

WHEAT WANTS WHEAT

Inquiries are again received in the Northwest.

ALL GRAIN VERY STRONG

Oats Steadily Advance With Small Prospect of Getting Outside Supplies—Produce Trade Is Active.

All the grain markets seem to be engaged in a race for top mark honors. Wheat, oats and barley are being steadily pushed upward. The high prices in the East immediately affect values in this section because of the lightness of available supplies. A good part of the demand comes from California. The Southern dealers are active on grain during all the early part of the season, but they have had to come into the market at last and are now active buyers. Most of the transactions at extreme prices which are reported from time to time are for California account.

Wheat is in local warehouses reported to be very light and buying is of a hand-to-mouth character. Receipts have been light for some time and no cars came in yesterday. The demand in the country is so keen that it takes up practically all the cars that are offered. Local holders asked as high as \$2.15 yesterday, but there were no buyers at that price.

Dealers who have made an effort to get into the East have not been able to accomplish anything. A wire from an Eastern source stated that prices had advanced sharply, as the cold weather reduced offerings in the East. Dealers in the Northwest are high in Montana to permit oats being brought from that state. Canadian oats are out of the question at present. The demand for barley is almost as strong as for oats, and offerings are on a very light scale.

The rise in wheat prices in the Eastern markets has further reduced the number of sellers in the Northwest. Buyers in this market quote as fair prices \$1.17 to \$1.18 for bluestem and \$1.05 to \$1.07 for buck, though as high as \$1.19 has been paid for the latter. There were offers yesterday equivalent to \$1.15 in the Big Bend country for bluestem, with farmers demanding \$1.20. The most interesting news of the day in the wheat market was a wire from Spokane reporting that there were inquiries from the East in that market for wheat.

Local receipts in cars were reported by the Merchants Exchange as follows: Wheat Barley Flour Oats Hay Monday 77 10 21 12 14 Tuesday 64 15 18 11 17 Wednesday 63 18 19 12 18 Thursday 64 21 20 13 19 Friday 63 20 19 12 18 Saturday 64 21 20 13 19 Sunday 63 20 19 12 18

POULTRY MARKET IS VERY WEAK. Steady Decline in Chicken Prices—Turkeys Are Slow. Weakness is still the feature of the poultry market. Receipts are out of all proportion to the demand and prices, especially of chickens, continue to decline. Sales of hens were made as low as 13 1/2 cents yesterday. For dressed turkeys, 25 cents was quoted as the top. A car of mixed fowls was received from the Northwest by a local packer and will probably be held for the Christmas trade. Two cars of dressed turkeys and a car of ducks, geese and chickens is coming from the East for the holidays.

The egg market is steady and unchanged. An improved demand is expected for the next 10 days, which may cause a firmer market. SEATTLE, Wash., Dec. 14.—(Special.)—Reports received here from Portland stated that dealers were offering 25 cents for turkeys there, which local dealers here believe that a strong market is in sight for light receipts. Only for an overabundance of dealers will take no chances and the Eastern poultry with delivery as unsatisfactory as present. It is estimated that 28 cents and live at 25 cents. The market for eggs is steady and unchanged. An improved demand is expected for the next 10 days, which may cause a firmer market.

TOP GRAIN RUMORS

Wide Movements in the Less Important Stocks.

LEADERS ARE IRREGULAR

Preparations for Enforcing the New Tax a Source of Disquiet to Corporations—Time Interest Rates Are Lower.

NEW YORK, Dec. 14.—The stock market today was still characterized by the wide movements in stocks not usually prominent in the dealings. The sudden awakening into activity of these at advancing prices was accompanied in some cases by "dead" rumors. Here and there were counter rumors of demand, in anticipation of the profits to be available for use after the first of the year. In the bond market, where it is usually more quiet, there was a perceptible impression at all the demand for bonds continuing inert up to this time.

The speculative movement was halting and irregular. The active strength of the first hour seemed to be taken advantage of to effect some distribution of stocks and the tone was dropping thereafter. The action of the day was of large synthetic effect in this result. That stock after early strength, sold off on reports that the printing of a report on the dividend would be held tomorrow.

Attention was attracted by a report that the United States Steel Corporation will employ this year in pursuance of the program plan, instead of common stock, for which the employees were allowed to subscribe at 50 last January.

Preparations for enforcing the corporation tax are a source of disquiet to corporations. The rate of interest on the new issue of the varying rumors of the merger of the United States Steel Corporation, which official details were lacking today. Interest rates for 90 days and six months were lowered today, with increased offerings and increased demand. Call loans again touched 5 per cent. Foreign exchange rates were higher again today and gold was engaged for shipment to South America.

SEATTLE DEALERS LOOK FOR GOOD CHRISTMAS PRICES. Afraid to Order in East because of Uncertain Deliveries—Butter and Eggs Firmer. SEATTLE, Wash., Dec. 14.—(Special.)—Reports received here from Portland stated that dealers were offering 25 cents for turkeys there, which local dealers here believe that a strong market is in sight for light receipts.
