## RELATIONS WITH NICARAGUA ENDED

have ceased in Nicaragua to exist except in name, that public opinion and the press have been throttled, and prison toward real patriotism. My consideration for you personally impels me to unnecessary discussion of the painful details of a regime which unfortunately has been a blot on the history of Nicaragua and a discouragement to a group of republics whose as-pirations need only the opportunity of free and honest government.

"In view of interests of the United States and of its relation to the Washington conventions, appeal against this situation has long since been made to this Government by a majority of the Central American republics. There is now added the appeal, through the revolution, of a great body of the Nicaraguan people.

#### Two Americans Killed.

"Two Americans, who, this Government s now convinced, were officers con-lected with the revolutionary forces and therefore entitled to be dealt with ac-cording to the enlightened practice of civilized nations, have been killed by direct order of President Zelaya. Their execution is said to have been preceded by barbarous cruelties. "The Consulate at Managua is now

officially reported to have been menaced. There is thus a sinister culmination of an administration characterized by a criselty to its own citizens, which has, until the recent outrage, found vent, in the case of this country, in a succession of petry annoyances and indignities which many months ago made it impossible to ask an American Minister longer to reside at Managua.

side at Managua.

"From every point of view it has evidently become difficult for the United States further to delay more active response to the appeals so long made to its duty to its citizens, to its dignity, to Central America, and to civilization.
The Government of the United States is
convinced that the revolution represents
the ideals and the will of a majority of the Nicaraguan people more faithfully then does the government of President Zeiaya, and that its possible control is well nigh as extensive as that hitherto so sternly attempted by the government

#### Anarchy Grows Apparent.

There is now added the fact, as offi-"There is now added the fact, as officially reported from more than one quarter, that there are already indications of a rising in the western provinces in favor of a presidential candidate intimately associated with the old regime. In this is it easy to see new elements tending toward a condition of anarchy which leaves, at a given time, no responsible source to which the Government of the United States could look for reparation for the killing of Messrs. Cannon and Groce, or, indeed, for the protection which must be assured American citizens and American interests in Nicaragua.

or in these circumstances, the President no longer feels for the government of President Zelaya that respect, that confidence, which would make it appropriate hereafter to maintain with it regular diplomatic relations, implying the will and the ability to respect and assure what is due from one state to another these circumstances, the President

what is due from one state to another,
"The government of Nicaragua, which
you have hitherto represented, is hereby
notified, as will be also the leaders of
the revolution, that the Government of
the United States will hold strictly accountable for the protection of American life and property the factions de facto in control of the western portions of the Republic of Nicaragua.

## Reparation Must Wait.

"As for the reparation found due, after careful consideration for the killing of Messrs. Groce and Cannon, the Government of the United States would be loath to impose upon the innobent people of Nicaragua a too heavy burden of expiating the acts of a regime forced upon them, or to exact from a succeeding government. If it have quite different poleroment.

ernment, if it have quite different policies, the imposition of such a burden. "Into the question of ultimate reparation there must enter the question of the existence at Managua of a government capable of responding to demands. The question how far it is possible to question how far it is possible to reach those actually responsible and those who perpetrated the tortures reported to have preceded the execution, if these be ver-ified, must enter, as well as the question whether the government be one entirely disassociated from the present intolerable conditions and worthy to be trusted to make impossible recurrence of such acts. The President, as a friend of your country, as he is also of the other republics of Central America, might be disposed to have indemnity company. have indemnity confined to what was reasonably due the relatives of the de-ceased and punitive only in so far as the punishment might fall where really due.

## Future Must Be Safeguarded.

"To insure the future protection of legitimate American interests in consideration of the interests of the majority of the Central American Republics, and in the hope of making more effective the friendly offices exerted under the Washington conventions, the Government of the United States reserves for further consideration at the proper time the question of stipulating also that the con-stitutional government of Nicaragua ob-ligate itself by convention, for the benefit of all the governments concerned, as a guarantee for its future loyal support of the Washington convention and its peaceful and progressive aims.

"From the foregoing it will be apparent to you that your office of Charge d'Affaires is at an end. I have the honor to enclose your passports, for use in case you desire to leave this country. I would add at the same time that althoust your dislomatic country that although your diplomatic quality is ter-minated. I shall be happy to receive you, as I shall be happy to receive the repre-sentative of the revolution, each as the imofficial channel of communication be-tween the Government of the United States and the de facto authorities to whom I look for the protection of Amer-lean interests pending the establishment in Nicaragua of a government with which the United States can maintain

diplomatic relations.

"Accept, sir, the renewed assurance of high consideration. (Signed) P. C. Knox. "To Felipe Rodriguez, Esquire."

revealed by these reports have never been made public because the moral turpitude involved is almost beyond belief. While these reports are still withheld from publication, officials of the Department of State have disclosed enough to show that a condition of absolute despotism has existed in Nicaragua with accompaniments such as rapine, murder, extortion and barbarous treatment of political unknown since mediaeval times.

As Secretary Knox said in his letter other Central American republics have protested in vain against conditions in Nicaragua, but the State Department has felt loath to violate its old traditions of noninterference in the internal affairs of other nations, and probably would have refrained even now had not Zelaya gone to the length of torturing and killing two Americans engaged in honorable war-

## Zelaya Only Brigand.

In answer to the department's demand for an explanation, Zelaya's agents simply stated that the executions were in accordance with the law of Nicarague, but the State Department finds that that law is Zelaya, and that the action was in vio-lation of all rules of civilized warfare.

Realizing that no actual government exists in Nicaragua, the department neces-sarily arrived at the conclusion that Ze-laya is only an international brigand. and must be so treated. He must be held responsible for the killing of these two Americans as if he were a private indi-vidual, and it is probable that he will be captured in Nicaragua or reclaimed from any country to which he attempts to es-cape, if an extradition treaty can be invoked, and tried as a comm

## Diaz Deciding Force.

It is believed that President Diaz of Mexico was the deciding force in this matter and that it was because of energetic declarations by him of the guilt of Zelaya and the necessity for intervention, received in Washington within the last 24 hours, that the State Department reached its decision.

In the ordinary course this Government a heavy monetary indemnity to the fam ilies of the victims of Zelaya's edict. But as Secretary Knox clearly indicates in his letter, it is not the purpose of the American Government thus to tax the great majority of the Nicaraguan people who did not sympathize with Zelaya's action.

There was, however, little evidence at the Nicaraguan legation of so profound a out today in the trial of the six former employes of the company charged with defrauding the Government by underweights.

David Fragner, a customs inspector, and once an assistant Government weigher, said that at a busy time two trucks a minute passed over a single set of scales or eight to 10 on the four sets used. Each truck weighed half a ton and each half ton, the Government will contend, was weighed 13 pounds short by the secret manipulations of Government employes, who, it is charged, were paid cash by the sugar NEW YORK, Dec. 1.—Nicaraguan resi-tents of New York in sympathy with the insurgents are celebrating news from Bluefields that the fruit steamer Stav-angeren had landed there a cargo of arms ompany for the evasion of customs

If the game ran properly the Government stood to lose its duties on 5880 pounds of sugar every hour.

As this steady flood of trucking rolled across the scales, the checker who stood next to the weigher was too busy, said Fragner, to watch him. John J. Longhren, a checker, was asked if all of the entries to which he certified represented weights he had seen the weigher find.
"Not all," he admitted. "Sometimes I had to be away."

It is understood that Mesers Winchell and Yoakum have as their associates in the deal some of the leading capitalists of the Middle West, including Adolphus Busch and Festas J. Wade, of St. Louis, as well as the Union Trust Company of that city.

Despite denials, the current belief is that the Frisco will form some alliance with the lines of Edwin Hawley, the newcomer in the railroad world, who recently acquired, with B. F. Yoakum, control of the Missouri, Kansas & Texus. At the same time the relations of the Frisco and the Rock island are to be friendly and for the benefit of both.

INTERVENTION NOT PLANNED

Interstate Commerce Commission Takes No Cognizance of Merger.

WASHINGTON, Dec. 1 .- If Federal intervention has been planned to accomplish the disassociation of the Rock Island and San Francisco lines, such a movement did not have its inception in the Interstate Commerce Commission. Comissioners tonight said that the com-bination of the Rock Island and the San Francisco lines had not been discussed

by that body for three years.

Members of the commission are of the opinion that B. F. Yonkum and B. L. Winchell have acquired the San Francisco, not with the idea of a positive Hawley system, but to round out a south-

western system of their own. Mr. Yoakum is interested in the development of the Southwest, and by get-ting back his San Francisco, it is said he hopes, with the connection with the seaboard line at Birmingham, to carry a large portion of the traffic that now goes through St. Louis.

Caruso, the greatest tenor who has ever lived, has just returned to America, after having taken the European musical capitals by storm.
