TO BEGIN JULY

Mayor to Sign Immediately Ordinance Enforcing Dairy and Herd Scrutiny.

NOT OPPOSING VOTE CAST

Dealers Given Ample Time to Be Prepared to Comply With Strict Measure-Fees Ample to Pay Inspectors.

PROVISIONS OF PURE MILK ORDINANCE.

Prohibits the sale of milk of cream in Portland from any dairy without a certificate of inspection the herd has been tested and is free from tuberculosis or other disease. It requires an applicant for a license to give his name and place of residence, declare whether he is a producer of milk or cream and give the exact location of his dairy and

number of cows in his herd.

An applicant must produce a certificate of inspection from the State Dairy and Pood Commissioner that the dairy is conducted in a sanitary manner and from the Board of Health that his cows have been in-

apected and are free from disease.

A nominal inspection fee is charged, and not to exceed three four months annually, are authorized.

Without a dissenting vote, and at the request of Mayor Simon, the City Council yesterday morning passed the pure-milk ordinance, drafted by a committee of citizens appointed by the Mayor. Showing the great interest he takes in this subject, the executive will immediately sign the ordinance. Its provisions are to take effect July 1, 1916, and the dairymen will thus be given ample time in which to arrange their affairs so as to be able to comply with it.

Law Made by People.

When the ordinance came up for action before the Council, Mayor Simon, who was presiding, explained that it had been carefully prepared by a committee of citizens, who had given it much time and attention, and that it was very important that it should be passed.

Councilman Belding was the only mem her of the Council who asked any questions or who objected to the ordinance against impure cheese and butter. He criticised the measure because it had no such clause. Mayor Simon and Councilman Baker explained that, as it provides that no impure milk or cream shall be sold in Portland, it necessarily forbids

sold in Portland, it necessarily forbids the disposition of impure butter and cheese.

Mr. Belding, however, was pushle to see it in that light, and continued to criticise the measure. He said that, in his opinion, any dairyman could send his diseased cows, when detected by the inspectors, to another section of the state, and that their product would be used for butter and cheese and be shipped here. The oil tank steamer Ascunsion arrived butter and cheese and be shipped here, where it would be sold.

"It is very important," spoke up Mayor Simon, "that this ordinance be passed at this time, and I hope that no capilous objections will be interposed. The chair suggests to Mr. Belding, if he has any further legislation along these lines that he wishes enacted, that he bring it up at a future meeting."

Law Passed Unanimously.

The vote was then taken, and every on of the 13 Councilmen present voted favorably to its passage. A number of those who have steadfastly worked for such a measure, cheered when the vote

was announced by the Mayor.

The ordinance creates an inspection system, provides three inspectors for three months' work each year at salaries of \$125 a month, and fixes a nominal rate for licenses to sell milk and cream in the city. It prohibits the sale of either product within the city limits, after July 1, 1910, unless the proprietor of the dairy has obtained from the State Dairy and Food Commissioner a certificate of sani-tary conditions and from the Board of Health that the tuberculin test has been made of each cow in the herd and that

Careful Check Possible.

Under the provisions of the ordinance, it is believed that a close check may be kept upon all of the milk and cream soid in the city. Through the system of in-spection, all cows must be tested, and unless they are found free from subservi-losis, no certificate will be issued by the Board of Health, and the dairyman will be unable to procure from the City Audi-tor a license to sell milk or cream. If all the cows are free from disease, and the dairy is found in a sanitary condition, the certificates will so state, and the license will be issued upon payment of the regular fee. It is believed by those framing the or-

dinance that, with the co-operation of State Dairy and Food Commissioner Balley, the supply can be kept pure. The inspectors provided for in the ordinance, it is said, will be able, by working three months in the year, to make the necessary tests of the herds that supply Port-land with milk. Their salaries will be more than met by the fees from the li-

DAIRYMEN TO HAVE EXHIBIT

Liberal Purses Offered at Meeting of

State Association.

The Oregon State Dairy Association will hold its annual convention at the Woodmen's Temple at Eleventh and Alder atreets Thursday and Friday, De

cember 5 and 10.
Theodore B. Wilcox renewed the prize of the Portland Flouring Mills for \$100 to be awarded the best and most com-prebensive display of dairy products. This purse will be divided into two prizes-\$55 for first and \$55 for second. The Portland Commercial Club will give a joint reception, with luncheon and music, to members of the Oregon State Dairy Association and State Horticultural Society on Thursday evening, December 2 at 8 o'clock.

Great credit is due the energetic work of the soliciting committee, composed of

of the soliciting committee composed of the soliciting committee composed of S. Townsend, of the T. S. Townsend Creamery Company; W. C. Dey, of the Washington Creamery Company; C. M. Egbert, of the Hazelwood Cream Company, and F. H. Wiencken, of the Sunset Creamery Company. The committee submits the following report of indi-

more, and subscriptions reported to Chair-man T. S. Townsend will be appreciated.

KNIGHT OF ST. GEORGE CHAR-TERED FOR OREGON.

Regular Liner Undergoing Repairs at Kobe, Japan, Will Miss One Trip-Rygja Reaches Astoria.

The British steamship Knight of St. George has been chartered by the Portand & Asiatic Steamship Company to take the place of the steamship Selja. recently disabled by grounding in the Kurushima straits. The British steamship will be delivered to the Portland & Asiatic Steamship Company at Nanaimo, B. C., December 10. She will coal and proceed to Portland for cargo and will follow close on the heels of the steamship Rygja. The latter craft arrived in the river yesterday morning and is due at Portland this forenoon

In crossing the Pacific the Rygja consumed 21 days, four days longer than the scheduled time. Storms delayed the vessel. She is in with a large amount of sulphur and jute. Today being a holiday, the vessel will not enter and no

work will be done.

The steamship Knight of St. George has been chartered for one trip only and on completion of the repairs to the Selja, now in progress at Kobe, the Norwegian steamship will return to the Trans-Pacific service.

Practically all the space on both the Rygia and the Knight of St. George has been engaged for the outward trips. The bulk of the space on each vessel has been reserved for flour and fully 75,000 barrels will be sent to the Orient on the two steamships. Lumber exporters are also seeking space and each steamship will carry a large amount of heavy

LIGHTSHIP IS REPORTED SAFE

Vessel Not in Distress as Previously Reported by Wireless.

ASTORIA, Or., Nov. 24.—(Special.)—The report received by wireless last night that the Columbia River lightship had gone adrift proves to have been an error. The Norwegian steamship Rygia was alongside the lightship for several hours and the vessel was at her moorings when

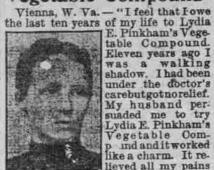

The oil tank steamer Ascunsion arrived off the mouth of the river last evening, but has been unable to come in, and a wireless message from her master, Cap-tain Bridgett, says he will not attempt to cross the bar before Thursday morn-

Cantain Syendsen, master of the Nor-Captain Svendsen, master of the Nor-wegian steamship Rygjs, which arrived this morning, 23 days from Yokohama, reports encountering a heavy gale prac-tically all the way across the Pacific. The Rygja arrived off the mouth of the Columbia at midnight and came in with-out a pilot as the did the last time out a pilot, as she did the last time

Inspectors Take Up Collision Case.

L. C. Weir, master of the steamer Pronto; E. H. Berry, master of the steamer Wauna; George Glidez, a pilot, and several employes of each vessel were closely questioned yesterday by Local In-spectors Edwards and Fuller regarding the collision between the two vessels on the morning of October 16. The testimony went to show that the vessels were navigating in the fog and that the Pronto and. Wauna were each blowing the fog signals as prescribed by law. The Pronto Had a scow in tow and evidence went to show that the master stopped his

engines when he heard the fog signal

Marine Notes.

The French bark Neuilly arrived up yesterday from Astoria in ballast.
The steamship Kansas City is scheduled to sall for San Francisco tomorrow after-

The steamship F. S. Loop sailed last evening from Kalama with a full cargo of lumber.

With passengers and freight for Coos Bay ports, the steamship Breakwater will sail this morning. Captain Frank B. Turner, of Van-couver, B. C., is spending Thanksgiving day with his brother, Captain J. L. Turner, at Astoria. Captain Frank Tur-ner is accompanied by his wife.

Arrivals and Departures.

PORTLAND, Nov. 24.—Arrived—French bark Neullly, from Kahului. Salled—Steamship Tamapais, for San Francisco, from Prespott; steamship F. S. Loop, for San Francisco, from Kalana.

Astoria, Or., Nov. 24.—Condition at the mouth of the river at 5 P. M., rough; wind, south 18. miles; weather, cloudy. Arrived down during the night—Steamer Argo, Geo. W. Elder and Nome City. Arrived at 7.29 A. M. and left up at 12 noon—Norwegian steamer Rygia, from Hong Kong and way ports. Sailed at 8:46 A. M.—Steamer Geo. W. Elder, for San Pedro and way ports. Sailed at 8:16 A. M.—Steamer Nome City and Santa Clara, for San Francisco. Outside—Steamer Asuncion, from San Francisco.

ciaco. Gutside-Steamer Asuncion, from San Francisco. Nov. 24.—Arrived—Steamer City of Para, from Ancon; Luriine, from Honolulu; Atias, from Seattle; Santa Barbara, from Grays Harbor. Salled—Steamer Thomas L. Wand, for Portland; bark Knight of the Thistle, for Tacoma; steamer Thomas Wand, for Astoria; steamer Falcon, for Portland; steamer Missourian, for Salina Cruz. Hong Kong, Nov. 24.—Arrived previously, orea, from San Francisco via Honolulu and kohama. Tokohama, Nov. 24.—Arrived previously— Inpon Maru, from San Francisco via Hono-Nippon Maru, from San Francisco via Hono-lulu for Hongkong.
Tacoma, Nov. 24.—Arrived—British steamer Oanfa, from Seattle: steamer Buckman and steamer Governor, from Seattle: steamer Sea-pora, from halibut banks. Salled—Steamer Bamses, for San Francisco and Hamburg; steamer Ariseman, for Honolulu.

Los Angeles, Nov. 24.—Arrived—Steam schooner San Juscinto, from Grays Harbor; steam schooner Fair Oaks, from Grays Har-bor. Salled—Steam schooner Galos, for Sher-deen; steam schooner Calos, for Sher-deen; steam schooner Yellowstone, for Port-land.

Seattle, Nov. 24 - Arrived - Barge St.

DRIVES OUT RHEUMATISM

Rheumatism is not bad luck. It is the penalty of violating Nature's laws. Fire, flood, draught, storm and earthquake are beyond the control of man, but rheumatism can be cured.

When you feel that grinding pain in your joints you can appreciate the feeling of a man burned at the stake or having his bones broken and twisted on the rack. It is merciless, sieep-destroying, agonizing. It lets up at times for an hour or two, only to turn loose again more pitilessly than ever. It leaves one joint and moves to another with doubled intensity. It cats up all your vitality, exhausts your patience, and unless you can conquer it by using Electricity, which is the only remedy on earth that will cure it, it may reduce you to a chronic rheumatic eripple, with joints enlarged, twisted and deformed, and strength enough only to limp around.

Rheumatism gives many warnings, and it is easy to cure it if you take it in time. When you feel the first stiffness in your knee joints, shoulders or back, the first pain in your back or shoulders, if you attack it then you can easily drive it out of your body. But if you can easily drive it out of your body. But if you let these "come-and-go" pains come often they will settle down and stay with you. Cure them at first and you will be saved many years of needless suffering.

Drugs fall because they lack the element which re-

Drugs fall because they lack the element which re-stores fresh life and vigor; they store up no vitality; they burn through your system like a flaring flame consuming everything in the way, wrecking the vital organic system to relieve, but for a moment, the torturing sches and pain.

Electro-Vigor pours out a continuous atream of elec-ilfe which permeates the system like a clear, cool r. bringing life and freshness in its pathway. It pours not the joints of the Rheumatic, vitalizing the tissues renders them capable of throwing off the cause of the ble, driving theumatism forever from the body.

MY FRES, BOOK tells MY FRED, BOOK tells you how to apply Electro-Vigor. It is a book of 199 pages full of illustra-tive methods of driving disorders from the body. I have a book for men, one for women also. Cut out the Coupon now, mail one for women asset out the Coupon now, mail it to me, and you will get this book free. Fou can't afford to be without this information. If you cannot call send me the

Nervous, Suffering Men men of all ages—young and old

Come to my office and let me give you the real facts concerning your case. I will do this free and searching examination without placing you under the slightest obligation to take treatment unless you desire. If you are a young man, remember that a young man's neglect is an old man's regret. If you are an old man, get the "today habit"-it is better than ten tomorrows.

A mote in the gunner's eye is as bad as a spike in the gun. The cankerworm of delay causes half your troubles in this life. If your health is impaired from any cause, and you have not detected it, it is your own fault.

Nature never took an unfair advantage of a man in the world. You may have violated her laws time and again, but no matter how indiscreet or unjust to yourself and Nature, she never allowed the natural results of this violation to take place without sounding the alarm in ample season for amends.

If at times you are unable to sleep soundly, no matter how comfortable the bed, if the muscular system, as well as the nervous system, is partially or completely exhausted because it has been overtaxed, remember that judicious treatment is necessary to prevent an ultimate breakdown, for these are among the many symptoms Nature sends out as a warning. Nature wants you to

Take Advantage of This Warning

and help yourself before it is too late. When the system needs more water or food, thirst and hunger remind you of this fact. When you have headache, dizziness, lack of memory, physical or mental debility, it is an announcement by Nature that something is wrong, and if you are not sure what it is, better consult a doctor whose experience qualifies him for examination and decision

Early in my professional career I realized that the maladies of mankind were too many and vastly complicated for any one man to master and gave up the impossible task. I put aside a flourishing general practice and prepared myself for the duties of a specialist. I sought the leading hospitals, studying and practicing under the most learned modern professors in my line of specialty practice. My purpose was to acquire such skill, experience and scientific equipment as would be most useful to me and beneficial to my patients. How well I have succeeded thousands of cured patients will testify by reputation in the cure of

Varicose Veins, Blood and Skin Disorders, Kidney and Bladder Troubles, Ulcers, Sores, Painful Swellings, Nervous Debility and All Other Ailments of Men

I determine the condition by a scientific analysis of the urine, and the severe urinary troubles I have cured by my systematic course of treatment, after being unsuccessfully treated by other specialists, give me such confidence in my method to assure you a cure.

My consultation and advice is always free, whether you take treatment or not. If you cannot call at the office, write for self-examination blank. Many cases cured at home. Office hours, 9 A. M. to 8 P. M. Sundays 10 to 12 A. M. All advice in plain envelopes.

J. PIERCE, 3il Alisky Bidg., Portland, Or.

"I claim to know a great deal about a few ailments, rather than a little 'of all human ills"

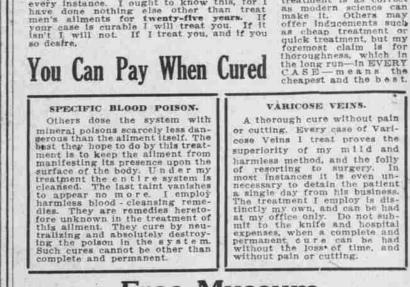

Different doctors have different ideas in regard to cures. Some call a suppression of symptoms a cure. They dose for drug effects and claim that nothing more can be done. But the real ailment remains and will bring the real symptoms back again, perhaps the same as before, but very likely leave the patient in a much worse condition. I claim that nothing less than complete eradication of the aliment can be a real cure. I treat to remove the ailment, and not merely the symptoms. I search out ever root and fiber of the allment, and I

oure to stay cured.

I not only cure all nervous conditions promptly, but I employ the only treatment that can possibly cure such allment permanently. It is a system of local treatment entirely original with me, and it is just as substantial as it is broad.

I Cure the Cases That Others Cannot Cure

A bold statement, but just as true as it is bold. Not all cases that others fail to cure are curable by my methods, but fully 30 per cent of them are. The way to learn whether your case is curable is to consult me., I know exactly what can be done in every instance. I ought to know this, for I have done nothing else other than treat men's aliments for twenty-five years. If your case is curable I will treat you. If it isn't I will not. If I treat you, and if you so desire.

VARICOSE VEINS.

DR. TAYLOR. The Lending Specialist.

My Cures Are Permanent

In all my work I am the rough, painstaking and careful to give just the right treatment required in each individual case. For 25 years I have been proving my shility and my business methods have always been strictly rellable. My unqualified success is due to a therough medical education, supplemented by years of experience in men's special ailments only. My treatment is as correct as modern science can make it. Others may offer inducements such as cheap treatment or as cheap treatment or quick treatment, but my foremost claim is for

superiority of my mild and harmless method, and the folly of resorting to surgery. In most instances it is even unnecessary to detain the patient a single day from his business. The treatment I employ is distinctly my own, and can be had at my office only. Do not submit to the knife and hospital expenses, when a complete and permanent cure can be had without the loss of time, and without pain or cutting.
