Or., Nov. 16.**—(Special.)—Peter Wilson, father of Charles Wilson, postmaster at Olympia, who was drowned Friday, left today for Olympia, and will bring the body to Oregon City for burial. Wilson was accompanied by his son, Frank P. Wilson.

## RYAN TRIAL BEGUN ANEW

WEALTHY FARMER MAKES PLEA OF SELF-DEFENSE.

Twelve Venemen Passed for Cause Out of First 17 Talesmen Examined.

**PENDLETON, Or., Nov. 16.**—(Special.)—For the second time within a month Mike Ryan, the wealthy bachelor, slayer

of Edward Dixon, has been placed on trial for murder in the first degree. His case has twice been investigated by grand juries and twice has been indicted on the first degree charge. Dixon and his employer, Joseph Shubert, were shot at the same time with the same bullet by Ryan on the evening of April 20 last. Dixon died to death in a wheat field. Shubert recovered. The killing was the result of a quarrel of long standing over the use of a road across the Ryan wheat field. Ryan avers self-defense.

The case first came to trial last month, but ended suddenly before the jury was secured, when it was discovered the indictment charged Ryan with murdering George Dixon, whereas Edward was the name of the man killed. The case was sent back to the grand jury for a second indictment. The second trial began this morning and to the great surprise of

everyone connected with the case 12 venemen were passed for cause out of the first 17 examined. Nearly a week was consumed in the first attempt without having secured a jury, while now it is believed two more days at the most will be required.

Two peremptory challenges have been used by the defense and one by the prosecution. The regular venire was exhausted by that time and a special one had to be drawn.

**Hunter Falls, Is Wounded.**

**FOSSIL, Or., Nov. 16.**—(Special.)—While in pursuit of game Merrill Rippey, a high school student, fell and shot himself in the right hand. The young man, while suffering a great deal, is doing nicely. For trunks go to the Harris Trunk Co.

## WE STAKE OUR REPUTATION

On the absolute purity and unexcelled goodness of Crescent Egg-Phosphate Baking Powder. Yes, and we go further yet and back up this statement with an offer of \$500.00 Reward for any substance injurious to health found in food prepared with Crescent Baking Powder. We first made this offer ten years ago and yet no one has claimed it, not even the Cream of Tartar Baking Powder Trust.

# CRESCENT

Why not try a can of Crescent today? It raises the dough thoroughly and evenly. It leaves no soggy spots in the food and no injurious deposit of Rochelle Salts. Stop one minute and think it over. The label on Trust Cream of Tartar baking powder reads:

"Cream of Tartar, Bi-Carbonate of Soda and Starch"

|                                    |                                              |      |
|------------------------------------|----------------------------------------------|------|
| The composition is about like this | 50 per cent. Cream of Tartar, worth say      | 11c  |
|                                    | 25 per cent. Bi-Carbonate of Soda, worth say | 1-2c |
|                                    | 25 per cent. Starch, worth say               | 1-2c |
|                                    | Cost of Manufacture and putting on market    | 12c  |
|                                    |                                              | 3c   |
|                                    |                                              | 15c  |

And yet it costs the consumer 45c per lb. Don't be a victim of the Trust. Use Crescent Baking Powder, 25c lb. at all grocers.

CRESCENT MANUFACTURING CO., SEATTLE, WASHINGTON
