

MEXICO HAS PLAN TO PUNISH ZELAYA

Creel Going to Washington to Discuss It With Taft and Knox.

WILL TELL MEXICO'S VIEWS

Agent of Nicaraguan Insurgents Says Only Acceptable Intervention Is That of Two Latin-American Powers.

MEXICO CITY, Dec. 6.—Ex-Ambassador Creel, now Governor of Chihuahua, will leave Mexico City tomorrow night for Washington, where he goes on a special mission connected with the Nicaraguan situation.

It is known in Mexico City that the Mexican government has received a reply to the letter sent by Foreign Minister Mariscal to the United States Government, in which he outlined a plan for the peaceful settlement of the Nicaraguan problem, but the Foreign Office refuses to divulge its contents.

It is believed Governor Creel is going to state concisely the attitude of the Mexican government in Nicaragua, the election of a President by popular vote. A government composed of Zelayistas and revolutionists would mean simply a new war in the future.

ZELAYA FORCES MOVING EAST Washington Gets Another Report Dictator Is Trying to Flee.

WASHINGTON, Dec. 6.—A message from the United States State Department, dated December 4, to the effect that it is reported there that President Zelaya is sending troops and artillery westward, and that rumors are renewed of his intention to leave Nicaragua, has been received at the State Department.

No official information has reached here of the purpose of Mr. Creel, former Mexican Ambassador to the United States, to come to Washington as the representative of Mexico to make oral representations to the State Department concerning the Nicaraguan situation.

It is said in the State Department that Mr. Anderson's only mission in Washington is in connection with the boundary dispute between Costa Rica and Panama, and the announcement is officially made that Chief Justice Fuller, of the United States Supreme Court, has consented to act as arbitrator in that dispute.

The statement is made authoritatively that the Mexican government is in full accord with the views of the United States with respect to Nicaragua, and that she will sustain this government in carrying out these policies.

TREAT ZELAYA AS MURDERER Sulzer Proposes Severe Measures Against Nicaraguan Tyrant.

WASHINGTON, Dec. 6.—Representative Sulzer of New York, introduced in the House today a resolution asking the President of the United States to use the Army and Navy of the country to restore order, maintain peace and protect life and property in Nicaragua.

The resolution recites that the United States demanded the arrest, trial and punishment of President Zelaya for the willful murder of American citizens; ample apology from Nicaragua and reparation.

MURPHY IS RE-ELECTED Pendleton Mayor Wins by More Than 2 to 1 in Hottest Election.

PENDLETON, Or., Dec. 6.—(Special.)—By a vote of more than two to one, Mayor E. J. Murphy was re-elected over Dr. E. R. Swinburne in today's election. The interest manifested in the majority contest was the greatest in years and the vote polled was probably the heaviest ever cast at a city election here.

A total of 703 votes were cast. Murphy obtained 457 and 246 were cast for Swinburne. The question of prohibition or law enforcement did not enter into the campaign and the contest was one of factions rather than one of parties or between men.

Other officers elected were Major Lee Moorhouse, Treasurer; G. I. Ladow, Water Commissioner; C. W. Brownfield, Joe Ell, J. L. Sharon and W. E. Brock, Councilmen.

ALARM COMES EACH HOUR Fire Department Busy During Early Part of Night.

The Fire Department was compelled to respond to one alarm an hour from 6 o'clock up to midnight last night. Twice the wagons were sent scurrying to extinguish blazes that originated in a distinguished building along the Southern Pacific Railroad track, between East Sixth and Grant streets.

Chimney fires occurred at 978 Williams avenue, 584 Fifth street, and 405 Russell street. No damage is reported.

COUNTY RECORDS TANGLED Clerk Refuses to Certify Because of Alleged Errors.

HOOD RIVER, Or., Dec. 6.—(Special.)—A contention of several months' standing between the County Clerk, George D. Culbertson, and the Hood River County Commissioners in regard to the county records is expected to be brought to a climax tomorrow when the County Court meets and it will be shown that the records have not been transcribed correctly.

STORM INCREASES OVER NORTHWEST

Biting East Winds Extend to Ocean Points and Silver Thaw Is Feared.

SIX BELOW AT PRINEVILLE

Puget Sound Has Heavy Snowfall, and in Portland Power Plant Has Trouble, and Streets Are Stalled.

VASSAR GIRL TAKES LIFE BREAKS DOWN FROM OVERSTUDY AND DROWNS SELF.

Father's Sacrifice for Her Sake Preys on Mind and She Evades Watchers.

FISHKILL LANDING, N. Y., Dec. 6.—The body of Margaret Dauerty, the Vassar student who disappeared yesterday, was found late today in the cistern of her father's home at Hughsonville.

MISS DAUERTY, who was the daughter of Dan J. McLoughlin, last night re-elected President of the Ancient Order of Hibernians of Portland.

At its meeting last night the local lodge of the Ancient Order of Hibernians elected officers as follows:

President, D. J. McLoughlin, vice-president, P. J. Burns; secretary, T. J. Evers; financial secretary, E. Darnly; treasurer, Neil O'Haire; sentinel, James Tierney; sergeant-at-arms, T. E. Dougherty; standing committee, J. O'Meara, Frank Collier, Thomas Cullen, E. H. Deery, John Norton.

Rev. William H. Dauerty, wandered away from the care of her friends yesterday morning. It was known that she had been forced to abandon her studies at Vassar because of mental strain due to overwork.

A detective found her body in six feet of water at the bottom of the cistern. Examination indicated a carefully planned suicide and no evidence of foul play was found.

Miss Dauerty was ambitious to make her first year at Vassar a creditable one. She knew that her father had abandoned a rich parish in New Jersey to accept his small charge in Hughsonville that his daughter might live at home while she attended Vassar.

Three weeks ago she broke down. The thought that her disposition had nullified her father's sacrifice for her so preyed on her mind that the family feared she might attempt suicide and tried to keep a close watch on her.

Sunday morning she disappeared and many searching parties failed to find her until late today.

Homeless Are Suffering. Families whose homes in the Grays Harbor country were swept away by the recent floods are suffering because of the extremely cold weather, many being compelled to seek shelter with neighbors.

Loggers, however, are pleased to see a heavy snowfall, which means assistance in log-driving operations.

In Seattle, after a week of cold, clear weather, during which the temperature fell to 24 degrees, a new low record for December, there was a snow storm last night that threatens to continue until morning.

At Vancouver, Wash., yesterday's storm was one of the worst in years. Sawmills were forced to shut down, and orders for fuel are greater than the dealers can fill.

The traffic on the streetcar line was irregular, and there was considerable trouble with the electric lights and power. The temperature yesterday morning was 15 degrees above, in Clark County many large trees were blown down, blocking the highways.

Hood River is still in the grip of extreme cold weather, the temperature yesterday dropping to 13 degrees above zero, with an east wind. The snow is eight inches deep.

The steamers Kansas City, Sue Elmore and F. S. Loop, which arrived in that port yesterday afternoon, are storm-bound there.

"Silver Thaw" Is Feared. The probability of a second "silver thaw" in Portland was given serious consideration at the Government weather Bureau yesterday.

The barometer in four hours fell 25 of an inch. The thermometer maintained an average of 27 degrees above zero, with the probability of a sudden rise in the temperature.

A dispatch yesterday at noon from the Government observatory at Tatoosh Island, of the Washington coast, reported that the barometer had fallen .10 of an inch in two hours, with an eastern wind registering a velocity of 12 miles. At the same time the North Head station reported a fall in the barometer of .14 of an inch in two hours.

Both reported a cloudy sky and indications of a worse storm coming. Just when this will reach Portland, or whether it will veer to the north or south, cannot be judged at this time.

The precipitation since September 1 was placed last night by the Weather Bureau at 13.47 inches, making an excess of 2.41 inches. The maximum temperature yesterday was 22 degrees above zero, while the minimum was 23.0. The coldest place in this weather district was Klamath Falls, B. C., registering 10 degrees above zero.

The unsettled conditions are continuing, and are favorable for continued cold weather Tuesday, with snow and brisk high east winds in Western Oregon and Western Washington. There will be a slight moderation of the weather over the rest of the district Tuesday, with snow flurries in the eastern portions of Oregon and Washington, and fair weather over Idaho, said Observer Drake.

SALEM, Or., Dec. 6.—(Special.)—The snow of last Saturday, followed by rain in the evening which filled the streets and gutters with slush, was supplemented by another heavy fall of snow here this afternoon, and there is four inches on the level here tonight. The temperature was such that the pavement was a glare of ice in places, and teaming was difficult.

It is warmer and raining tonight, however, and the snow is melting rapidly. Streetcar traffic was tied up a greater portion of the afternoon.

WARMER WEATHER FOLLOWS DAY OF "SILVER THAW." EUGENE, Or., Dec. 6.—(Special.)—The snow of last Saturday, followed by rain in the evening which filled the streets and gutters with slush, was supplemented by another heavy fall of snow here this afternoon, and there is four inches on the level here tonight. The temperature was such that the pavement was a glare of ice in places, and teaming was difficult.
