Portland Highways Will Be Flushed in Future.

POWER BROOMS WILL GO

Superintendent Donaldson, After a Trip to Seattle, Decides That Hard-Surfaced Roads Here Can Be Washed.

Seattle Able to Work Scheme.

"There is no question that flushing is a much better system for cleaning hard-surfaced streets," said Superintendent Donaldson. In discussing the subject with Mayor Simon, "I had thought before visiting Seattle that the system could not be worked here, owing to the topography of the city, and had feared that the sewers were insufficient to carry off the large amount of water necessary to be used in this plan, but I have now come to the conclusion that the flushing system will work here, and am ready to put it into effect at once."
