

PUNISHMENT OF ZELAYA TO WAIT

Status of Dead Americans Is Important Point in Question.

KNOX DELAYS FUTURE MOVE

Declares Different Phase of Matter Would Be Taken if Grace and Cannon Really Tried to Blow Up Ships.

WASHINGTON, Nov. 23.—The delay on the part of the United States in taking action with respect to the killing, by order of President Zelaya, of Nicaraguans, of two Americans, Grace and Cannon, it developed today, is occasioned by the inability of the Government to fix the exact status in Nicaragua of the slain men.

It was explained that every effort was being made to determine whether the men were, in fact, members of the revolutionary army or whether they were acting on their own responsibility when they were captured.

If it can be proved, as seems doubtful, that they were really responsible for placing mines to blow up troopships of the Nicaraguan government and were acting in this matter on their own responsibility, their status would be different from what it would be were they acting as a part of the revolutionary forces.

It is this point that the State Department is trying to clear up before it takes any aggressive action against Zelaya.

The American Vice-Consul at Managua has been instructed to obtain all possible information. Until this is received it is doubtful if the United States will take any steps leading to the chastisement of Zelaya, beyond putting itself in a position to act promptly should occasion require.

It is believed that plans for the concentration of warships and marines on the Nicaraguan coast will continue and possibly this show of force will stimulate the energies of the revolutionists and result in large accessions to their army from disaffected portions of the country now held by Zelaya.

CENTRAL AMERICA MAY RISE

Invasion of Nicaraguans Bases Prediction of More War.

NEW ORLEANS, Nov. 23.—A dispatch from Port Limon reports the movement of troops in Salvadoran ports. General Alfaro is said to be at the head of 1000 well-armed Nicaraguans. The arrival of Honduras is momentarily expected, and he will join Alfaro as a revolutionary chief. The revolutionists are said to be in possession of Castillo Viejo. The predicted invasion of Salvador by Nicaraguans may precipitate a general uprising in Central America. If Alfaro is beaten, it is said, the troops of Salvador and Guatemala will march through Honduras to attack Zelaya, while, if Alfaro succeeds, a revolution in Guatemala is assured. Many Americans have made application to join Estrada's Nicaraguan army, but are denied because of the neutrality laws.

SALVADOREAN PORTS ROUSED

General Alfaro Leads 1000 Nicaraguans Well Armed.

NEW ORLEANS, Nov. 23.—A dispatch from Port Limon, Costa Rica, says that passengers arriving at Punta Arenas report a great movement of troops in Salvadoran ports. It is said that General Prudencio Alfaro is at the head of 1000 Nicaraguans, well armed and equipped.

Scores of applications from Americans for service in the Estrada army in Nicaragua are being received by his office, according to Consul-General Sussman, representing the Provincial Government in New Orleans. None of the offers have been accepted on account of the neutrality laws. Most of the applications are from the Gulf States.

SEALING TO BE STOPPED

Committee of Specialists and Lawyers Advises Secretary Nagel.

WASHINGTON, Nov. 23.—To advise the Secretary of Commerce and Labor concerning the preservation of the Alaska fur seal herd, a committee appointed by Secretary Nagel met in the office of the Fish Commission today.

David Starr Jordan, president of Leland Stanford University, presided. Those present included E. W. Sims, United States District Attorney of Chicago; Dr. C. Hart Merriam, of the Biological Survey; Postmaster-General Hitchcock; F. A. Lucas, of the Brooklyn Institute of Arts and Sciences; C. H. Townsend, of the New York Aquarium; Dr. H. W. Everman, Walter I. Leach, M. C. Marsh, James Judge and A. B. Alexander of the Bureau of Fisheries.

On account of pelagic sealing the Prbyloff herd has been reduced to 50,000 seals, one-thirtieth of the number that existed there some years ago. The committee will endeavor to recommend a plan to stop pelagic sealing. Only preliminary work was done today.

ST. CROIX CAPTAIN HERO

Fil-lated Boat Passenger Lauds Work of Officer.

SAN FRANCISCO, Nov. 23.—Captain Frederick Warner, of the battleship St. Croix, arrived here last night and made his report to the Inspectors of Hulls and Boilers. Investigation into the fire will be taken up at the Boiler Inspector's office Friday.

Several interesting features were given by C. G. Claggett, passenger on the St. Croix, who accompanied Captain Warner. He said: "When every man and woman but the captain were in the boats, Warner shouted, 'Have you got milk for the babies?' Sure enough, there was a 19-gallon can of milk, and it was this that preserved the lives of the little tots.

tain Warner ordered the men to get food together and sent a crew out for wood. They got driftwood and built three immense fires. With oars and sails taken from the lifeboats the captain ordered tents put up. He then made the women take off their clothing. Stockings and dresses were hung up by the fire to dry and the women, wrapped in blankets and overcoats, were huddled about the fire where they soon got warm.

BRYAN CRITICISES TAFT

He Tells New Mexico Oklahoma Constitution Is O. K.

GLOBE, Ariz., Nov. 23.—William J. Bryan, who was the guest of honor at a banquet here last night, denounced the proposed copper merger as a combine which would seriously injure the interests of smaller producers and workmen.

He also criticized President Taft for his reported advice to avoid copying the Oklahoma Constitution, when the people of this territory came to draft the basic law of their prospective state.

COPPER STOCK GOES DOWN

Amalgamated Securities in Slump Owing to Court Decision.

NEW YORK, Nov. 23.—Following a quiet, though somewhat feverish opening of the stock market today, there developed in the first hour an outburst of selling orders in the securities of the Amalgamated Copper Company, which sent that stock down from 9 1/4 to 8 3/4.

Accompanying the outpour of stocks were signs of operations for the short account. Reports that the proposed merger of the copper properties would have to be abandoned because of the Federal Court's Standard Oil decision were said to be responsible for the sudden decline in the market.

When the Stomach Stops

Working Properly, Because There Is Wind In It. Use Stuart's Dyspepsia Tablets to Set It Going Again.

A Trial Box Free. THE DOCTORS call it flatulency, but unprofessional folks know it as "wind on the stomach," and a most distressing state of things it is. It is a serious condition of the great motor organ. Always annoying and painful in the extreme, at times often leading to bad and fatal results. The stomach embarrassed and hampered with wind, cannot take care of its food properly and indigestion follows, and this has a train too appalling to enumerate. The entire system is implicated—made inactive or passive factor in this trouble and life soon becomes a questionable boon.

PRESIDENT ZELAYA OF NICARAGUA, HIS HOME, AND MILITARY CADETS AT DRILL

General Jose Santos Zelaya is the President of Nicaragua. He has held that office since 1906, and his term would expire in 1912; but it is more than likely he will lose his job through the revolution now in progress under General Estrada and through the influence of the United States. It has been reported in Navy circles that the United States was disposed to favor the revolutionists, though the origin of this rumor cannot be traced. It is not going to make General Zelaya's position any more secure that he has aroused the Government of the United States to bitter resentment by the killing of two Americans. General Zelaya has his official residence in Managua. There is also the training school for military cadets which is supposed to produce officers for the ragged army of the republic. This army consists of 4000 men none too well drilled. Nicaragua has no navy.
