of the greatest of world-famed orches tral conductors and his men partici-pate from the platform in the ovation accorded a soloist, applauding with the audience, yet this is just what hap-pened in New York when the New Theater was opened recently with Kreisler as soloist.

After Kreisler had finished the great concerto of Beethoven, Walter Damrosch, the conductor, and his men, members of the New York Symphony Orchestra, applauded from the stage. Such spontaneous applause from those who might well be expected to be blase and cold to all except that which emanates from extraordinary genius, is convincing proof of the wonderful power that Kreisler exerts over his hearers

The property consists of one of the largest mills on Puget Sound and the largest mill in Seattle, and has 500 feet of water frontage on the East Waterway. The property runs back from the water front a distance of 400 feet of 460 feet.

"I have been wanting to get a mill-in Scattle for some time," said Mr. Wilcox last night. "It was for this purpose primarily that I made this purchase. Sea tle has now become so big that it is necessary for us to have a mill there. W cannot stay out any longer. First I bought a location there with the intention of building, but that led up to the purchase of the present Hammond properties. Now we will hardly improve the location which we first purchased for milling purposes.

'We are now building in Portland a new plant to handle an output of 2000 barrels a day. While we are not able to handle all the business which we could have had it not been for the fire, we have 14 mills running day and night, and are handling a fairly large output right along. The Seattle mill will allow us to handle many more orders for the present, and will enable us to enlarge our business greatly in the future."

There are 60 children on hand at the Receiving Home of the Boys and Girls Aid Society and, out of this number, 37

As usual, at this time of the year, the society has few calls for children, as in the Spring and Summer, hence, there is a good chance now for any person desir-ing a boy to raise, to choose from a large number. The youngest boy is 4 years old and the oldest 17. The older boys, of course, can be taken either for wages, or for board and clothing and sent to school. Superintendent Gardner says there is one boy in the number who would make good in a grocery store, or in a private board-ing-house as elevator boy or porter. Then there are other boys for whom places on farms are earnestly desired.

Hans Mathieson, a Norwegian and friend of the prisoners, is the complain-ant against Stromgren.

Of the girls, there are a number from 6 to 12 years of age, for whom homes in private families are desired. Applications for any of these children will be thankfully received and acted upon by applying to the Receiving Home, on the corner of East Twenty-ninth and Irving street, or by calling phones East 5, or B 1404.
