COOK COLLAPSES

Labor of Preparing Report and Schemes of Enemies Responsible.

ATTEMPT TO STEAL RECORD

Explorer Warned in Time, Sends Secretary With Dummy After He Has Sent Real Document to Copenhagen.

NEW YORK, Nov. 26 .- Dr. Frederick A. Cook is reported to have suffered a nervous breakdown, and his condition is such that not even his closest perresponsible to the close that not even his closest personal friends are permitted to see him. The work of preparing and annotating the records by which he expects to prove that he discovered the North Pole is said to be responsible for his condition. He came into the city Wednesday. afternoon from the suburban hotel where he had been at work for several weeks, and consulted specialists. His condition was reported to be such that he was hurried to the home of a friend in this city, where he has since remained in seclusion.

An attorney representing Dr. Cook announces today that the sailing of Waiter Lonsdale, Dr. Cook's secretary, on the steamship United States, with a large portfolio, was a subterfuge, and that Dr. Cook's data really started for the city of Copenhagen several days ro on a much faster steamer. The portfolio which Mr. Lonsdale car-

ried was only a dummy to trap the con-spirators who have resorted to every means to gain possession of Dr. Cook's data, said the expiorer's attorney. "I am convinced that an effort will be made to rob him of the package which he has in his possession before

which he has in his possession before the steamship reaches the other side," said the attorney.

Persons in Dr. Cook's confidence declare that his detectives learned that two men and a woman took passage on the United States to gain possession of the data which they believed Mr. Lonsdale would carry to Copenhagen. It is said Dr. Cook received a letter several days ago from a acientist, informing him that an effort would be made to obtain the records.

COOK IGNORED BY ROOSEVELT

Ex-President Congratulates Peary on Discovery of Pole.

NEW YORK, Nov. 26 .- A letter from NEW YORK, Nov. 25 - A letter from Theodore Roosevelt was received by Sec-rotary Bridgman, of the Peary Arctic Club, today, replying to the cable un-nouncing that Commander Peary had reached the North Pole, as follows: "On Safari, North of Mount Kenia, Sept.

22, 1909.-Dear Mr. Bridgman: Your cable has just been brought me by a native run-ner here in my camp by the Guaso Nyiro. I am writing Mrs. Peary and to Captain Peary—I have no idea where he is. I am inexpressibly rejoiced at his wonderful triumph and proud beyond measure as an American that this—one of the great feats of the ages-should have been performed by a fellow-countryman of ours. It is the great feat of our generation. We are Captain Peary's debtors, all of us who be long to civilized mankind. Faithfully, "THEODORE ROOSEVELT."

TRIP TO' ARCTIC ARRANGED

Professor McMillian Will Lend Expedition in Peary's Tracks.

FREEPORT, Me., Nov. 26.-An expedition to explore Crockett's Land, the ter-ritory discovered by Commander Peary in his dash for the North Pole, will start next July, according to Professor Donald B. McMillan, one of the Peary party, Professor McMillan says he will give up teaching and make Arctic explorations his

TWO RESCUED OFF WRECK

(Continued From First Page.) that the current would send the big craft careening down the river.

Fireboat to Rescue.

After three hours the fireboat George H. Williams, having been notified of the accident by a telephone message from a resident of Sellwood, who had heard the whistle calls of distress, reached the scene, but was unable to handle the tow, and the steamer M. F. Henderson was called on for assistance. The disabled ferryboat, the John F. Caples, was then towed to a place of safety. The ferry, owing to the damage sustained in the collision and the flood, will be out of

commission for several weeks. Crest of Flood Passes.

Last night the crest of the flood had passed Portland and the Willamette River was falling rapidly. The Weather Office estimates that the river will be below 20 feet by tonight. The gauge showed 22.2 feet at 7 o'clock Friday morning and at 1 o'clock had climbed only I of a foot. It remained stationary until dark, when there was a slight fall The river is falling.

Big Log Jam Breaks.

At 10 o'clock Thursday night the five lografts which had been jammed at the Madison-street draw pier let go with a rumble and roar that could be heard for several blocks. The watchman of the steamer Joseph Kellogg was on the lookout and when the jam broke he sounded the alarm by continued blasts of the Bridge tenders were promptly notified but were helpless. Luckily the larger portion of the rafts went safely through and only small jams formed at the different bridge piers. These were loosened up during the day.

All trains on the Harriman system were moving as nearly on schedule yesterday as it was possible. In many places the track is eoft and in others the water from the freshet has covered the track. This condition exists for a distance of about one mile near Oregon City, where all trains on the main line of the Southern Pacific yesterday ran through 18 inches of water. The operation of these trains under the conditions was possible only from the fact that all of the engines used on that road are oil-burners, in which the oil-burning machinery is considerably higher above the ground than is the fire-box in the old coal-burners.

Yaquina Trains Are Delayed.

The Harriman people were having their greatest trouble yesterday trying to maintain a service on the Corvallis & Eastern

was so badly damaged in three places yesterday that transfers had to be made. General Manager O'Brien said last night that the reports he had received indicated that all trains would be running on sched.

ule not later than tonight. At Vancouver the Columbia River was 15 feet 6 inches above low water last night, having risen two inches in the last 16 hours. The Columbia River at Vancouver is now several miles wide. Vancouver is now several miles wide.
At Oregon City the Willamette was receding rapidly last night. The locks may reopen Sunday, and the entire plant of the Crown-Columbia Puip & Paper Company is expected to resume Monday. Mill C, of the Willamette Pulp & Paper Company, will start up Saturday night, and Mill D soon after. Mill A will resume Monday or Tuesday. The machine-room of the Hawley Pulp & Paper Company will start Monday and the pulp mill within a day or two after. a day or two after

Draw Rest Is Disabled.

I wenty feet of the north draw-rest of Twenty feet of the north draw test the Steel bridge gave way suddenly early last night under pressure of a raft of logs, and joined the mad rush of logs, planks, boathouses and other objects own the river.

Thursday night and all day yesterday, as objects would strike the supports of the bridge, a distinct shock, causing un-casiness on the part of bridge-tenders and pedestrians, occurred. A rumor became current yesterday that the Steel bridge is unsafe, but this is discredited Numerous persons living in Albina took cars over the Burnaide bridge and walked down to Williams avenue and took the car last evening.

Horses Are Rescued.

Four horses, hemmed in on a small Four horses, hemmed in on a small peninsula at the foot of Curry street in South Portland, owned by the M. C. Ban-field Fuel Company, almost starved for lack of food for two days, wer rescued by Humane Officer Sergeant Crate and four heipers yesterday afternoon. The peninsula is used as a pasture by the fuel company and the horses were cut off from land Wednesday night by the rise of the river. At 10 o'clock last night water several feet deep covered the land. A rowboat was secured by Sergeant Crade and the horses were made to swim across the channel to the landing.

Arrangements have been made for a survey of the British bark Gulf Stream, which parted her lines Thursday and went adrift in the lower barbor. The Gulf Stream was towed to the North Pacific dock yesterday and she will be surveyed by Captain Crowe this morning. It is probable that she will be placed on the drydock as soon as the Rainier comes off.

Lewis River Falling.

The Lewis River, which has been near the danger point for ten days, is receding. Similar reports come from other Southwestern Washington points.

The Willamette receded gradually at Albany yesterday, but is yet at 21% feet above low water, it is a noticeable feature of the present flood that the swollen waters in the Willamette, Santiam and other givers in this part of the state have fallen more slowly than in any former flood in many years.

More Showers Predicted. Cloudy, with showers and light southerly winds, are predicted for to-day. The rains, however, will not have any effect on the river. The temperature is considerably less than during the first five days of the week, and the cold will sten the median of any snow cold will stop the melting of any snow which may be left in the foothills. The barometer is rising, and at 5 o'clock last evening stood 30.07 (reduced to sea level). California will enjoy fine weather for the next few days.

WILD MAN IS CAPTURED

TERROR TO CALIFORNIA COM-MUNITY NOW IN JAIL.

Emilie Badoni, 50 Years Old and Wearing Long Hair, Caught While Sunning Self.

UKIAH, Cal., Nov. 26.-Emilie Badoni, known in this section as "The Wild Man of Hopland." was captured last night by Constable Orr, of Cloverdale, and Game Wardens Lee and Miller, who brought alm to this city.

Badoni has lived in a cave near Coinsky Station eince last May, and bad spoken to anyone for many months. Dur-ing this time he has lived on sheep he has killed and food taken from cabins in

the neighborhood.

Badoni was found by the officers sunning himself on top of Squaw Rock and was captured before he could offer any resistance. Three rifles lay beside him and in his pocket was a loaded pistol. His cave was littered with watches, guns and various other articles he con-

wears long hair and beard, his appearance being in keeping with that of the traditional "wild man." He does not appear to be insane. To the officers he be was tired of living and did not care if he was hanged.

GAS MACHINE IS BLAMED

St. Croix Engineer Smelled Ammonia Before Fire Broke Out.

SAN FRANCISCO, Nov. 26.—The inquiry into the loss of the steamship St. Croix, destroyed by fire Saturday night near Santa Monica, began today before United States Steamboat and Boller Inspectors

Boiles and Bulger. Chief Officer Frank Milt, who was the first to reach the scene of the fire, testified that on opening the door of the second cabin, where the fire is supposed to have originated, he was confronted by a thick cloud of smoke, but did not see any flames. Milt declared that he was driven out of the cabin by smoke, and, leaning against the forward bulkhead,

discovered that it was hot.

Near this builthead considerable fiquor was stored, and Milt expressed the belief that the fire might have originated there had a key to the liquor locker, will be called later.

called later.

Chief Engineer Charles E. Lowe, the last of the officers of the steamship called to the stand today, testified that he smelled ammonia five minutes before he smelled ammonia five minutes before the alarm was given. An investigation, which he made in the engine-room while the fire was in progress, disclosed a broken nipple on an ammonia gas re-

CONBOY'S BAIL IS \$15,000

Former San Francisco Chief Gets Temporary Fredom.

FIRE ON ST. CRUIX BAFFLES EXPERT

Searching Federal Inquiry Fails to Throw Light on Way Flames Started.

LIGHTING MAY BE BLAMED

Third Mate's Statement That Liquor Locker, Through Which Wires Passed. Was Ablaze, May Help Solve Mystery.

SAN FRANCISCO, Nov. 26 .- The origin of the fire that destroyed the steamer St. Croix off Point Duma on November 20, imperiling the lives of more than 100 passengers and the crew, is as much a mystery as ever, although hearly every officer of the vessel, several members of officer of the vessel, several members of the crew and some of the passengers were put through a searching examination today by Federal Inspectors of Steam Vessels John K. Bulger and O. F. Bolica. Every question asked by the inspectors was framed with the object of eliciting-information that might indicate the cause of the disaster, but not a statement was made that seems to throw any light on made that seems to throw any light on

the subject.

Acting upon a letter received from Los Angeles, Bullger called Martin Nett, an oller, as one of the first witnesses. The letter said that Nett had made a statement in the Southern city that he had an idea how the fire started. Nett denied that he had ever made such a statement and could add nothing to the knowledge of the fire already obtained. From the statement of Third Mate Harry Warner that the fire appeared to be in the vicinity of the liquor locker and that some of the electric wiring of the ship passed through the locker, it the ship passed through the locker, it is possible that a conclusion as to the cause of the blaze may be drawn. Warner said that on a former occasion the fuses had blown out and the ship had been in

ROBBER KILLED IN FIGHT

The examination will be continued to-

Sheriff Seriously Wounded by Men Who Had Wrecked Safe.

BEMIDJI, Minn., Nov. 26.—A robber, whose name is said to be "Jim" Smith, was killed and Deputy Sheriff Andrew Johnson was perhaps fatally wounded to day in a fight between officers and two robbers, who had blown a safe in the village of Puposky, 17 miles northwest of here.

Word was received here from Puposky that the robbers were going toward Bem-idji on a railway speeder. Sheriff Hazen, Deputy Sheriff Johnson and Policeman Allen Benner went to the Great Northern oridge, a mile west of Bemidji, to watch

bridge and walked toward Hazen and Johnson, who were concealed at the south end of the bridge. When the men had approached within 10 feet of Sheriff Johnson, he ordered them to halt and was shot. In the ensuing fight the robber supposed to be Smith was

W. A. CLARK IS ANTI-TRUST

Prefers, Himself, to Work as Individual, Says ex-Senator.

NEW YORK, 'Nov. 26 .- "Too much oming in, and not enough going out; European consumption of copper is not keeping pace with American production," said ex-Senator William A. Clark today, as he stepped from the gangway of the inbound steamer Mau-retania. "It is true, copper is selling too low, but over-production is respon-sible. The normal price should be 15 cents: 13-cent copper is too cheap." Informed of the recent decision gainst the Standard Oil Company, Senator Clark said:

"I'm not surprised. I never believed in large corporate aggregations of cap-ital, and for myself I have always preferred to work as an individual.

BRIAND REPLIES TO ABBE

Catholic Attitude Against Compromise, Says French Premier.

PARIS, Nov. 26.-Premier Briand, in the Chamber of Deputies today, replied to a speech of Abbe Gayraud, member for Finisterre, who had defended the or Finisterie, who had defended the action of the episcopate concerning the public school question and had voiced the sympathy of Catholics for the Pope. "You are being forced into an attitude that has become so harmful to this country at home and abroad that your consciences as Frenchmen should speak louder than your consciences as Catholics" the Premier declared. "Warfare ica" the Premier declared. "Warfare seems to be essential with some people. It is now war of the schools. You speak of the possibility of arriving at a peac ful compromise, but do you think the present attitude of Catholic leaders is conductve to this end?"

1500 PURSUERS DEFIED

Man Who Slew Reader in Public Library Caught by Strategy.

BUFFALO, N. Y., Nov. 25.—Charles Siroht, a baker, walked into the reading room of the Buffalo Public Library today and shot and killed Franz Stantz. The murderer rushed out of the building and turned into an alley, exchanging shots with his pursuers one shot striking an

with his pursuers, one shot striking an officer in the hand.

By this time 1500 people had gathered. Stroht, taking shield behind a brick wall, held the crowd at bay 15 minutes. Finally, after the police had fired 40 or 50 shots, they executed a flank movement and Stroht was caught. Stroht was caught.

Ex-Postmaster Now Under Arrest. SALT LAKE CITY, Nov. 26.-Following a grafid jury indictment in three counts, charging him with rifting mall and destroying Government property. ETIQUETTE HALTS BAND

MEXICAN CONSUL PRIVILEGED TO HEAR FIRST STRAINS.

Police Sent For to Stop Music Tactfully Converted Into Visitors' Escort.

CHICAGO, Nov. 26.-What threatened constitute a tangle of international reations marked the arrival of the Mexican National Band in Chicago. The band, recognized as one of the leading musical organizations of America, is to give concerts afternoon and evening in the Collseum until the conclusion of the Land and Irrigation Exposition on De

comber 4.

The band, numbering half a hundred, arrived over the Rock Island. Just after e musicians had climbed down to the station platform at the end of a long transcontinental journey, officials of the Rock Island Road suggested that they play a piece or two in the station.

Piccolos and tuba were carefully unpacked and the strains of the Mexican

ational air would soon have been wafted into the smoke-laden atmosphere of the station when there came an unexpected interruption The secretary of the Mexican Consulate n Chicago, Fernando Serrano, rushed on

Consul Comes First. "Hold!" he cried in tones that were

anything but planissimo.

And not a band man tooted.

"This would be one terrible thing."
explained exictedly. "You play here

where is located the Mexican Consulate, presided over by Augustine Pipa. Up the elevator shafts the musicians were hur-ried, and when they had gathered about the door of the Consulate they began to play. It was music such as Chicago seldom hears.

And an unusual incident went before The manager of the Monadnock block learning that the band would play there, called for an extra detail of police, determined that the other occupants of the building should not be disturbed by the salute for the Mexican Consul.

Police Act as Escort. But as luck would have it, the band train got in ahead of time and the musicians were playing away before the

police squad arrived. With more tact than is generally ex pected in such instances, the police were instantly converted into an escort body lined up at the doors, and waited for the acted as an escort while the musicians were taken to the Lexington Hotel at Michigan avenue and Twenty-second street, where they will stay during the
