MINISTER SPEAKS AGED

Rev. John Flinn, 92 Years Old, Re cites Entire Chapter of Bible From Memory, Having Forgotten His Spectacles-Other Meetings.

Unable to read without his spectacles and reciting a chapter of the bible from memory, Rev. John Flinn, 92 years old, was the principal speaker last night at the first of a series of five consecutive services celebrating the 25th anni- | versary of the founding of Grace Methodist Episcopal Church, Twelfth and Taylor streets.

Rev. John Flinn, said to have preached the second sermon ever de-livered in Portland, and termed "the grand old man of Northwest Metho-dism," delivered a short but feeling ad-

This famous organization will furnish music-lovers and theater-goers in general a most novel programme.

#### Orpheum Has Excellent Bill.

Harry Fox and the Milierahip alsters are responsible for much mirth and some exceptional novelty dancing at the Orphouni this week. Mr. Fox introduces several good songs and his line of breezy conversation brings forth volumes of laughter from the addience. The young ladies are attractive and their dances are all graceful and well executed.

#### Woman's Terrible Plunge.

On a 80-pound bicycle Carlotta takes a terrible plunge at every performance this week at the Grand. She loops the loop at lightning speed and lives to tell the tale. This is the only woman who has successfully accomplished this death-defying feat in a vaudeville theater. So big is the act that the theater had to be altered to permit the use of the apparatus.

#### Pantages' Fine Bill.

A vaudeville that is well worth a long tramp to see is on the beards at Pantages this week. Among the many excellent acts are the delightful English society entertainers, Keene and Adams, and Coyne and Tinlon, master acrobats. While very different, both acts serve the same end, in other words, are splendid entertainment.

"Any householder who cannot afford to pay 75 cents a month for Bull Run water had best-not keep house," is the opinion of Mayor Simon, "It is absurd to think of any one paying only 30 or 40 cents al month for such a pure supply of water, and the rates will centainly be advanced. I think it will meet with the general approval of the public, for I feel sure that everyone is willing to pay at least 75 cents for a month's supply of this water."

willing to pay at least 75 cents for a month's supply of this water."

The rate for next year, however, is not the question that is agitating the Mayor, and Commissioners Wilcox, Ainsworth and Mackay. How to get contractors to bid on laying water mains, is the big issue. Mayor Simon and the members of the board believe it will all be settled when the people have an opportunity within the next two months to vote on the proposed change in the system of paying for change in the system of paying for

these mains.

Under the present system all mains under 10 inches in diameter are installed at the cost of the abutting property, this being the law voted by the people, but apparently without the knowledge of the result. It has been found impossible to get contractors to bid on the work with this plan. tors to bid on the work with this plan, as they fear they cannot collect. Scarcely any pipes have been installed since the law took effect, and the board has virtually abandoned hope of dong anything while it is in effect.

#### Former System Favored.

Mayor Simon and the members of the board, as well as many others, favor returning to a system similar to that which was in effect when the present law was in effect when the present law was voted. Then, all mains were laid at the expense of the water fund. It is the purpose of the Mayor to sub-mit a proposed amendment to the electorate, probably in February, changing to a plan whereby every main will be

to a plan whereby every main will be laid from water receipts and from the bend issue already voted.

Owing to the fact that it is planned to lay not less than 90 miles of hard-surface streets, next Summer, it is of the utmost importance, the Mayor declares, that such an amendment to the charter be passed. Otherwise, he states, it is going to be impossible to get any pipe laid, and he will not permit pavements to be laid shead of the water mains, as it is his firm determination to minimize the cutting of these pavements.

Removal of the 5000 rose plants from the Park blocks, where they were planted two years ago by the people of the city, called forth general indignation from the members of the Portland Rose Society, at its meeting in the Commercial Club last night and the Park Board was criticised severely for its action. The meeting Under the meter system now in vogue the rates are so low that they are characterized as absurd, it costing only 30 or 40 cents a month in many instances, and in nearly every case the price is reduced one-half. People who used to pay \$1 a month frequently escape with one-third that sum or even less. The revenue has thus been greatly lessened, and it is certain that this will be remedied, and everyone will have to pay at least 75 cents a month for water. for roses, as requested, the society will favor making it the place in which to plant the roses that are expected from foreign countries. A block as near the center of the city as possible is desired

A suggestion made at the meeting by Walter Seaberg, that the Park Board be asked to set aside one of the park blocks to be devoted entirely to the cultivation of roses, was received with approval.

The following executive committee was in his stead.

Fifty new members were admitted. It is hoped to increase the membership during the next year to 2500.

A meeting was held last night, also by the Pennizula Rose Carnival Association, and a committee was appointed to begin active soliciting for funds for next year.

This committee consists of H. G. Sibray chairman; S. T. Kilpatrick, R .G. Brand and M. H. Carter.

This association is planning to keep a band at the Union Depot during the car-nival next year and to provide roses to incoming passengers, just as it did last year, in addition to which it is planned to increase the association's display of flowers. #### SECRET WORKER

The Plan Upon Which Coffee Operates Coffee is such a secret worker that it is not suspected as the cause of sick-ness or disease, but there is a very sure way to find out the truth. A lady in Memphis gives an interest-ing experience her husband had with coffee. It seems that he had been using It for some time and was an invalid.

The physician in charge shrewdly suspected that coffee was the "Worm at

the root of the tree," and ordered it dis-continued with instructions to use Postum regularly in its place. The wife says: "We found that was the true remedy for his stomach and heart trouble and we would have gladly paid a hundred times the amount doctor's charge when we found how wise his judgment was.

The use of Postum instead of coffee was begun about a year ago, and it has made my husband a strong, well man. He has galpet thirty-five pounds in that time and his stomach and heart trouble have all disappeared. "The first time I prepared it I did not boil it long enough and he said there was something wrong with it. Sure

enough it did taste very flat, but the next morning I followed directions carefully, boiling it for fifteen minutes, and he remarked 'this is better than any of the old coffee."
