

PARTY LEADERS URGES ASSEMBLY

Republicans, at Smoker, Take Preliminary Action for County Campaign.

FULTON IS CHIEF SPEAKER

Ex-Senator Denies That Effort Is Being Made to Destroy Direct Primary—McGinn Speaks in Opposition to Plan.

Preliminary action for the holding of a Republican county assembly, to be composed of representatives from every part of the state, was taken at a smoker held last night in the Rolling-Hills Hall, under the auspices of the Union Republican Club.

The plan adopted is to have every precinct elect delegates to this county assembly, which in turn will elect delegates to the state assembly.

Previous to the adoption of the plan for a state assembly, a number of representative Republicans having in favor of the plan, and each expressed his approval of the direct primary law.

Resolutions Outline Policy.

The following resolution was passed by a unanimous vote: Resolved, That it is the sense of this meeting of Republicans that we heartily endorse and pledge our united support to the timely proposition having in view the calling of an assembly of representative Republicans throughout the state to adopt a platform and to recommend to the state candidates as would be most suitable and competent for the various offices in the gift of the people of our great state.

Following the adoption of the foregoing resolution, E. B. Colwell made a motion that the assembly be moved to the various parts of the state, as already outlined.

Fulton Makes Chief Speech.

The opening and chief speech of the evening was made by Charles W. Fulton, ex-United States Senator, who upon the necessity of organizing in support of the assembly plan, he said that the people who are opposing the assembly plan are in fact opposing the people's right to elect their representatives.

Recommendations Aid Voters.

Professor J. T. Gregg illustrated the necessity of recommendations being made to the voters previous to a primary election by explaining how the tenth ward of the last election had nine candidates for Councilman, and the voters were either was about 300. Then a number of disinterested men wanted to have another man nominated, and they prepared petitions for that purpose.

HOSPITAL NEEDS FUNDS

GOOD SAMARITAN'S APPEAL THIS YEAR URGENT. Growth of City Has Increased Charity Work—More Than 5000 Treated in Year.

With a record of having treated more than 5000 patients in the course of the past year, the demand for increased accommodation and the necessity of liquidating the heavy debt on the institution is the annual Thanksgiving appeal of the superintendent of the Good Samaritan Hospital to issue an urgent appeal for funds to carry on the work.

The text of the appeal, which is the only one of the hospital issues in the course of the year—the growth of Portland and the consequently heavier demands being made upon the hospital is a force that it is hoped will be answered by liberal contributions.

More than 100,000 days of treatment were bestowed on patients and of this number a heavy percentage were charity patients, while a still greater percentage paid to the hospital funds only a percentage of the cost of their stay.

When the contracts were given in cash or kind for Thanksgiving, follows. All contributions should be sent to the superintendent, who will make due acknowledgment. Who will make due acknowledgment.

Why is the Good Samaritan Hospital in need of more money than its funds? What does the hospital do with its funds? Both of these questions have lately been asked by the community.

Then, the comfort of our patients has been our chief aim. While at all times it requires an effort to meet expenses, and although we derive some profit from our private rooms, it must be remembered that the scores and scores of our ward patients do not know how they are unable to pay. They are not branded with the stigma of charity.

Some day we would like to have you visit our hospital. It is a place where we will amaze and interest you. You will see tragedy and color almost side by side.

Here is another hiding jarred to her door, and she is Episcopalian in government and distinction is ever made regarding the religious beliefs of our patients; they are not asked for any.

EMILY L. LOVERIDGE, Superintendent, Good Samaritan Hospital.

Government Officials Declare Realty Dealer Misuses Mails to Get Unwary Investors—Many Complaints Appear.

S. V. Davidor, real estate promoter with offices in the Wells-Fargo building, heading the Pacific Northwest Realty Associates, and who was sued yesterday in the Circuit Court, is also being investigated by the United States authorities.

Davidor is alleged to have used the mails for the purpose of defrauding investors. It is said by the officers of the Government that he reported to him many thousands of dollars of illicit profits.

In the name of the Pacific Northwest Realty Associates and another Davidor concern known as the Yaquina Valley Fruit & Land Company, Davidor is said to have advertised through the mails and through the fee simple of certain lands and proposed to dispose of them on the installment plan.

Davidor is alleged to have used the mails for the purpose of defrauding investors. It is said by the officers of the Government that he reported to him many thousands of dollars of illicit profits.

It is alleged that the plan was to secure investors by advertisements and by personal letters. Patrons, it is further alleged, were presented with iron-clad contracts providing that a failure to meet any payment would mean forfeiture.

When the contracts were given in cash or kind for Thanksgiving, follows. All contributions should be sent to the superintendent, who will make due acknowledgment.

Why is the Good Samaritan Hospital in need of more money than its funds? What does the hospital do with its funds? Both of these questions have lately been asked by the community.

DROPSY

Given up by Doctor

"I had dropsy, and was told by my family physician that there was no chance for me. My family also gave me up. My limbs and body were swollen one-third larger than natural, water collected around my heart and I had to be propped up in bed to keep from smothering. I took Dr. Miles' Heart Remedy until I was entirely cured. This was in 1902, and I am now able to do any kind of work on my farm. My cure was certainly marvelous."

defendant had been found guilty of failure to deposit funds of the Postal Service as required by the order of his superior which, under the law, was declared to be an embezzlement, and that the defendant had enjoyed a fair trial.

Straus is now employed at the Smith & Watson Iron Works. His attorney's position as cashier, under the law, was declared to be embezzlement, and that the defendant had enjoyed a fair trial.

Straus was for years prominent in political circles of Portland, and at one time was mentioned for appointment as Postmaster. Failing eyesight caused him to take a vacation from the duties of his position as cashier. When arrested he insisted that he was not guilty of the crime alleged and that "the truth would be set forth, after a denial of any wrongdoing."

\$10,351,027 in Gas Rebates Paid. NEW YORK, Nov. 24.—What is believed to have been the largest and most comprehensive bookkeeping feat on record has been completed by the payment of \$10,351,027 to gas consumers entitled to a rebate of 25 cents on the time the 30-cent gas bills, between the time the 30-cent gas was enacted and when it was declared unconstitutional.

The task included the auditing of 1,250,000 vouchers and the drawing of a check for each.
