SIMON BUYS BONDS

Mayor Gets \$26,500 of Improvement Issue for City.

NO COMPETITORS APPEAR

Executive Disagrees With Kavanaugh, Who Holds Competition Is Required by Law-Dr. Mack's Salary Restored. *

Mayor Simon appeared before the ways and means committee of the City Coun-cil yesterday afternoon and secured the award of \$25,500 improvement bonds, the life of which is eight years, at par and accrued interest. He purchased \$25,000 worth for the Water Board, and the balance for the police and fire relief fund.

The bonds draw 6 per cent interest.

This is the first time the city has ever secured improvement bonds without bidding against competitors. City Attorney Kavanaugh had ruled that the city must compete if it desires the bonds, but the Mayor said he could see no objecton.

F. White secured \$321,000 worth of W. F. White secured \$22,000 worth of the bonds at par, accrued interest and \$1-10 per cent interest premium. There were many bids, all for good premiums, but Mr. White's was the best. City Treasurer Werlein has \$195,000 in the treasury belonging to the improvement bond sinking fund, which he will probably put into bonds at the next sale, now that the Mayor has set the precedent,

Rushlight Sounds Caution. Councilman Rushlight raised the ques

tion that the City Attorney had ruled against the city taking the bonds without actually competing with the other buyers, but the Mayor replied that he

would not listen to such argument.
"It is my policy to give the city the best of it on all occasions," said the Mayor, "and I can see no reason why the city should not have these bonds at par and accrued interest only. If there are any left after the city gets what it wants, why, let the other buyers have

wants, why, let the other buyers have them."

The committee discussed briefly the proposition to sell \$275,000 worth of bonds for the construction of a steel fireboat and reinforcing mains for the waterfront district, and requested the engineer of the Water Board and Fire Chief Campbell to the water a report as the beauty of the man who built Kelly Butte and the man who builts. submit a report as to the best method of installing the mains and as to the neces-sity for the additional boat.

More Bonds Opposed.

Mayor Simon is opposed to the sale of any more bonds at this time, and the majority of the members of the commit-

tee will not vote to sell the bonds, it is said. If they do sell them, the Mayor will probably not execute the order for the mains and the boat, as he thinks they are unnecessary at this time.

City Health Officer Wheeler asked the committee to amend the pure-milk ordinance, so that Inspector Mack may draw his salary of \$125 a month legally. This expense was repealed inadvertently by the new measure. The committee assentthe new measure. The committee assented. Dr. Wheeler also asked for an appropriation for the installation of a laborpropriation for the installation of a laboratory, that milk may be tested by a chemical process. This will be considered by the committee when the Mayor's annual budget is taken up for discussion, we had be to two weeks. probably in two weeks

TRIP PLANS ARE MADE

Excursion From Spokane Will Arrive Here January 17.

Final arrangements for an excursion from Spokane and other Washington points to Los Angeles were completed here yesterday at a conference between the passenger representatives of the Harriman system in Oregon's neighboring state and William McMurray, general passenger agent. The first excursion of the new year will be run from Spokane January 17. The following day will be spent by the excursionists in Portland and plans will be provided for their reception and entertainment.

This will be the beginning of a series of excursions the Harriman system will run from Washington points via Port-

of excursions the Harriman system will run from Washington points via Portland and the Sunset route to Southern California for the convenience of Canadian tourists residing west of Winnipeg. For the purpose of interesting Canadians in this scenic route for reaching Los Angeles and other California Winter resorts, the railroad company will give a number of illustrated lectures in the principal Canadian towns better to acquaint the people with the advantages of the route offered.

Among the out-of-town passenger rep-

Among the out-of-town passenger representatives of the O. R. & N. attending yesterday's conference were: H. C. Munson, city passenger agent at Spokane; W. ger agent, of Seattle; and C. F. Walla Water, traveling freight agent, of Walla

NORTH BANK HEAD COMING

George B. French Due to Arrive Here Next Week.

Next Week.

Latest advices received here from St. Paul are to the effect that George B. French, the new president of the Spokane, Portland & Scattle, will arrive here early next week, preliminary to assuming the presidency of the North Bank.

The board of directors for this road was to have held a meeting at Vancouver, Wash., last Friday when Mr. French was to be elected formally as the successor of Francis B. Clarke. This meeting was not held and the directors have received no intimation of when another meeting will be called. It is probable that the next meeting will be deferred until after the sarrival of Mr. French. errival of Mr. French.

269 Soldiers on Way.

A special train, transporting the First Battalion and Batteries A and B. Second Artillery, from Fort Russell, Cheyenne, Wyo., to Vancouver Barracks, left Chey-enne yesterday afternoon. The train of 12 cars will reach this city over the O. R. & N. early Wednesday night. There are 11 officers and 25s men included in this transfer of troops which will replace a similar detachment which was transferred last week over the North Bank from Van-couver to Fort Russell.

Railroad Personals.

M. G. Murphy, general traveling pas-senger agent for the Canadian Pacific, with offices at Winnipes, was in the city

yesterday.

Waldo G. Payne, traffic manager of the Spokane & Inland Empire Railroad Company, with headquarters at Spokane, passed yesterday in Portland.

Its Success Attributed to Its "Living

Language."

SALEM, Or., Dec. 6.—(To the Editor.)—The ditorial. "The Boyish Germans," in last E. W. GROVE'S signature is on each box, 250

faction, prostrate under the iron heef of Napoleson. Pariotism was strangled by despair of national auronomy. Fichte demonstrated that a people like the Germans, speaking a livins, growing language, are influenced by mental imagery that becomes an element of force and vitality in its political and intellectual ideals; while the Latin nations, speaking a dead language, are influenced by mental imagery that is life-iess, and hence these are productive of doubt, error and sophistry in their intellectual and political conceptions. He also showed that in consequence of this vitalising power of its tanguage over its mental life, termany had within liself the power of political and intellectual rejuvenation, by training a new young manhood, along the lines of physical, moral and intellectual rejuvenation, by training a new young manhood, along the lines of physical, moral and intellectual rejuvenation, by training a new young manhood, along the lines of physical, moral and intellectual rejuvenation, by training a new young manhood, along the lines of physical, moral and intellectual rejuvenation, by training a new young manhood, along the lines of physical, moral and intellectual federal has such a course was not open to the French, since in consequence of their declared that such a course was not open to the should be complete.

It must be remembered that this remarkable conclusion was announced at the very time of Napoleon's most brilliant success, and the correctness of its reasoning will be found all the more surprising as we recall from our point of view how Germany dictated terms of peace to France in 1871. It was essentially a victory of the German schoolmaster, Germany had wisely acted upon the suggestions of Fichte sheet was defined to achieve the hearemony of Europe.

Another illustration of the correctness of Fichte sheery may be found in the results of the American-Spanish war of 1898, when the United States, another young and virile member of the Germanic family, came to blows with Spalh, another of the n

ANIMUS BEHIND REPORT

JUDGE WEBSTER SCORES GRAND JURY INDICTMENT.

Jurist Declares He Takes Responsibillty for Way Kelly Butte Is Being Conducted.

Declaring that there was animus back of the report made by the county grand jury to the Circuit Court December 2, in which the management of Kelly Butte. the county rock quarry, was severely scored, County Judge Webster Sunday night in an address before the People's

I take responsibility for the way it is being conducted."

Judge Webster further explained the establishing of the Linnton rock quarry and the recent purchase of a farm by the county 15 miles from the city.

"We propose to use that farm as a place to send our prisoners who have been sentenced for less serious offenses," he said. "We are going to make it a place where a man can be sent and still feel he is not a criminal, but merely working for our social organization to re munerate us for having offended against the law." Judge Webster's address was a plea for

a more humane treatment of prisoners with a view of making better citizens of them. He proposed as one of the means of doing this to let a man work his way

out of jail.

"First, I believe the bad criminal should be placed at Kelly Butte, and if he works well and shows a disposition to do better, send him to the Linnton quarry, then to the county farm and then o freedom," he continued.

The placing of state criminals on the

state highways to earn something for the state instead of being hired out to a stove factory at 25 cents a day, was an-other suggestion offered by Judge Web-Judge Webster also made a defense of the establishing of the new county hos-pital. He declared that every man, no matter how bad or how good, has a right to medical attention and food when ill and the more fortunate should give it to

WOMEN OPEN NEW HOME

Housewarming Reception Held at New Exchange.

A housewarming and tea was given yesterday at the new quarters of the yesterday at the new quarters of the Portland Women's Exchange, Fifth and Yamhill streets, which was also in the nature of a pretty compliment to Miss Henrietta Failing, the president of the organization, who returned from Europe Monday. Despite the storm, hundreds of women called during the afternoon.

In the receiving line were Miss Failing, Mrs. Aaron Meler, Mrs. H. W. Corbett, Mrs. Philip C. Schuyler, Mrs. Charles Scadding, Mrs. Richard Koehler and Mrs. J. B. Montgomery.

son, city passenger agent at Spokane; W. S. Skey, traveling passenger agent, of Spokane; J. Ross Nagel traveling passenger agent of Seattle; and C. F. Van degree agent of Sea

Presiding were Mrs. Lucius Allen Lewis, Mrs. I. N. Fleischner, Mrs. Sig-mund Frank and Miss Mary Failing. Assisting in the various rooms were Miss Frances Wilson, Miss Murlel Williams, Miss Evelyn Wilson, Miss Caroline Burns, Miss Hse Koehler, Miss Leila Sheiby, Miss Dorothy Morrison, Miss Isabella Gauld, Miss Hazel Dolph, Mrs. Hunt Lewis, Mrs. Frank Branch Riley, Mrs. David Honeyman, Miss Flora Fleischner, Miss Florence Wolfe and Mrs. Guy Talbot.

DR. WULLNER SINGS DEC. 15

German Artist Arrives in Portland Early Next Week.

Recent announcement that Wullner, the well-known German singer, is coming to Portland created a stir in musical circles. Dr. Ludwig Wullner will sing here Wednesday evening, December 15, under the direction of Lois Steers-Wynn Coman. The recital will be one of the extraordinary events of the season and will be given in the Masonic Temple, West Park and Yambili streets.

raft arrived in Portland in ballast, and was under charter to load wheat for Europe for Kerr, Gifford & Co. McCabe & Hamilton, stevedores for the charterers, Hamilton, stevedores for the charterers, demanded that they discharge the ballast. Brown & McCabe had a contract with the French owners to discharge all vessels belonging to them. Managers of with the French owners to discharge all vessels belonging to them. Managers of the Linnton dock stood with McCabe & Hamilton, and the boat was held up for several days. Later Brown & McCabe agreed to allow the rival stevedoring firm to discharge the L'Hermitte provided future vessels would be accorded equal privileges.

At the meeting yesterday the matter was gone over carefully, and all phases.

was gone over carefully, and all phases carefully threshed out. A lengthy letter from Mr. Jones was read and each paragraph carefully noted. It required less than half an hour to reach a decision.

OWNERS OF EUROPE RECOVER

Steamer Annie Comings Held to Be at Fault for Collision.

Blame for the collision of the towboat Annie Comings with the French bark Europe, on the Willamette River, six miles below Portland, on the night of December 30, 1967, was placed by Judge Wolverton in the United States Court vesterday on the navigators of the tugages amounting to a total of \$3078.87 were awarded to proprietors of the Europe.

In the leagthy opinion filed by Judge Wolverton, he states that the testimony shows that the Europe carried two lights, shows that the Europe carried two lights, as required by law, and that she had a watchman on board. The lights, however, were not at the required heights, and the watchman was not on the forecastle at the time of the accident, but these facts did not affect the case, as the navigators of the Annie Comings should have seen the lights and known should have seen the lights and known

what they meant.

The Annie Comings is the property of the Western Transportation Company, in whose name the sult was brought. The Europe was delayed 18 days as a result Europe was delayed 18 days as a result of the accident, and left port by filing a bond of \$41,000. Whether the Europe is entitled to a return of the money laid out for the bond is a matter Judge Walverton will further determine later.

G. FREIWALD SELLS THIRD AND FLANDERS SITE.

Property Brings \$36,500-Bought Six Years Ago for \$21,000. Otto W. Nelson, Buyer.

Otto W. Nelson has purchased as a site for a three-story building to be erected for business purposes in the early Spring a lot located at the southwest corner of Third and Flan-ders streets. The property, 50x100 feet, was bought from G. Freiwald for \$36,500. The sale was negotiated through the agency of the E. P. Mall Company.

The sale represents an increase in property values which has kept pace with the growth of the city and which at all times paid a good return on the original investment in rentals. Mr. Freiwald bought the corner six years Freiwald bought the corner six years ago for \$21,000. It is at present improved with a two-story frame structure in poor repair, which, however, nets \$250 a month in rentals, or over eight per cent on the purchase price. Mr. Nelson will remove the old building and replace it with a modern three-story brick structure for stores and rooming purposes. He has, it is said, already been offered a good profit on his investment which he declined.

DIMICK AND HIGH TAXES

Mr. Chapman Returns to the Fray and Talks of Clackamas' Debts.

Portion of Government Works.

Lincoln Rock Light Station, which was partially destroyed during the gale of November 27, has been placed in an habitable condition and the light is now burning. A force of workmen, under the direction of Assistant Engineer Warrick, are repairing the damage done by the storm and the structures will be restored by the first of the year.

A dispatch from Mr. Warrick yesterday stated that the total damage would form had been carried away and the front of the lower house, facing the east, carried away. The west half was badly wrecked and the shingles stripped from all the buildings. The engine, which operates the fog signal was disabled and until repairs can be made there will be no fog horn on Lincoln Rock.

CURES

There is nothing that causes more worry and discomfort than a chronic, festering ulcer. As it lingers, slowly eating into the tissues and surrounding flesh, and by its tendency to grow worse in every way, it suggests the possibility of being cancerous in its nature. Efforts to heal the ulcer by means of salves, washes, lotions, etc., always result in failure, because such treat-ment can have no possible effect on the blood where the impurities and ment can have no possible effect on the blood where the impurities and morbid matters form, and are carried thorugh the circulation to the place, to keep it open, irritated and diseased. The impurities in the blood must be removed before the healing process can begin. S.S. S. goes to the fountain-head of the trouble, and drives out the germ-producing poisons and morbid impurities which keep the ulcer open. Then as this rich, purified blood is carried to the diseased place the healing commences, the inflammation gradually leaves, the discharge ceases, new tissue and healthy flesh are formed, and soon the sore is permanently cured because the source has been destroyed. S.S.S. does not make a surface cure, but by supplying the blood with healthful, tissue-building properties it begins at the bottom and causes the flesh at the diseased spot to firmly and permanently knit together, and the place is left sound and well.
