The retailers exhausted their supply at an early hour in the evening, and but for sums belated receipts yestering would have had nothing to sell after the noon hour. The retail prises were 30 to 25 cents. That the supply of furkeys in Oregon this year was insidented was amply proved by the course of the inarket. Bad roads held back some small adjuments but had they arrived they could have hardly affected the market. It was the strong competition by Stattle and San Francisco huyars in the producting districts that made the Fortland supply so light and prices so high.

Liquidation Continues in the Copper Group.

ard Oil Case.

NEW YORK, Nov. 24 - The contrast of is wide movements in appents direction of a few stocks today did not conceal the instituence in the apsculative sentiment wer the issues presented in the Standar

over the issues presented in the Standard Off case.

A feature was the alteration in the states, of corporation authorities toward the policy of moving for repeal or modification of the Sherman anti-trust jaw. This change was accompanied by intimutions from Washington that the views of the administration resurring changes in the law had been modified in the face of the Standard Oli decision. It was asserted that so effective a weapon against the power of the corporations was disclosed in the decision that a discrimined and effective apposition would be offered to any effort to change it.

Large speculative activity centered in the copper stocks and fears that the proposed consolidation of copper producers would be prevented by the Sherman law caused selling pressure to be resumed in that group.

caused selling pressure to be resumed in that group.

The extreme depression shown by New York Central was attributed to the Antouncement of subscription rights of stock-holders to the new stock at par. The subscription rights were dealt in in the outside mackets at six to five a fraction. This seemed only to increase the pressure to sell the present stock to obtain resources for securing the new stock at par.

Recalling resumed its function of a supporting factor against the tone of depression elsewhere in the market. The buying of the stock was concentrated and said to come from banking interests connected with the company. Walnash preferred reacted sharply from its advance of yesterday, owing to the disbellef in the rumors of a merger with the Delaware, Luckawanna & Westers.

There was a further engagement of gold for shipment to South America. The eve of the Thanksgiving holiday reduced the volume of the transaction to some extent. Bonds were treegular. Total sales, par value, \$3,032,000. United States 4s coupon declined & on call.

December Wheat Approaches Price of May.

HEAVY SELLING BY LONGS

Million Bushels of Duluth and Nebrasks Wheat to Be Shipped to Chicago for Delivery on Next Month's Contracts.

CHICAGO, Nov. 24.—The Equidation of December which by a leading long was one of the children features of trading in the market and as a result of the selling pressure, the premium of this option over May was cut down materially. A report that a leading elevator interest had purchased in the neighborhood of 1,000.000 hughests of Duluth and Nobrasia wheat to be shipped here for delivery on December contracts was partly responsible for the heaviness of the neighborhood of 1,000.000 hughests of Duluth and Nobrasia wheat to be shipped here for delivery on December contracts was partly responsible for the heaviness of the neaking option. The market displayed considerable firmness at the start, owing to covering by shorts, bused on wet weakther reports from Argentina. A rather weak tone developed, owing to profit-taking in December, but the market again became quite firm because of renewed buying by shorts. The range for the day on December was between \$1.08% and and \$1.00% \$1.00%. Final quotations were the lower to the higher.

Unsettled weather in the corn belt brought out moderate covering by shorts, resulting in a firm tone in the corn market the greater part of the day. At the close, priess were inschanged to a shade higher.

Trading in oata was extremely quiet and prices moved within a tic range. The close was steady, with December and May precisely at the same point as on the previous day, while July was only a shade higher.

The Board of Trade will be closed to-morrow.

TACOMA WOMAN CLEARS NAME OF HER SISTER.

Finds Goldfield Woman Was Really Married to Man She Killed.

TACOMA, Wash, Nov. M.—(Special.)—
After searching the records in San Franclisco for proof that her sister, known as
"Bonita," was legally married to Webb
H. Parkinson, the wealthy mining broker, whom she shot and killed in his
room at Goldfield, Nev., several weeks
ago, then ending her own life, Mrs. The
resa Murphy has returned to her home in
Tacoma.

Mrs. Murphy declares that Parkinson married her sister, Miss Annie Sopp, but refused to acknowledge her after a child refused to acknowledge her after a child had been born and died, but left her to earn her living the best she could as a mining camp vaudeville artist. She performed in various houses along the Const. "While on one of her theatrical tripe," said Mrs. Marphy, "she met Webber H. Parkinson, then a struggling miner. Later he became one of the most successful brokers at Goldfield. The records of the County Clerk's office at San Francisco show that Parkinson and my sister were granted a marriage license May II, 1908. At Berkeley I found the priest, Father Butler, who married them."
