Mr. Cannon sarcastically paid his re-spects to Senator Cummins, of Iowa, and Congressman Champ Clark, of Missouri, Isader of the minority in the House. President Taft was praised for his de-fense of the new tariff law at Winona,

Mr. Cannon took as the text for his speech the following utterance from one of the campaign speeches of Dr. Carl Barnes, independent candidate to succeed Mr. Lorimer: elected on November 21 I shall

join the insurgents and do everything in my power to down Cannon." Mr. Cannon started with a defense of

the present House rules, and stated emphatically that the House was ruled by the majority. He denied that the Speaker had the powers of a "czar." He said the Speaker was controlled by the majority, especially at the time of his election. He also said that an active majority was an excellent thing in the

According to Mr. Cannon, Mr. Cum-mins complained that no information had been placed before Congress in the recent tariff revision. Mr. Can-non remarked that there had been car-loads of information for any one who wanted to use it, and added:

"There has been no way discovered by hich information can be put in a man's skull without any industry on his part." A denial of the charges that he had read either Senator LaFollette or Cum-mins out of the Republican party was

of my youngest son, I became greatly run down through worry and overwork in caring for my husband, who had been seriously injured in an accident. After the birth of the child I was completely broken down in health. My head and back ached all of the time. I had no appetite and, whenever I ate, my stom-ach distressed me so that food didn't seem to do me any good. I felt so tired that I wanted to sleep all of the time. I had been sick only a few weeks when I began to notice a numb, creeping-like sensation in my hands and feet. These spells lasted for about five minutes or so at first but gradually lasted longer until I would feel them for a whole day. My hands and feet became colorless and dead like. There was no feeling in them and I could hardly write or do any work with them. The numbress was worse during damp weather or when I was extra tired.

"I was under a doctor's care for over a year and, when the numbress began, he said I was in danger of paralysis. He treated me with electricity for several weeks but he did not help me. Then I decided to try Dr. Williams' Pink Pills as I happened to read of a case, like mine, which they had cured. I gave them a thorough trial and found they were bleing as for L crew stronger in were helping me for I grew stronger in every way. The numbress finally left
