The most ambitious number given was the Beethoven trio in B-flat, op. 97. a composition dating from 1776-1527, and in four gorgeous movements—allegro moderato, scherzo-allegro, an-—allegro moderato, scherzo-allegro, andante cantabile, and allegro moderato. All the motifs received artistic finish, the most especially pleasing being the slow movement with its unsurpassed song themes. The two Greig themes and the Brahms number were splendid. The Liszt and Saint-Saens selections were splendidly rendered, the general, excellent ensemble effect suggesting more power than that of a trio of planoviolin and 'cello, played respectively violin and 'cello, played respectively by Alf Klingenberg, Henry L. Bettman and Ferdinand Konrad. The Smetana trio in G-minor is a novelty here. All the numbers were received with

Stomach Stops

Working Properly, Because There Is Wind In It, Use Stuart's Dyspepsia Tablets to Set It Going Again.

A Trial Box Free.

THE DOCTORS call it flatulency, but THE DOCTORS call it flatulency, but unprofessional folks know it as "wind on the stomach," and a most distressing state of things it is. It is a serious condition of this great motor organ. Always annoying and painful in the extreme, at times often leading to bad and fatal results. The stomach embarrassed and hampered with wind, cannot take care of its food properly and indigestion follows, and this has a train too appailing to enumerate. The entire system is implicated—made an active or passive factor in this trouble and life soon becomes a questionable and life soon becomes a questionable

ALL THIS IS EXPLAINED in doctor ALL THIS IS EXPLAINED in doctor books; how undigested food causes gasses by fermentation and fomentation in which process some essential fulds are destroyed—burnt up—wasted by chemical action, followed by defective nutrition and the distribution through the alimentary tract of chemically wrong elements and as a consequence the stomach and entire system is starred. Plants ach and entire system is starved. Plenty of food, you see, but spoilt in preparation and worse than worthless.

A DERANGED STOMACH is the epitome of evil; nothing too bad to emanate from it, but the gas it generates is probably its worst primary effect and the only way to do away with this is to remove the cause. STUART'S DYSPEP-SIA TABLETS TO THE remove the cause. STUART'S DYSPEP-SIA TABLETS go to the root of this trouble. They attack the gas-making foods and render them harmless. Flatulency or wind on the stomach simply can not exist where these powerful and wonder-working little tablets are in evidence. THEY WERE MADE for this very purpose to attack gas-making foods and convert them into proper nutriment. This is their province and office. A whole book could be written about them and then not their province and office. A whole book could be written about them and them not all told that might be told with profit to sufferers from this painful disease, dyspepsia. It would mention the years of patient and expensive experiment in effort to arrive at this result—of failures innumerable and at last success. It would make mention of the different stomach correctives that enter into this tablet and make it faithfully represent all.
