

MEXICO READY TO HELP OUT ZELAYA?

Diplomats See Scheme Behind Dispatch of Gunboat to Corinto Harbor.

ODD PREDICAMENT ARISES

Should Nicaraguan Executive Escape to Mexican Boat, Trouble Might Arise Between Diaz and United States.

WASHINGTON, Dec. 14.—In Central American diplomatic circles, here, the dispatch of the Mexican gunboat Guerrero to Corinto is taken to have only one meaning—the furnishing of an asylum for President Zelaya when he is forced to abdicate.

The diplomats, practically all of whom are acquainted with the depth of the water in that harbor, point out that the Guerrero can make fast to the piers there, while the American gunboats, the Yorktown and the Wickburg, are of too great draft to approach close to the shore. This fact gives a great advantage to the Guerrero, provided her errand is to rescue Zelaya from American redistribution.

Unless a large contingent of United States marines or bluejackets is landed to prevent the approach of anyone to the Mexican war vessel, Zelaya might slip aboard, say Central Americans here, and then laugh at any attempt at his capture.

Once on the Guerrero, the Nicaraguan president would be technically on Mexican soil, and United States naval authorities would be powerless; unless it were decided to make an issue and take Zelaya by force—an act that would be tantamount to a declaration of war with Mexico.

MANAGUA IS IN OPEN REVOLT

Vigilance Committee Watches to Prevent Zelaya's Escape.

MANAGUA, Nicaragua, Dec. 14.—The people of Managua are in open revolt against Zelaya, without check from the police, and a vigilance committee has been organized to prevent the escape of the President. The people openly demand intervention by the United States, and are crowding the streets, giving vent to unbridled denunciations of the administration. "Long live liberty," "Long live the United States," "Long live Mexico," "Long live Estrada," are heard on every side. The street demonstrations began last night from denunciations of Zelaya, and the temper of the people was raised by the report that a battle had been fought and won by Vasquez, commanding the Zelayan forces, around Rama, where that Vasquez had massacred a large number of revolutionists.

With this report came the additional rumor that Vasquez had violated the armistice, and that he had received instructions from Zelaya. These reports lost nothing in passing from mouth to mouth. At the Mexican Minister was the guarantor of the armistice, it is stated that that official will ask for his passports, unless satisfactory explanations are given.

The whole country is in a ferment. Zelaya is denounced on every hand, but he is master of the situation and the people fear a wholesale massacre of political prisoners. The prisons are full of men, most of whom are half starved and doubtless would welcome death.

A serious danger threatens, for the American concessionaire of the electric lighting plant declares that he will put the whole city in darkness if a large sum of money due is not paid before noon tomorrow. This bill amounts to 19,000 pesos, and it is hardly probable that the demand will be met.

The American Vice-Consul, Henry Calder, has stuck to his office under conditions of much danger.

BAD FAITH, SAY RESOLUTIONS

Central Americans in Mexico Denounce United States.

MEXICO CITY, Dec. 14.—Resolutions passed by a committee selected at a meeting of the Central Americans in Mexico City, denouncing the action of the United States in reference to Nicaragua and Zelaya, were mailed here today to President Taft and Secretary Knox. They were ratified at a mass meeting of members of Central American colonies in this city late last night. They were in part as follows: That the Government of the United States has no right to interfere in the interior affairs of Central American states, despite the reasons stated by you, and we affirm that the purpose of the United States in consummating an offense against Nicaragua, amounting to a declaration of war, is to consummate the credit of some Central American.

That Nicaragua has grounds to consider that the present revolution has been promoted by the Government of the United States and has perfect right to claim that that government an indemnification sufficient to pay for the loss of life and interests which your government has caused with its irregular proceedings.

That if the Government of the United States had sought in good faith an equitable and impartial solution of the conflict, it would have accepted at once the mediation offered by the Government of Mexico to solve the question peacefully—a mediation which was offered, according to a declaration of the Mexican Government to the press.

We as citizens of five republics of Central America, declare that your note is opposed to the sovereignty and dignity of our common country, but principally to the Republic of Nicaragua; that we consider the note and its contents as an insult to our people, and in consequence we protest against the irregular action of your government in practicing against Nicaragua, and we call upon all our countries in Central America and abroad to be alert with respect to the dominating and absorbing tendencies of the American Government in order that should the occasion present itself, they may act as the patriots and independence of our five republic may demand.

ROAD WORK STATE'S DUTY

Taft Opposes National Aid in Constructing Highways.

TOPEKA, Kas., Dec. 14.—National aid for permanent roads, a system of National highways connecting capitals of the various states and of state highways connecting various county seats, use of Federal prisoners for building roads and the establishment of road-making on a strictly business basis are some of the suggestions made today at

Nicaraguan Congress Makes Final Attempt to Add to List of Zelaya's Monopolies in Violation of Constitution.

(Continued From First Page.)

In Washington, had an interview with Secretary Knox this afternoon. He presented a statement from President Diaz, containing his views. At the State Department this afternoon it was announced no statement could be made with respect to the Mexican note for the present, at least, or until department officials had an opportunity to give it thorough consideration. It is expected, however, that this Government's reply may be ready for delivery to Governor Cress within the next day or two.

Zelaya Is Monopolist.

The report from Managua that the Nicaraguan congress, probably anticipating the early retirement of President Zelaya, attempted to authorize important concessions for Zelaya, calls attention to the number of vastly remunerative monopolies already enjoyed by Zelaya and his friends. The facts as to these monopolies are contained in official reports to the State Department and are said to be susceptible of absolute proof. This attempt at wholesale monopolization of the resources of the republic and, in fact, the recognition or toleration of monopolies in any form, is in direct and deliberate violation of the Nicaraguan constitution, which specifically ordains that "there shall be no monopolies that pay very large dividends."

Rum Privilege Pays Richly.

One of those is called the Aguardiente Symplocos, which handles rum made from sugar cane. This monopoly paid in the year 1910 per cent. Still another is the cattle syndicate, which pays 2 per cent a month. Other monopolies include the sole right for exportation of coconuts on the Atlantic Coast; the exportation of turtles, sponges, pearls and mother of pearl on the Atlantic Coast; the fisheries on the Pacific Coast; a company formed for the introduction of crude oil for refining in Corinto; the monopoly for mail manufacturing; the soap trust.

It is said that President Zelaya controls all the monopolies and concessions mentioned and receives the lion's share of their abnormal earnings. The existence of these and many other unlawful monopolies has constituted a great burden to the Nicaraguan people, and has resulted in an almost complete paralysis of trade.

MORALES TAKES THREE TOWNS

Estrada Proclaimed President as Rebels March On.

BLUEFIELDS, Nicaragua, Dec. 14.—An official message, received at the insurgent headquarters here, announces that General Morales, at the head of a band of insurgents, has captured Tagua, Orisi and Supoa, three small towns on the Costa Rican frontier. Morales proclaimed Estrada President of Nicaragua and continued his march to attack the important town of Rivas. General Estrada and his followers have taken courage at the prospect of assistance from the United States in their efforts to overthrow the government of Nicaragua.

The United States cruisers Des Moines and Tacoma and the coiler Leonidas, with their crews on board are still lying outside the harbor. A cablegram reports that 700 additional marines from the United States have started for Colon, and that they will be sent here to reinforce the bluejackets now in the harbor. United States Consul Moffat is making tentative arrangements for shore quarters for the American fighting men. The Consul is in hourly communication with Commander Shipley of the Des Moines and Commander Black of the Tacoma, and also is exchanging long cablegrams with Washington.

This place was defended by 20 men, four of whom were killed. The rest retired. According to advices received here, General Morales was seriously wounded. After the engagement the victorious revolutionists burned the houses and pushed forward.
